LAW SECRETARIAT

nctions the introduction of the Wage Earning Scheme n the Central Jail, Bangalore, for the benefit of the Labouring Prisoners.

AD—

Government Order No. P. 882-83—Pris. 2-42-9, dated the 4th August 2, ordering on the recommendations of the Prison Reforms Committee e issue of rules in the matter of pooling a certain percentage of labour rges earned by prisoners in Jails to a fund to help them to start life esh after their eventual release from jails.

2. Correspondence ending with letter No. 63—Pris., dated 22nd August 1951, from the Inspector-General of Prisons, forwarding for consideration and orders revised detailed note on Wage Earning Scheme in jails furnished by the Superintendent, Central Jail, Bangalore.

ORDER No. H. B. 7795-800—PRIS. 51-51-4, DATED BANGALORE, THE 20TH DECEMBER 1951.

The question of employment of prisoners in Jail Industries and paying them some remuneration for the extra work done by them, and to distribute the earnings in an equitable manner so that prisoners may start their life after their release, with some capital kept in deposit in their account out of their earnings, was under the consideration of Government some time past. It was also considered that such a course would not only be good to the health of the prisoners but also go a long way in reforming and educating the prisoners by keeping them busy and would ultimately train them for a profession or trade after release from jails.

2. This question had also been considered by the Prison Reforms Committee. They had recommended that it would be desirable to create some incentive among prisoners to work diligently and to find a small defined percentage of labour charges earned by each prisoner assessed on the calculation of manufacturing cost. No definite action could be taken in this direction as it was considered that a successful working of the scheme was beset with large financial implications besides involving administrative difficulties.

3. With a view to giving a fair trial to the subject, the Inspector-General of Prisons was requested to forward a scheme on "wage earning" in jails by prisoners with specific proposals indicating the financial implications involved therein. The Inspector-General of Prisons forwarded for consideration of Government a scheme furnished by the Superintendent, Central Jail, Bangalore, embodying detailed proposals indicating the financial commitments also. According to the scheme the several industries and tasks in the Jail have been grouped into three categories, *viz.*—

(1) GROUP 'A'—Comprising of those industries and tasks which purely serve the needs of the jails;

(2) GROUP 'B'—Comprising those which are profit-earning and which do not serve the needs of jails; and

(3) GROUP 'C'—Which serve the needs of both public and jails alike.

The Superintendent, Central Jail, Bangalore, has also furnished the names of several industries and tasks under each category. The Superintendent has stated that taking the wages of a prisoner employed in 'A' category at eight annas per day and at Rupee one per day to a prisoner employed in 'B' and 'C' categories and taking that 150, 170, and 130 prisoners are required for the three categories respectively, the total amount of expenditure by way of wages would be Rs. 1,03,125 a year, total number of working days being at 275. He has also stated that against this annual expenditure, a total of Rs. 1,09,125 could be expected to be recouped to Government as per details given and that there would be a savings of about Rs. 1,500 after deducting Rs. 3,400 towards additional staff required for the working of the scheme. The Superintendent has also sought sanction to the delegation of certain powers to him to effectively administer the scheme.

4. The above proposals were considered at a meeting held in the chambers of the Hon'ble Minister for Law and Labour at which the Inspector-General of Prisons, the Law Secretary, the Under Secretary to Government, Home Department, and the Superintendent, Central Jail, were present. The scheme was generally approved and the wages were fixed at annas four per head per day for prisoners employed in 'A' group of industries and tasks and at annas six per head per day to those engaged in 'B' and 'C' groups of industries. The Inspector-General of Prisons was again requested to send up revised proposals in the light of the decisions taken at the meeting and taking other aspects if any into consideration.

5. The Inspector-General of Prisons forwarded revised proposals prepared by the Superintendent, Central Jail, Bangalore, based on the decisions taken at the meeting.

The ways and means of implementing the scheme have been worked out on the following basis :—

(i) Payment of wages at annas four per head per day to those prisoners employed in 'A' group of industries and at annas six per head to those prisoners engaged in 'B' and 'C' group of industries ;

(ii) Recovery of 40 per cent of the earnings of the prisoners employed in the three groups towards their maintenance charges ;

(iii) Recovery of wages in full for 'B' group employment of prisoners and 50 per cent wages for 'C' group employment of prisoners, through the sale of articles manufactured by the said groups ;

(iv) Savings to be effected to Government by non-payment of beedi, tobacco and pan charges which is now being paid to the extent of Rs. 3,500 per annum by payment of wages to the groups as proposed.

Wage Earning Scheme" calculated on the above which is shown to be profitable to Government to the extent of Rs. 2,984 per annum is worked out as follows :—

Division of jail industries into groups	Incidence of wages. No. of prisoners employed and the daily rates of wages	Total amount of wages payable per annum	Forty per cent to be recovered towards maintenance charges	Recovery of the wages by the sale of articles manufactured	*Saving Rs.
GROUP 'A'		Rs.	Rs.

			Rs.

Recoveries	...	...	44,232

The Superintendent has also stated that the scheme could be made self-supporting provided the manufactured goods of the industries are made and sold at competitive rates. To achieve this he has suggested—

(1) the purchase of raw materials on a large scale at favourable rates ;

(2) to place at his disposal a sum of Rs. 1,12,500 as an 'Operational Advance' for making purchases; and

(3) to introduce improved tools and plant, the cost being met out of the amount of Rupees One lakh provided under 'Capital Equipment' of the budget of the Prisons Department.

While the details of the main scheme are as noted above, the Inspector-General of Prisons has expressed the view that the Scheme may be tried in one section of the industries as an experimental measure and if it succeeds, to introduce it to the other sections of the industries. He has accordingly solicited orders—

(1) to introduce the scheme during the current year in one section in the first instance, *viz.*, the press including the Binding Section, which is only a portion of Group 'B' employment ;

(2) to employ about 30 persons on the work rate of six annas per head per day ;

(3) to the appointment of one Accounts Clerk in Rs. 40–2–50–3–80 involving an annual expendit Rs. 680 excluding Dearness Allowance ;

(4) to make bulk purchases of raw material large scale ;

(5) to introduce improved tools and plants.

6. In order to judge whether the scheme would supporting as stated by the Superintendent, Centr details regarding—

1. Raw Materials ;
2. Wages ; and
3. Other expenses have not been furnished.

Besides, it is also not clear how far these are cover sale proceeds. Further the rising cost of materia uncertainty about the quality and turnover mak scheme unremunerative. Government accordingly co it advisable to try the scheme gradually and to ext after they are convinced that a particular scheme supporting. With a view to giving a fair trial scheme which is anticipated to give a start and a liv the prisoners after their release from jails, it is directe the above scheme may be introduced only in the *Pr and Binding Section* as recommended by the Insp General of Prisons and tried for one year and the watched. It is further directed that maintenance ch at 40 per cent may be deducted and only net wages p the prisoners employed in the work. Sanction is accorded to the appointment of an Accounts Clerk grade Rs. 40–2–50–3–80 for a period of one year.

It is not considered necessary to place any opera advance at the disposal of the Superintendent, Centra Bangalore, as it has been decided that the working adv should be dispensed with. The materials have theref be purchased by the Prisons Department according programme and after due provision is made unde service head itself.

Regarding tools and plant required for the indu it is directed that only essential articles not exce Rs. 25,000 may be purchased for the current year and de proposals my be forwarded by the Inspector-Gene Prisons in this behalf. The necessary expenditur implementing the scheme may be met out of the pro of Rs. 1,00,000 provided in the current year's budget " Capital Equipment 29 Jails and Lock-ups ".

The Inspector-General of Prisons is requested to for details of the results of the working of the scheme a end of the period indicated above.

LOCAL SELF-GOVERNMENT SECRETARIAT

Records the Administration Report of the Stores Purchase Committee for the year 1950-51.

READ—

Letter No. S.P.C. 19653, dated the 30th August 1951, from the Secretary, Stores Purchase Committee, Bangalore, forwarding the Annual Report of work done by the Stores Purchase Committee during the year 1950-51.

ORDER No. S.R. 6279-6358—S.P.C. 7-51-2, DATED BANGALORE, THE 15TH DECEMBER 1951.

Recorded.

2. The total value of purchases of all kinds arranged by the Stores Purchase Committee both from Firms in India and in Foreign Countries during the year under report, was Rs. 1,86,74,778, as against Rs. 1,22,45,741 in 1949-50. The increase in the value of purchases was due to the violent fluctuations in prices of almost all materials, and partly to the increased indents of some growing Departments such as the Occupational Institute, the Government Electric Factory, the Agricultural College, the Electrical Department, etc. The prices of almost all materials were high and the speculative tendency of the trade continued to prevail.

3. Messrs. Rendel Palmer and Tritton, Ltd., continued to act as Consulting and Inspecting Engineers in London, in respect of all Railway Stores until the Mysore Railway System was taken over by the Government of India, under the Scheme of Federal Financial Integration. Since then, the services of this Firm are not being utilised. Messrs. Best & Co., Ltd., Madras, continued as Clearing and Forwarding Agents of Mysore during the year. services were uniformly satisfactory. The Trade A Office in London continued to render assistance t Stores Purchase Committee as usual.

Issues orders in regard to Economy Measures.

ORDER No. Fl. (B) 4622-4722—L.F.A. 79-51-1, DATED BANGALORE, THE 8TH FEBRUARY 1952.

Orders of the Government have been issued from time to time on some of the proposals of the Economy Officer. The retrenchment measures covered by orders already issued have not secured appreciable savings and there has not been much co-operation from the departments in securing savings. Appreciable increases are being noticed in several departments and the temporary establishments are continued indefinitely without completing the work within the time as contemplated when the establishment was first sanctioned. The enhancement of Dearness Allowance to non-gazetted staff and normal increase in expenditure in all departments has also upset the Budgetary position and reduction of expenditure on a percentage basis has become inevitable.

2. After consideration of all aspects of the case, it is directed that the following measures be adopted :—

(i) A general saving under each Major head of account has to be effected. In the Budget of 1952-53 to be framed according to the usual rules a saving of 5 to 10 per cent of the total grant will be shown under the Major heads concerned and *within one month* after the Budget is passed in the Legislature, the Heads of Departments should scrutinise and intimate to the Accountant-General, the detailed heads of account under which the savings will be effected. Savings should generally be confined to recurring charges, such as Salaries, Establishment, Travelling Allowance, Contingencies and special charges peculiar to each department and incurred every year. In exceptional cases, savings may be effected under charges of a non-recurring nature also. In any case, savings thus effected under the respective heads will form the basis in making provisions for future years.

In effecting retrenchment of hands, the following should be kept in view :—

(*a*) Vacant posts for which provision has been made may be kept unfilled if possible, or they may be filled up by taking persons from the posts filled up and to be retrenched, according to exigencies of service;

(*b*) In departments where after giving effect to percentage cut under the grant there are still a number of vacancies requiring to be filled up, the Public Service Commission may be requested to give preference to thrown out employees in filling up the vacancies.

Orders fixing the scale for menial staff will issue separately.

(ii) Except in the case of those proceeding on leave preparatory to retirement or on medical grounds, leave should not ordinarily be granted in excess of two months and arrangements should be so made that no extra cost is involved.

(iii) The touring officers should strictly limit their Travelling Allowance to the monthly limits by regulating the Tour Programme and in no case should it exceed the Budget provision.

(iv) The Budget provisions should not be exceeded and the departments should on no account ask for additional grants during the year unless there are really extra ordinary causes.

The Heads of Departments are requested to give effect to the above promptly.

Secretary to Government,
Finance Department.

Issues instructions for the prompt disposal of Pension Cases of the Retired Officers.

OFFICIAL MEMORANDUM.

ORDER No. FL. 6844-6436—S. & A. 812-51-2, DATED BANGALORE, THE 25TH JANUARY 1952.

Of late, instances of inordinate delay in the disposal of pension cases are coming to the notice of Government frequently. The retired officers have been representing to Government the hardship caused to them on account of the non-settlement of their pension claims. The Accountant-General has been repeatedly bringing to the notice of Government that several pension cases pending with him could not be finalised for want of particulars from the Heads of Departments, regarding service, pay, leave taken, etc., of the retired officers. The absence of the proper maintenance and periodical scrutiny of the service records of the retired officers by the departmental officers has been stated to be the cause of undue delay in the settlement of pension cases.

The Heads of Departments are requested to impress upon all the officers concerned the need to pay proper attention and avoid delay in the disposal of pension papers at every stage.

ıty tons of groundnut oil-cake powder were stocked Government Farms and made available to Sericul- at cost price for manuring their gardens.

Propaganda.—In addition to the demonstration and teaching of improved scientific methods in mulberry cultivation, silkworm rearing and silk reeling to Sericulturists, the Propaganda Staff toured the villages, collected sericultural statistics, ascertained the requirements of Sericulturists with regard to mulberry cuttings, manure and disease-free layings and arranged for the supply thereof wherever possible.

Silk Reeling.—The total production of the Filatures during the year amounted to 63,928 lbs. of silk as against 52,869 lbs. during 1949-50, the increase being about 20 per cent. The total production of Raw Silk, inclusive of Filature and Charaka, was about 16 lakhs pounds.

Sericultural Co-operation.—There were three Sericultural Co-operative Societies at Sidlaghatta, Melur and Mugur, but none of them did any work owing to lack of interest among the office bearers. A new society styled "The Arkavati Sericultural Co-operative Society Ltd." was formed at Chikkamudavadi, Kankanhalli Taluk, and it has set before itself a programme after the model of the Co-operatives in Japan. It is hoped that the Society will function well and serve as a model for several others to be started in other Sericultural Centres. The main object of the societies of this type is to help in preparing seed, increasing the yield and improving the quality of the cocoons and in producing in that area cocoons of uniform quality so as to facilitate production of silk of the same quality. Government have granted special facilities by way of providing technical assistance to this society.

Cocoon Markets.—Three voluntary markets were opened during the year at Ramanagaram, Melur and Santhemaranalli and these are financed by the Central Silk Board. Business to the extent of 47,530 lbs. of cross-breed cocoons, valued at about Rs. 75,000, was registered and both Government and private filatures participated in the operations of these markets.

Research.—Research was carried on in the Sericultural Research Institute at Chennapatna and in the Indian Institute of Science at Bangalore. The work on the improvement of the breeds of silkworm has indicated the possibility of increasing the yield. It is further shown that the Mysore Race can be improved to yield a renditta of 12·5. The nutritional experiments in the Indian Institute of Science have indicated that silkworms yield more silk by addition of Amino Acids to mulberry leaves. Experiments on grafts between Mysore and Japanese varieties imported are also being carried out.

General.—The year registered wide, rapid and violent fluctuations in the Silk Market. About 80,483 lbs. of silk valued at Rs. 34.22 lakhs, imported from foreign countries, was distributed to Silk Handloom Weavers through their Associations or Co-operative Societies. Assistance to Sericulturists was also given by way of Sericultural Loans. The Departmental Staff attended the periodical meetings of the Taluk and District Development Co-ordination Committees and the meetings of the Aided Graineurs' Associations. One unit of Multi-end Reeling Machinery imported from Japan was put into working condition at T.-Narasipur. The services of Mr. Taro Tanaka, the Japanese Reeling Expert, were also utilised for three months. The result of the working of this unit has shown that considerable saving could be effected in the manufacturing cost, while securing an improvement in the quality of silk reeled on this machinery.

The Department participated in the various Exhibitions organised in the State as a measure of publicity and propaganda. The Silk Conditioning and Testing House at Chennapatna, in addition to its normal work and activity, tested samples of silk and cocoons received from Uttar Pradesh and Madhya Bharat. The Government Silk Filatures, Kankanhalli, produced 27,696 lbs. of silk and sold 22,064 lbs. Mulberry Samplings imported from Japan were planted in the Silk Farm at Mysore. The Mysore Silk Advisory Committee met and discussed many matters of importance.

The total expenditure of the Department during the year was Rs. 4.82 lakhs as compared with Rs. 3.29 lakhs in

1949-50. The receipts rose from Rs. 1.85 lakhs to Rs. 2.34 lakhs which was the highest on record.

The work of the Department has been satisfactory and there has been progress on all directions.

The District and Taluk Conferences were being held since 1916. They were suspended due to economic depression in the year 1931. The organisation of these conferences was revived in 1938.

Instructions were issued in the above read Government Orders regarding the control, organisation, time and duration, etc., for holding of these conferences. These conferences were held till 1949. After the Taluk and District Development Committees were constituted the need for continuing these conferences was not felt. The Commissioner for Rural Development in Mysore suggested certain changes relating to the scope and procedure of these conferences. Pending examination of these aspects and partly as a measure of economy, the holding of the conferences was tentatively stopped.

There have been interpellations in the Legislative Assembly for the revival of the conference and resolutions from some of the District Boards are also being received in this behalf. After a careful examination of the question, it is directed that the holding of these conferences be revived

from next year. The instructions contained in the Government Orders read above may be adopted *mutatis mutandis*.

The Deputy Commissioners of Districts are requested to take action for the constitution of subjects and Standing Committees and forward to Government lists showing the names of the members of the committees. Issues instructions in the matter of Buildings or Premises taken on rent by the Government Departments.

ORDER No. A.F. 10197-219—AGRI. 125-51-2, DATED BANGALORE, THE 12TH FEBRUARY 1952.

CIRCULAR MEMORANDUM.

In the case of a building taken on rent by the Agricultural Department, it has come to the notice of Government that though the lease expired on 31st March 1948 a suit was filed by the owner claiming rent for a period of four months after the expiry of the lease. The Department alleged that possession of the building was actually handed over to a relative of the owner on 31st March 1948 itself but they failed to take an acknowledgment from him to that effect. This has resulted in the Government effecting a compromise in the case and paying the rent for four months as demanded by the owner.

2. It is impressed on all Heads of Departments that whenever they take up buildings or any premises on rent and the lease is terminated, the building or the premises should be handed over to the owner or the representative without any delay after the expiry of the lease and proper acknowledgment in writing from the owner or his representative obtained to that effect. The acknowledgment should contain particulars for having received possession of the building, etc., in good condition and for the fittings, attachments, and fixtures, if any, in the building being found in order. The Heads of Departments are requested to impress on the officers concerned that on failure to carry out these instructions, the officer or official concerned will be held personally liable for any subsequent loss to which the Government may be put by way of suit or other means.

Note.—The proviso to the above Article will not apply in cases of officiating appointments from one grade to another in the same class of posts lasting for not less than three months. Correspondence ending with letter No. 165/A./T.M., dated the 27th December 1951, from the Accountant-General, Mysore, Bangalore, regarding the Preparation of Production and Sales Budget for Government Commercial Concerns and their comparison with the actual results disclosed by *pro forma* accounts.

ORDER No. FL. (B) 5357-63—L.F.A. 87-51-6, DATED BANGALORE, THE 18TH FEBRUARY 1952.

The Accountant-General, Mysore, has suggested that each Government Commercial Concern should prepare an annual Production and Sales Budget and review the results of its working after the annual *pro forma* accounts are drawn up. Such a review with reference to Budget would conduce to effective financial control.

The form for the preparation of such a Budget from the year 1952-53 and onwards, accepted by the Accountant-General is appended to this order and the several Government Commercial Concerns are hereby directed to adopt this form with immediate effect and arrange to forward the Production and Sales Budget for 1952-53 for inclusion in the Budget Estimates for 1952-53. These Estimates should be based on the actual production and sales that could reasonably be anticipated and not with reference to unsanctioned scheme or schemes which have not been taken up.

Prescribes a time-limit to prefer Travelling Allowance claims of Government Servants.

READ—

Government Order No. Fl. 3695—S. & A. 78-49-2, dated 22nd November 1949, prescribing a time-limit of three months for preparation of bills relating to Travelling Allowance.

ORDER NO. Fl. 7195-7296—S. & A. 326-51-1, DATED BANGALORE, THE 29TH FEBRUARY 1952.

It is found in practice that the existing rule permitting Government Servants to prefer their claims to travelling allowance within a period of three months from

the date of completion of the journeys to which they relate, has not resulted in quick despatch of work, as a number of claims to arrears of Travelling Allowance are being sent to Government soliciting sanction even after a lapse of considerable time. It is considered necessary to relax the existing rule. It is, therefore, directed that no claim to Travelling Allowance preferred by a Government Servant will be entertained, if it is made after *six months* of the completion of the journey to which it relates.

The countersigning officers should refuse to countersign the bills presented after the prescribed period. When delay is caused by the countersigning officers, for want of prompt and timely action on their part and not on account of any fault of the touring officers, the bills may be submitted to Government for sanction and for taking such disciplinary action as may be considered necessary against the countersigning officers responsible for the delay.

The time limit of six months is to be counted from the close of the month to which the journeys relate to the date of presentation of the bills at the Treasury in the case of post-audit bills and the date of presentation to the audit office in the case of pre-audit bills.

Necessary amendments to the Mysore Civil Account Code, Volume I, will be issued separately.

There were 710 (1,881) deaths from plague. A total of 1,40,645 houses were fumigated in two cities, 10 towns and 235 villages. The number of deaths due to cholera was 1,124 (1,367). During the year under report, research work on the use of anti-biotics in the preparation of vaccine lymph was continued.

6. *Bureau of Health Education.*—Seventy-eight Cinema shows were organised in various places before an audience of 56,000. Four thousand leaflets and 157 departmental posters were distributed by the propaganda Unit.

7. *Bureau of Malariology.*—Pyrethrum spraying which was being depended upon mainly for control of rural malaria was practically replaced by residual insecticides like D.D.T. and Gammexane in several of the areas and in the remaining area, pyrethrum spraying was suspended. The results of anti-malaria work were quite satisfactory. The Malaria Control Demonstration Project under the W.H.O. in Sagar continued their activities in the second year of their programme. The area of operation was extended to include the whole of Hosanagar Taluk, including the Health Unit areas and part of Sorab Taluk.

General.—Experiments in nutrition among the school children were started during the year under report. Reference to the Public Service Commission cases of Officers whose increments are withheld for want of approved service.

ORDER No. CH. S. 11762-842—G.E. 10-51-39, DATED BANGALORE, THE 27TH FEBRUARY 1952.

The grant of annual increments to Officers in time scale of pay is governed by rules laid down therefor in Articles 79 and 81 of the Mysore Service Regulations. A question has arisen whether the withholding or deferring of increments of an Officer for want of approved service may be referred to the Public Service Commission. After ascertaining the practice obtaining in the Madras and Bombay Governments and the Government of India, it is directed that the following procedure be adopted :—

Cases, where increments are proposed to be withheld or postponed for want of approved service, need not be referred to the Public Service Commission before such increments are so withheld. If, however, the increment is withheld or postponed by way of a specific penalty for charges made against the Officers, the cases of the Officers concerned be referred to the Public Service Commission if they appeal against the orders withholding or postponing their increments.

Sanctions the Raising of an additional Battalion of the M.A.R.P.

READ—

Government Order No. H.A. 5319-31—Pol. 126-48-10, dated 11th October 1949, sanctioning the proposals for reorganisation and reduction in the strength of the Police Force in Mysore State.

2. Letter No. C2. 1031—50-51, dated 2nd February 1951, from the Inspector-General of Police in Mysore, submitting proposals for the raising of an additional battalion of Mysore Armed Reserve Police at an approximate cost of Rs. 5 lakhs per annum.

3. Government Order No. H. B. 1699-708—Mily. 143-49-38, dated the 30th May 1951, sanctioning the scheme of the reorganisation of the Non-I.S.F. Units, Mysore.

4. Letter No. C.I.D. 815—50-51, dated 30th July 1951, from the Inspector-General of Police in connection with the raising of an additional battalion of Mysore Armed Reserve Police.

5. Government Order No. H.B. 5709-12—Mily. 47-51-14, dated 26th September 1951, ordering the continuance of the Palace Band for a period of two years at a cost of Rs. 60,000 per annum.

6. Government Order No. H.B. 9326-29—Mily. 18-51-13, dated 20th February 1952, sanctioning an additional post of Superintendent of Police for the Mysore Armed Reserve Police—Palace Guards, and placing the Mounted and Dismounted units of the Mysore Armed Reserve Police—Palace Guards independently, each under the charge of a Superintendent of Police.

ORDER NO. H.A. 10965-80—POL. 433-51-2, DATED BANGALORE, THE 3RD MARCH 1952.

At present, the Armed Reserve Police Force in Mysore consists of three battalions. One of them is stationed at the Headquarters, Bangalore, under the control of a District Superintendent of Police who is assisted by an Assistant

Superintendent of Police. Another is located at the Civil Station, Bangalore, under the control of an Assistant Superintendent of Police. The third, which is the District Battalion, has been divided into several units, and distributed at various centres in the districts. One company of the District Battalion has been stationed at Mysore.

Ordinarily, a battalion consists of six companies; each company consists of one Police Inspector, 2 Subedars-Major, 2 Subedars, 5 Havildars, 8 Naiks and 121 Police Constables.

The Inspector-General of Police has pointed out that the existing strength of the Armed Police Force in Mysore State is inadequate, and that it requires to be strengthened for meeting any emergency, and for efficiently discharging the duties in connection with internal security, etc. He has therefore submitted proposals for the raising of an additional battalion of Mysore Armed Reserve Police at a cost of Rs. 5,31,206 per annum.

It would no doubt be necessary and useful to increase the strength of the Mysore Armed Reserve Police for internal security and general protection purposes during emergencies, as well as for guarding the borders of surplus districts to prevent smuggling of foodgrains. But the proposal of the Inspector-General of Police involves large expenditure, and the present financial position of the State will not permit it being sanctioned.

As it will not be possible to raise an additional battalion of Mysore Armed Reserve Police in the manner proposed by the Inspector-General of Police, an alternative method of forming a new unit has been examined and approved. This new unit will consist of only four companies (one existing and three to be newly recruited).

The main object would be not only to keep the recurring expenditure as low as possible, but also to maintain the permanent establishment of the Mysore Armed Reserve Police, in due course, at the original level of three battalions.

Sanction is accorded to the raising of three new companies for a period of six months only. These three new companies, together with the Dismounted unit of Mysore Armed Reserve Police—Palace Guards now existing in Mysore, will constitute the additional battalion of Mysore Armed Reserve Police.

Organisation and Command.—The Mysore Armed Reserve Police—Palace Guards now stationed in Mysore consists of two companies, one Mounted and another Dismounted (Foot). Hitherto, both these companies were to function under the control of one Superintendent of Police, assisted by an Assistant Superintendent of Police. But, according to Government Order No. H. B. 9326-29—Mily. 18-51-13, dated the 20th February 1952, these units will be placed separately, each under the charge of a Superintendent of Police. There being, at present, only one post of Superintendent of Police for the Mysore Armed Reserve Police—Palace Guards, sanction has been accorded in the same Government Order for the creation of another Superintendent of Police, abolishing the post of Assistant Superintendent of Police previously sanctioned.

Sri K. R. Krishna has been promoted as Superintendent of Police, to be in charge of the Mounted Unit. In addition to this unit, he will be in charge of the Palace Band also, which has been ordered to be continued for two years, at reduced expenditure.

Sri C. J. Ramdev, Superintendent of Police, is placed in charge of the Dismounted Unit. As this unit will form part of the new battalion to be formed by the addition of three more companies to be recruited, Sri Ramdev will be in charge of the new battalion.

The Mounted Unit and the new battalion will remain separate from each other. The Deputy Inspector-General of Police, Mysore, will exercise general supervision over both these units.

The Mysore Armed Reserve Police company which is in Mysore, will be moved to Bangalore, and it will form part of the District Battalion. This company will perform the guard duties at the Bangalore Palace and such other duties as may be assigned by the Inspector-General of Police.

The net result of the scheme will be as follows:—

There will be an additional battalion of Mysore Armed Reserve Police in Mysore consisting of the following four companies:—

(i) One company of the Mysore Armed Reserve Police—Palace Guards (Dismounted Unit).

(ii) Three companies of Mysore Armed Reserve Police to be freshly recruited in Mysore.

The additional battalion so raised will function under the control of the Superintendent of Police (Dismounted Unit), Mysore Armed Reserve Police—Palace Guards.

The Mysore Armed Reserve Police company now stationed in Mysore will be shifted to Bangalore for doing guard duties at the Bangalore Palace, etc.

Selection of officers and men.—After the integration of the Mysore State Forces with the Indian Army from 1st April 1950, a large number of officers and men, who belonged to the former Mysore State Troops, Palace Units, *viz.*, His Highness the Maharaja's Own Infantry and His Highness the Maharaja's Body Guard, and the Jillo Forces, have been demobilized. The question of their rehabilitation and resettlement has been engaging the serious consideration of Government. The raising of three new companies would make available the posts of 3 Police Inspectors, 6 Subedars-Major, 6 Subedars, 15 Havildars, 24 Naiks and 363 men. This would be an opportunity to provide employment to as many of the demobilised personnel as possible. Government therefore direct that all these vacancies be reserved exclusively for the demobilised officers and men of the units mentioned above.

The selection of three Police Inspectors and six Subedars-Major may be done by the committee which was first constituted in Government Order dated 30th May 1951 for the selection of the Superintendent of Police, etc. Selection to the other vacancies of Subedars, Havildars, Naiks and men may be made by the Inspector-General of Police.

Expenditure.—This additional battalion is sanctioned temporarily, for a period of *six months* only. The extra expenditure would be only in respect of the three new companies to be employed additionally. The expenditure on three companies would approximately be Rs. 2,20,631 per annum, at the rate of about Rs. 6,123 per mensem per company. With the addition of items like contingencies, travelling allowance and equipment and clothing, the total expenditure on three companies would be Rs. 2,71,631 per annum, as shown below:—

	Rs.
Expenditure on three companies per annum...	2,20,631
Contingencies	15,000
Travelling Allowance	12,500
Equipment and clothing	23,500
Total	2,71,631

Since the period of sanction is for six months only, the extra cost would be half of the above amount, *i.e.*, Rs. 1,35,815-8-0 (Rupees one lakh, thirty-five thousand, eight hundred and fifteen, and annas eight only). For the current year, the extra amount actually required may be met from the contingency fund if it is found necessary later on, and if it cannot be met by re-appropriation from the sanctioned grants of the Department under 29—Police.

The officers and men selected should be absorbed in the vacancies that normally occur in the regular Mysore Armed Reserve Police Force, within the period of six months from the date of the present order, so that the permanent establishment of the Mysore Armed Reserve Police would be at the level of three battalions, as sanctioned in Government Order No. H. A. 5319-31—Pol. 126-48-10, dated the 11th October 1949.

The Inspector-General of Police is requested to take immediate action in the matter. He is also requested to furnish a statement of actual expenditure involved in the raising of three new companies, both to Government and the Accountant-General.

E. V. GANAPATI IYER,
Chief Secretary to Government.

Report of Outbreak of Fire in the All-India Industrial and Fine Arts Exhibition, Cubbon Park, Bangalore—Constitution of a Committee of Enquiry.

READ—

Government Order No. H.A. 1373-85—Pol. 59-51-3, dated the 12th May 1951, constituting a Committee of Enquiry to examine and report on the outbreak of fire in the All-India Industrial and Fine Arts Exhibition, Cubbon Park, Bangalore, on the 29th April 1951.

2. Letter No. E.C. 28—51-52, dated 31st August 1951, from the Chairman of the Committee forwarding the Report of Enquiry.

ORDER NO. H.A. 11437-518—POL. 59-51-20, DATED BANGALORE, THE 18TH MARCH 1952.

There was an outbreak of fire in the All-India Industrial and Fine Arts Exhibition situated in the premises of the Cubbon Park, Bangalore, on the afternoon of the 29th April 1951. This exhibition, which had been organised in aid of the Hon'ble Chief Minister's Assam Relief Fund, was opened by the President of India on the 11th April 1951. In the exhibition grounds, there were nearly 600 stalls constructed with bamboo matting and roofed with cocoanut palms. The materials used were thus of a highly inflammable nature.

As soon as the fire broke out, Fire Brigade Units stationed in the exhibition premises went into operation, and these were reinforced by additional units. They did their best to put out the fire and to save as much property as possible. But the spread of fire was so rapid that the entire structure was consumed by the flames and reduced to ashes within about 20 minutes.

The necessity of holding such exhibitions, in view of their educational and cultural values, having proved itself beyond doubt, it was considered desirable to enquire into this occurrence with a view to ascertain the ways and means of ensuring the non-recurrence of such mishaps in future. The public were also deeply interested to know the precautions prescribed in the rules against the risk of fire, the extent to which these precautions were observed in the present case, and how disastrous would the consequences be if these rules are overlooked or ignored. So, a Committee of Enquiry was constituted under the Chairmanship of Sri T. Singaravelu Mudaliar, B.A., B.L., retired Judge, High Court of Mysore, to examine and report on the causes for the outbreak and the rapid spread of the fire, the extent of damage caused by it, the precautionary measures that had been taken, and also to recommend the manner of conducting such exhibitions in future.

The Committee began its deliberations on the 25th May 1951, and examined 39 witnesses. The scene of the fire in Cubbon Park was inspected on 17th June 1951. In order to facilitate the enquiry, the Inspector-General of Police made available to the Committee the results of departmental investigation as to the cause of the fire, extent of damage, etc. The report of Mr. Newsam regarding the fire in the All-India Khadi and Swadeshi Exhibition, Madras, on 22nd December 1939, was also made available to the Committee for reference. In addition, the Committee collected information from the literature on the *Festival of Britain*, *British Fair of Industries, etc.*, which was supplied by the Trade Agent for Mysore in London.

The report of enquiry was furnished to Government on the 31st August 1951. The report is being printed and will be made available to the Press. The findings and recommendations of the Committee may be summarised as follows:—

Causes for the Outbreak of Fire.—No definite evidence was forthcoming as to the exact cause of the fire. In the absence of any positive proof or reliable clue, the Committee heard various suggestions put forward by the witnesses as to the cause of the fire and finally came to the following conclusion, *viz.*:—

> "Having discussed the various suggestions made before us, we are of the opinion that the fire was not due to sabotage, but must have been due to accident. The accident might have been either by short-circuiting of electric current or by the sudden catching of fire of the roof of one of the empty stalls. We have already mentioned the grounds of short-circuiting of electric current not being probable. The other cause therefore appears to be probable. We may observe, however, finally, that it is only as a mere probability that we suggest this cause, since we have not before us definite evidence either of any eye witness or otherwise to say definitely that this was the actual cause."

Extent of Damage.—According to the statement of Sri B. R. Srinivasa Murthy, Manager of the Exhibition Office, about 494 stalls were allotted to 345 persons. The Committee ascertained from the Secretary of the Stall-holders and Exhibitors Association, that some 182 stall-holders had sent statements to the Association showing the value of articles exhibited, loss sustained by them, etc. The Police also had placed their report of enquiry before the Committee. It is reported that the Military Department did not intimate the extent of loss, if any, sustained by them. The witnesses who were examined by the Committee seem to have given various versions about the extent of damage caused by the fire. Allowing some margin for exaggeration, the Committee estimated the loss to be roughly at about six or seven lakhs of rupees excluding the value of materials used by the contractor for the construction of the enclosures and the stalls. Including this, the extent of damage suffered by stall-holders, exhibitors and others would be between seven and eight lakhs of rupees.

The Committee has observed in this connection that the exhibition should not have been held in a place like Cubbon Park which provides amenities to the public for recreation and relaxation. They observed that the green lawns and the beautiful shrubbery were destroyed by the fire, and it would take a long time and involve heavy expenditure to restore the park to its original condition. It is estimated that the restoration of the lawn will involve an expenditure of about Rs. 5,000.

Precautionary measures taken against such eventualities.—The Committee has observed that the management had provided one unit of Fire Brigade consisting of one tanker and one trailer pump, manned by one Subedar-Major, one Subedar, one Havildar and eight Police Constables, and that provision should have been made for adequate supply of water. It would appear that in spite of the Fire Officer pointing out to the management the necessity for improving water supply, they did not pay any attention to it. Some of the witnesses examined by the Committee have also said that, if there had been, at the spot, people trained in fire fighting, they could have isolated the stalls burning in early stages from the rest and prevented the huge devastation. The Committee has therefore expressed the opinion that some precautionary measures were taken against the fire, but they were not adequate enough to quench the fire that occurred.

Government concur with the above findings of the Committee.

They have considered the question of affording adequate protection against fire at public functions such as Exhibitions, Fairs, Carnivals, Conferences, etc., where large congregations meet and fire risks are involved. It is obviously impossible for the Police Fire Brigade to send Fire Fighting Units, free of all charges, whenever and wherever there are large congregations of people with temporary structures and risks of fire, particularly when requisitions are received from interior and out of the way places. In Government Order No. H.A. 5472-85—Pol. 739-50-3, dated 10th September 1951, suitable instructions have been issued to the Inspector-General of Police to arrange for stand-by duties and to collect hire charges from the organisers of the functions according to the rates specified in the Government Order.

The Committee has suggested that it is necessary that the holding of such exhibitions should be under the control of Government, and that an Act on the model of the places of Public Resort Act, 1888 (Madras Act II of 1888), be enacted in Mysore State with suitable modifications. Action is being taken to prepare a Bill on those lines and it will be placed before the Legislature.

The Committee has also made certain recommendations regarding the manner of organising and conducting such exhibitions in future, with reference to:

(i) the area to be allotted for such purposes in Bangalore City;
(ii) the design to be adopted and the material to be used in the construction of stalls and enclosures;
(iii) the precautionary measures to be prescribed for ensuring public safety; and
(iv) the possibility of insurance against the risk of fire.

The Committee has observed that there must be a permanent structure within an enclosure, built of bricks and mortar, for locating the Exhibition Offices with stalls all round, for exhibiting valuable articles such as fine arts, pictures, paintings, photographs, silk fabrics, jewellery, Government departmental exhibits, Military and I.A.F. stalls, electrical fittings, etc., and that a big stadium may be built

within the enclosure so as to allow Olympic Games and Sports Tournaments being conducted inside. The locality which is considered suitable by the Committee for holding exhibitions and other shows of public interest in Bangalore City is the one in Parade Ground, to the east of Queen's Park.

All these recommendations contained in the report require to be examined in detail, in consultation with the appropriate authorities. Orders regarding them will issue separately.

In conclusion, His Highness the Maharaja wishes to place on record his appreciation of the valuable services rendered by the Chairman and the Members who served on the Committee.

By Order of His Highness the Maharaja,

E. V. GANAPATI IYER,
Chief Secretary to Government.

FINANCIAL SECRETARIAT

Issues instructions regarding utilisation of Budget Grants for 1952-53. voted by Legislative Assembly.

OFFICIAL MEMORANDUM

ORDER No. FL. (B) 6792-872—BUD. 32-51-1, DATED BANGALORE, THE 31ST MARCH 1952.

The Legislative Assembly has in its March Session (1952) voted the grants contained in the enclosed statement. The amounts included in the statement are intended to cover the payments falling due during the first four months of the year 1952-53 and generally approximate to about one-third of the amounts required for the whole year as estimated for under each Major head in the copy of the Budget sent to all Heads of Departments separately. The Budget now prepared is only an interim Budget and is likely to be altered with the change in the policies of the new Government. As the grants for the whole year have to be voted only by the new Legislative Assembly, necessary demands covering the remaining eight months of the year will be placed before that House in due course. Till then, it is necessary for all Heads of Departments not to exceed the grants already obtained and included in the attached statement.

Heads of Departments are requested to issue suitable instructions to all subordinate officers.

M. SHAMANNA,
Secretary to Government,
Finance Department.

READ —

Letter No. C. per. A. 24—51-52, dated 13th September 1951 from the Revenue Commissioner in Mysore, forwarding the Budget estimates under the Irrigation Cess Fund for the year 1951-52.

2. U.O. Note No. 510, dated 12th December 1951 from the Chief Engineer on the subject.

3. U.O. Note W.M.—9 C. 320, dated 10th January 1952 from the Accountant-General, furnishing his views in the matter.

ORDER THEREON No. P.W. 9566-79, DATED BANGALORE, THE 26TH FEBRUARY 1952.

The opening balance of the Irrigation Cess Fund is a *minus* one to the extent of Rs. 3,07,137 as against + Rs. 6,190 anticipated in the Budget for 1950-51. This large *minus* balance is due to heavy expenditure incurred in carrying out urgent and necessary repairs to irrigation works to keep them functioning.

2. A sum of Rs. 3·00 lakhs is provided in the Budget for 1951-52, under "18 A Irrigation works, 2 Miscellaneous Expenditure—Grant-in-aid" to the Irrigation Cess Fund. Including this sum of Rs. 3·00 lakhs the receipts during the year are expected to come to Rs. 4,18,626 after wiping out the *minus* opening balance of Rs. 3,07,137. The anticipated opening balance on 1st April 1951 and the receipts during 1951-52, together with those of the previous year are shown in columns 13, 17, 3 and 5 of the Annexure respectively. The figures in column 17 include a contribution of Rs. 1,01,667 from State Funds for the maintenance of river-fed channels, which sum will be allotted from the provision in the Budget for 1951-52 under "18 A Irrigation Works (*c*) Maintenance and Repairs."

3. The Revenue Commissioner has proposed a programme of works for a total expenditure of Rs. 3,54,518. These grants have been allowed with slight modifications in respect of two districts—Tumkur and Hassan. As most of the works of repairs to the tanks and channels are to be taken up out of funds from Grow More Food, the grants have been allotted under the Irrigation Cess Fund consistent with the amount available.

4. The Budget Estimates for 1951-52, as now sanctioned, are shown in column 25 of the Annexure.

5. The closing balance at the end of 1951-52, is Rs. 1,86,685 and the details of receipts and expenditure are shown in the Annexure.

6. The Chief Engineer is requested to expedite the submission of proposals of the Committee constituted in G.O. No. P.W. 8571-4—Irn. 12-45-30, dated 11th March 1948.

FOOD AND AGRICULTURE SECRETARIAT

Constitutes a Committee to examine and submit proposals to restrict the use of natural milk in Hotels and Restaurants.

READ—

Correspondence ending with letter No. E2. C. 7060—48-49, dated 15th November 1951, from the Director of Food Supplies in Mysore, regarding restricting the use of natural milk in Hotels, etc.

ORDER No. S.D. 9884-90—R. 40-51-339, DATED BANGALORE, THE 17TH MARCH 1952.

Pure and fresh milk is not generally available for public consumption particularly in the cities and towns in the State. This is mainly due to natural milk being used in large quantities in the very large number of hotels existing and still springing up in the Urban areas. This is detrimental to the health of the community particularly to the poor and the sick and vulnerable groups, *e.g.*, expectant mothers and children. Government therefore consider it necessary to prohibit the use of natural milk in catering establishments in the Urban areas and to enforce the use in hotels, restaurants, etc., of milk powder and milk products in lieu of natural milk.

2. It is equally necessary to augment the existing sources of supply of natural milk in cities as this commodity precious to the health of the community, is woefully in short supply when compared with the steep increase in the population of cities. The Bangalore Corporation have under their consideration a scheme for starting a Dairy for supply of natural milk to Bangalore City.

Instead of starting another Dairy, it would serve the purpose for the present if necessary facilities are afforded to the Corporation to start a Dairy as quickly as possible and arrange for supply of milk to Bangalore City.

3. Government are pleased to constitute a Committee consisting of the following Members to examine and submit specific proposals to Government as to the steps necessary to restrict the use of natural milk in hotels and restaurants in the statutorily rationed areas to begin with, to ensure adequate supplies of milk powder, etc., to hotels and such other measures that may be necessary in the opinion of the Committee to give effect to the intention of Government.

4. They may also examine the question of starting a Dairy on a co-operative or other basis by the Corporation of Bangalore more or less on the lines of the organisation now working in Bombay. The way and means of bringing such an organisation into existence with the utmost speed possible, the financial and other facilities needed by the Corporation, a scheme of satisfactory distribution of milk in the City and the mode and extent of encouragement needed by private cattle owners to augment their milk supplies and such other allied matters may be gone into by the Committee and their considered recommendations submitted to Government.

IMPORTANT GOVERNMENT ORDERS

LOCAL SELF-GOVERNMENT SECRETARIAT

Issues instruction regarding the Dissolution of the Chennarayapatna Municipal Council.

READ —

Correspondence ending with letter No. Ml. C. 766—51-52, dated 12th January 1952, from the Deputy Commissioner, Hassan District, in regard to the re-election of Councillors to the Chennarayapatna Town Municipality.

No. L. 14268-71—ML. 41-51-9, DATED BANGALORE, THE 6TH MARCH 1952.

The elections for the re-constitution of Chennarayapatna Minor Municipal Council which consists of ten elected and five nominated (including two *Ex-officio* members were held on 23rd November 1949. After the results of election were announced, a petition was filed by certain voters of the Municipality before the Munsiff of Hole-Narsipur alleging certain irregularities and illegalities in the conduct of election and praying for the election of eight Councillors being set aside and a fresh election being ordered. After hearing the case the Munsiff passed orders setting aside the election of all the ten Councillors. An appeal was filed in the High Court of Mysore against this order and the same was admitted and an interim stay order was passed, staying further proceedings. Subsequently arguments were heard and the stay order was vacated. But the appeal has not yet been finally disposed of by the High Court.

The result of lifting of the stay order is that the orders of the Munsiff will have to be given effect to and a re-election ordered in the Municipality. But action has been taken already for the reconstitution of the Municipality under the

provisions of the Mysore Town Municipalities Act., 1951 and no separate action is necessary to hold bye-election under the Minor Municipalities Act, 1933. As the election of all the ten elected Councillors has been set aside by the Munsiff, and the High Court has vacated the stay order, the Municipal Council can consist of only nominated members till the elections are complete. A Municipal Council so constituted cannot be considered as legally competent to perform the duties imposed on it. It is, therefore, declared under Section 206 (1) of the Mysore Town Municipalities Act, 1951, that the Chennarayapatna Town Municipal Council as at present existing is legally incompetent to perform the duties under the Act. The said Council is accordingly dissolved forthwith and directed to be reconstituted with effect from 1st April 1952. During the period between the dissolution and re-constitution, the Amildar, Chennarayapatna Taluk shall exercise under Section 206 (2) (b) of the Mysore Town Municipalities Act, 1951, all the powers and perform the duties of the Municipal Council, under the general orders of the Deputy Commissioner, Hassan District.

The Deputy Commissioner, Hassan District, is requested to take action to give effect to the above orders immediately.

Constitutes a Committee for drawing up a Comprehensive Plan for the future development of Bangalore.

ORDER No. L. 15125-36—I.T.B. 35-51-1, DATED BANGALORE, THE 18TH MARCH 1952.

The population of Bangalore increased from 1,61,299 in 1901 to 7,76,170 in 1951. The significant increase of nearly 100 per cent from 4,06,760 to 7,76,170 during the decade 1941-51 was due, for the most part, to the immigration of people from outside the State attracted to the City by prospects of employment during the war time and since. The influx of people still continues and imposes a strain on the housing facilities and public services available in the City. The increase of population has accentuated conditions of overcrowding in the older parts of the City and the Civil Station and has led to overbuilding in parts of the suburban areas. It has also given rise to a problem of "Squatters" on open spaces belonging to private owners as well as to the Government and the Municipal Corporation.

These questions have to be urgently tackled. At the same time provision must be made for other requirements of a varied character, arising from the establishment or proposed establishment of new industries, the contemplated expansion of education and other social services and the location of certain offices of the Central Government and units of the Defence Services in and near Bangalore. Rapidly increasing motor traffic calls for a re-examination of the existing road system in the City. Under the Five-year Plan, the State has undertaken to provide industrial housing at a cost of Rs. 50 lakhs and the bulk of this sum will naturally have to be devoted to schemes of industrial housing within the limits or in the vicinity of the City.

These considerations make it urgently necessary to have a comprehensive general plan of development prepared for the City of Bangalore and some of the adjoining rural areas which may be expected, in course of time, to become parts of greater Bangalore. For this purpose, it has been decided to appoint a Committee, designated the Bangalore Development Committee, with the undermentioned members :—

The Chairman, Bangalore City Improvement Trust Board.
The Mayor, Bangalore City Corporation.
The Commissioner, Bangalore City Corporation.
The Chief Engineer in Mysore (Roads and Buildings).
The Director of Public Health in Mysore.
A Councillor chosen by the Corporation of the City of Bangalore.
The Deputy Commissioner, Bangalore District.
Mr. G. H. Krumbiegal.
The Government Architect.
A Member of the Legislative Assembly of Mysore (to be notified later).

The Ministry of Defence, Government of India, are also being requested to nominate a representative to serve on the Committee.

Sri N. Madhava Rao, Retired Dewan of Mysore, has agreed to be the Chairman of the Committee. The Engineer Officer, Bangalore City Improvement Trust Board, will be the Secretary of the Committee in addition to his own duties.

The terms of reference to the Committee will be :

1. (*a*) To make an appraisal of the housing conditions in the City ;
   (*b*) To examine the housing schemes now in progress and suggest any modifications required therein ; and
   (*c*) To indicate any new schemes of town extension that should be undertaken having regard to foreseeable requirements of the City in the near future ;

2. To suggest suitable location for important public buildings ;

3. To indicate open spaces in the City which should be preserved for use as parks, play-grounds, etc., and fresh open spaces to be created in the interest of public health and convenience ;

4. To indicate areas that should be set apart for the siting of new factories ;

5. To make proposals for the housing of industrial employees ;

6. To examine the adequacy of the existing provision for public services, such as water supply, drainage and sewage disposal, supply of electric power and formulate measures for their expansion, in an orderly and economical manner, so as to keep pace as far as possible with the City's growing needs ;

7. To examine the existing road system and available transport facilities and recommend any measures needed to improve them ;

8. To suggest measures for relieving overcrowding in the old areas of the City and Civil Station, for the removal of unauthorised structures on lands belonging to public authorities, for controlling building and for preventing the use of houses and compounds in residential areas for inappropriate purposes, by means of suitable bye-laws ;

9. To assess, as far as possible, the expenditure that would be entailed by, and indicate the legislation, if any, that would be needed for implementing the Committee's proposals ; and

10. In the light of population trends and anticipated requirements to draw up, in broad outline, a plan for the orderly development of greater Bangalore, so that it may serve the Government and local authorities as a guide in dealing with specific projects or questions relating to the City that may come up for consideration from time to time.

The expenditure in connection with the work of the Committee will be shared between the Bangalore City Improvement Trust Board and the Corporation of the City of Bangalore in the ratio of 2 : 1. The Bangalore City Improvement Trust Board will provide in the first instance the staff and office accommodation and equipment required for the work of the Bangalore Development Committee.

The Chairman, Bangalore City Improvement Trust Board, will act as Vice-Chairman of the Committee.

The Committee may co-opt any Officer of Government or Corporation if it feels it necessary.

It is hoped that it may be possible for the Committee to complete its work and submit its final report within one year. Any interim recommendation which may be made by the Committee on matters of urgency will receive the prompt and careful consideration of Government.

ORDER No. L.B. 11166-11265—V.P. 54-51-1, DATED BANGALORE, THE 27TH MARCH 1952.

Under Section 43 of the Mysore Village Panchayet Act, 1926, as amended from time to time, the Revenue Commissioner was the chief controlling authority in respect of all matters relating to the administration of the Village Panchayets in the State including the Rural Reconstruction work. The schemes for Amelioration of the condition of the Depressed Classes were originally entrusted to the Revenue Commissioner. The Commissioner for Labour was appointed Commissioner for Depressed Classes in July 1947; but the work was re-transferred to the Revenue Commissioner in June 1948.

2. With a view to ensuring intensive attention to the work relating to the Rural Development and the amelioration of the condition of the Depressed Classes, which was growing in volume, a separate Department was formed therefor in 1948 with the Commissioner for Rural Development as its head. The Mysore Village Panchayet Act was also amended in 1949 so as to transfer the control over the Village Panchayets from the Revenue Commissioner to the Commissioner for Rural Development. Subsequently the Commissioner for Rural Development Department was placed in additional charge of the duties of the Registrar of Co-operative Societies.

3. Consequent upon the promulgation of the Mysore Town Municipalities Act, 1951, the Commissioner for Rural Development and Registrar of Co-operative Societies in Mysore was appointed as the *Ex-officio* Commissioner for Local Self-Government. Under Section 2 (2) of the Mysore Village Panchayets and District Boards Act of 1952, the Commissioner for Local Self-Government will exercise certain powers and perform certain duties as laid down under the Act in respect of Village Panchayets and District Boards. In view of the above statutory provisions, there is no necessity to have an officer called Rural Development Commissioner. This officer will hereafter be designated as Commissioner for Local Self-Government and will exercise the powers and perform the functions and duties of the Commissioner for Local Self-Government under the Town Municipalities Act, 1951, and Village Panchayets and District Boards Act, 1952, in respect of Town Municipalities, District Boards and Village Panchayets.

4. A separate Notification will issue appointing the present Commissioner for Rural Development as the Commissioner for Local Self-Government and Registrar of Co-operative Societies.

EDUCATION SECRETARIAT

Passes orders on the recommendations of the Kannada Typewriter Committee.

READ,—

Government Order No. E. 9591-2—Edn. 10-49-102, dated 23rd February 1950 appointing a Committee for examining the existing Kannada Typewriters and Key-boards, considering the possibility of reforming the Kannada Script with minimum changes so as to make it useful both for Typewriter and for Kannada composing machines, and suggesting a suitable model or Key-board for future adoption as well as the steps to be taken for the manufacture and supply of Kannada Typewriter machines on a commercial scale.

2. Letter No. T.C. 437, dated 24th March 1951 from the Chairman of the Kannada Typewriter Committee giving cover to the Committee's Report.

ORDER NO. E. 12508-12—EDN. 140-51-2, DATED BANGALORE, THE 21ST MARCH 1952.

The need for a Kannada Typewriter has been brought to the notice of Government from time to time and the importance given to the regional language, Kannada in recent years has rendered this need more urgent than before. In February 1948 the Secretary to the Mysore Legislature reported that as Debates in the two Houses of the Legislature were carried on in Kannada, there was imperative necessity for obtaining for his office, supply of Kannada Typewriter machines. More recently, representations were received from other parts of the Kannada-speaking country to the effect that progress in the use of Kannada had been held up largely on account of the want of a Kannada Typewriter, that individual efforts made in the direction of devising a machine for the Kannada language had failed, and that a Kannada Typewriter would soon become a reality, if this Government took up the question. The existence of a few working models which were however defective in many ways was also brought to the notice of Government.

In the light of the foregoing circumstances a Committee consisting of the undermentioned gentlemen was appointed in February 1950, to go into the question in all its aspects and submit a report to Government:—

1. Sri T. T. Sharma, (*Chairman*).
   (Ex-President, Kannada Sahitya Parishat.)
2. Sri S. G. Narasimhaiya, (*Secretary*).
   (Assistant Secretary to Government.)

MEMBERS.

3. Sri K. Sree Vijayapaliah,
   (Senior Assistant Director of Government Printing).
4. Sri B. N. Gupta,
   (Ex-member, Mysore Legislature).
5. Sri L. K. Narasinga Rao,
   (Kannada Reporter, Mysore Legislature).
6. Sri M Venkatasubbiah,
   (Retired Commercial Instructor).
7. Sri T. A. Ramaswamy,
   (Director, South Indian Offices of Remington Typewriter Company).

The terms of reference have been detailed in the Government order constituting the Committee and summarised in para 1 of the preamble hereto.

At the instance of the Committee a Press Note was also issued requesting public co-operation and assistance in the work of the Committee.

The Committee entered upon its duties in April 1950 and submitted a unanimous report in March 1951. It held 14 meetings at Bangalore, collected all available material regarding past efforts at Kannada script reform as well as considerable information and literature bearing upon the manufacture of typewriters for the different Indian languages, consulted the representatives of the Corporation known as the Linotype and Machinery Limited, examined a number of scholars, printers, mechanics and other specialists including key-board designers, and framed certain tentative proposals. The Chairman and the Secretary of the Committee also toured different parts of the Kannada speaking areas, held a large number of meetings, arranged by the Karnataka Sanghas or other interested organisations at the places visited, and collected several key-board sketches. After a consideration of the views and objections urged at the said meetings and a scientific study of the merits of the several key-boards, the Committee designed some key-boards of its own and recommended one of them for final adoption. This key-board involves a few modifications of the script. The recommendations of the Committee are briefly the following:—

1. That a minimum amount of script reform is absolutely necessary and that therefore the age-long ಒತ್ತಕ್ಷರ sign be adopted in the case of every long-sound letter, whether a vowel or a consonant, and that vowel signs to be added to consonants be attached, not directly above or below consonants, but to their side;

2. that *Vothus* may be added below the X-line as now, but to the side extending up to the middle of the X-line;

3. that the final key-board prepared by the Committee be approved, being the most suitable;

4. that the selection of the firm to which the manufacture and supply of Kannada Typewriter Machines should be entrusted be decided by Government, but that the orders to be placed with any firm should be for both standard and portable sizes of machines;

5. that this particular face of type required and the principles underlying the thickening and thinning of strokes in each letter be decided on the advice of the experts; and

6. that as soon as the key-board is approved, arrangements might be made to get matrices supplied for the composing machines in the Government Press.

The recommendations were considered by Government at various levels. The Director of Government Printing, who was consulted, reported that there would not be much difficulty in adopting the reformed script on the Monotype and the Linotype, and supported the Committee's key-board subject to two slight alterations. The Director of Public Instruction who was also consulted, reported that a minimum script reform was necessary for evolving a suitable key-board, and with regard to numerals he recommended the adoption of international figures for the reason that these were already being employed in all the text-books and were easily understood by pupils of all standards. He also agreed that the key-board proposed by the Committee might be accepted.

Copies of the Committee's report were kept for sale at the Government Book Depot, with a view to facilitating an expression of views and suggestions by those interested in the subject. The response from the public was both large and helpful as a number of informed persons expressed, in the Public Press, their views and opinions for and against the several issues involved in this highly technical matter.

After careful consideration of the reasons advanced by the Committee in support of its findings, Government are pleased to accept the final key-board recommended by the Committee with the slight reform of the script suggested by them and with the two slight modifications suggested by the Director of Printing, regarding the placement of certain characters and with the suggestion made by the Director of Public Instruction regarding adoption of Arabic numerals.

The Director of Printing is requested to take steps to call for quotations and to place orders, with any manufacturing firm that offers the most reasonable terms, for about a hundred Kannada Typewriter machines,—Standard and portable sizes. He is also requested to point out the source from which the cost of these machines may be met.

Government wish to place on record their high appreciation of the thorough manner in which the Committee has gone into this highly technical matter, and to convey their thanks to the Chairman and members of the Committee for the valuable work done by them.

A. C. NIRVANI GOWDA,
Secretary to Government,
Education Department.

FOOD AND AGRICULTURE SECRETARIAT

Reviews the Administration Report of the Civil Supplies Department for the year 1950-51.

READ—

Report on the Administration of the Civil Supplies Department for the year 1950-51, received with letter No. T. 6225, dated the 25th August 1951, from the Controller of Civil Supplies.

ORDER No. C. 1685-6—33-50-3, DATED BANGALORE, THE 6TH MARCH 1952.

Recorded.

Sri M. K. Appajappa, B.A., continued to be in charge of the Department as Controller of Civil Supplies during the year under report.

Textiles.—In accordance with the All-India Policy, the Mysore Cotton Textiles (Control) Order, 1948 and the Mysore Cotton Textiles (Control of Movement) Order, 1948 were substituted by the Indian Cotton (Textiles) Control Order, 1948 and the Indian Cotton (Textiles) (Control of Movement) Order, 1948 with effect from the 21st October 1950. The Cotton Textiles (Export Control) Order, 1949 and the Cotton Textiles (Transmission by Post) Prohibition Order, 1951 were made applicable to the State during the year. The Mysore Licensing Orders for cloth and yarn continued to be in force in the State.

Procurement.—The department continued to supply cloth to the consumers through the three agencies.—Nominees, wholesale cloth dealers and the retail cloth dealers with suitable margins of profit to each agency. There were 24 nominees, 380 wholesalers inclusive of 71 Multi-purpose Co-operative Societies,

10,200 retailers inclusive of 1,150 Co-operative Societies doing cloth business in the State during the year under report. Thirty-four thousand one hundred and eighteen bales of cloth (both local and outside mills) were procured to the State under allotment as against 24,881 bales procured during the previous year. The supply of cloth to the State during the year fell below the basic quota of 4,700 bales per month fixed to the State, causing scarcity of cloth during the marriage and festival season when it was needed most. This was however, partly made good by *ad-hoc* allotment of 1,200 bales of Bombay and Ahmedabad goods through the Textile Commissioner and also permission to utilise February and March 1951 packings of the local goods by advance delivery from the mills.

Distribution.—The department made arrangements to supply cloth and yarn to the consumers of rural and urban parts at the district and the taluks levels and even at village level in some areas. Certain varieties of cloth such as Buckingham and Carnatic Mill cloth and Mettur goods which were keenly in demand were released direct from the nominees to retail Co-operative Societies for sale to consumers throughout the State. The Bangalore Woollen, Cotton and Silk Mills, Sri Krishnarajendra Mills and Calico Mills were permitted to sell cloth direct to the consumers at their show rooms on food ration cards.

Yarn.—There were eight procurers, 42 wholesalers and 360 retailers inclusive of co-operative institutions dealing in yarn during the year under report. Out of the basic quota of 1,600 bales per month, 1,000 bales were allotted to the handloom industry and the balance to powerloom factories. About 1,200 powerlooms and 35,000 handlooms were in receipt of regular quota of yarn.

Advantage was also taken by the department to obtain lapsed quota of yarn of other Provinces and States. This resulted in plentiful supply of yarn temporarily necessitating the removal of restrictions over distribution. However, when the yarn quota to the State was cut down due to the export policy adopted by the Government of India, the department itself took up the work of distributing yarn to the powerlooms and the handlooms in the State. The department also obtained allotment out of yarn manufactured by Sri Ganesar Mills and permitted the dealers to purchase free sale yarn from mills outside to get over the scarcity.

Distribution.—The Mysore Provincial Cotton Handloom Weavers' Co-operative Society was formed in the State to facilitate handlooms weavers obtaining yarn through the Weavers' Co-operative Societies.

Cement.—The Cement Rationing and Licensing Order, 1948 continued to be in force during the year under report. The major portion of the production of cement from Bhadravati Factory which was raised from 1,800 tons to 6,000 tons per month from the month of November 1950, was utilised in the State. Government of India also increased the allotment of cement from 4,000 tons to 7,800 tons per month. With the improvement in the supply of cement in the State the department relaxed the permit system all over the State.

There were 188 cement stockists in the State at the close of the year.

Cotton.—The Cotton Control Order, 1950 came into force in the State with effect from 12th September 1950 replacing the Mysore Cotton Control Order, 1949. As per provisions of the new order, the department was concerned only with the issue of licenses, compilation of cotton statistics and watching the supply position of cotton. The Textile Commissioner delegated the powers of issuing permits for internal movement of cotton, to the Controller of Civil Supplies and the Director of Agriculture. A regional Cotton Advisory Committee for Mysore was also formed.

Drugs.—The Mysore Drugs (Control) Act, 1950 continued to be in force during the year under report. Prices of essential drugs were being fixed under this Act, to be in par with the prices ruling in other parts of the Indian Dominion. The question of the extension of the Drugs Control Act, 1940 to the Mysore State is being examined by Government.

Hoarding and Profiteering Prevention Act.—This Act continued to be in force during the year and the departmental staff was controlling the prices and supply of consumer goods under this Act.

The Supply and Prices of Goods Act, 1950.—This Act was made applicable to the State with effect from the 2nd February 1950. Articles like non-ferrous metals, bicycles, tyres and tubes, electric bulbs, razor blades, caustic soda, soda ash, tanning materials, raw rubber, casein and infants foods have been brought under the purview of this Act and fair prices fixed. This Act helped the consuming public to obtain their requirements without much effort and at controlled rates.

Procurement of Typewriters.—The department of Civil Supplies procured typewriters to Government Departments. With a view to avoiding extra cost consequent on the revision in rates of typewriters by companies with effect from 1st April 1951, the department made a bulk purchase of 75 typewriters in March 1951 and have been distributing them to the Government Departments at the old rates as and when indents are received.

Enforcement.—During the year under report the department accorded sanction for prosecution in 44 cases for infringement of Textile Control Orders cancelled licenses in 76 cases and warned or suspended for a period ranging from one month to six months for violation of control orders in 568 cases. Under the Hoarding and Profiteering Prevention Act the department launched 12 cases out of which eight resulted in conviction with a fine ranging from Rs. 50 to Rs. 500, 13 cases were booked under the Cement Control Order 9 of which resulted in conviction.

Receipts and Expenditure.—The entire expenditure of the department amounting to Rs. 1·65 lakhs was well within the receipts of the department of nearly 5·45 lakhs.

Rewards.—During the year under report a sum of Rs. 2,985 was distributed at the discretion of the Controller of Civil Supplies, on the merits of each case to confidential informants, Enforcement Officers, Executive Officers of the Civil Supplies and Police Departments who helped in detecting cases of infringement of control orders.

The work of the department during the year under report was on the whole satisfactory.

IMPORTANT GOVERNMENT ORDERS

LOCAL SELF-GOVERNMENT SECRETARIAT

Issues instruction regarding the Dissolution of the Melkote Municipal Council.

READ—

Correspondence ending with letter No. A5. 140. C. 1604—50-51, dated the 3rd March 1952, from the Deputy Commissioner, Mandya District, Mandya, soliciting instructions for holding of re-elections for re-constituting the Melkote Town Municipal Council.

ORDER NO. L. 15174-7—ML. 40-51-6, DATED BANGALORE, THE 18TH MARCH 1952.

The elections for the reconstitution of Melkote Minor Municipal Council which consists of ten elected and five nominated (including two Ex-officio) members were held during January 1950. The Council came into being from 1st February 1950 for a period of three years. After the results of election were announced an election petition was filed by certain voters of the Municipality before the Munsiff of Srirangapatna alleging certain irregularities and illegalities in the conduct of elections and praying for the election being set aside and fresh election being ordered. After hearing the case, the Munsiff passed orders on 17th September 1951 setting aside the election of all the ten Councillors.

2. The orders of the Munsiff have to be given effect to and re-election ordered in the Municipality. But action has been taken already for the reconstitution of the Municipality under the provisions of the Mysore Town Municipalities Act of

1951 with effect from 1st April 1952 and no separate action is necessary to hold bye-election under the Minor Municipalities Act, 1933. As the election of all the elected Councillors has been set aside by the Munsiff, the Municipal Council can consist of only nominated members till the elections are complete. A Municipal Council so constituted cannot be considered as legally competent to perform the duties imposed on it. It is therefore declared under Section 206 (1) of the Mysore Town Municipalities Act, 1951, that the Melkote Town Municipal Council as at present existing is legally incompetent to perform the duties under the Act. The said Council is accordingly dissolved forthwith and directed to be constituted with effect from 1st April 1952. During the period between the dissolution and reconstitution, the Amildar, Pandavapura Taluk shall exercise under Section 206 (2) (b) of the Mysore Town Municipalities Act, 1951, all the powers and perform the duties of the Municipal Council, under the general orders of the Deputy Commissioner, Mandya District, Mandya.

3. The Deputy Commissioner, Mandya District, Mandya, is requested to take action to give effect to the above orders immediately.

Secretary to Government,
Local Self-Government Department.

the working scale may be as under:

"For Offices—One peon for offices employing less than 5 clerks, two peons for offices employing 5 clerks and above up to 10 and an additional peon for every 8 additional clerks".

Offices should not be split up into sections just to increase the number of servants and the Heads of Departments are requested to co-operate in giving effect to the Government Order and secure economy.

In order to provide for men, who are thrown out, it is desirable that old men who are 55 years of age and above may be retired to avoid hardship to youngmen as far as practicable.

Addition to Rules for the Conduct of Government Servants.

The following Rule shall be added as Rule 65 of the Rules for the Conduct of Government Servants, the subsequent Rules being re-numbered suitably :—

"No officer in the employment of Government shall address representations or letters direct to a Minister with a view to securing some personal advantage."

In bringing the above Rule to the notice of every Government servant, it is directed that any infringement of the Rule will render the Government Servant concerned liable to severe disciplinary action.

FINANCIAL SECRETARIAT

Issues instructions regarding Budget Estimates for 1952-53.

OFFICIAL MEMORANDUM.

ORDER NO. FL. (B) 532-612—BUD. 2-52-1, DATED BANGALORE, THE 21ST APRIL 1952.

In continuation of Official Memorandum No. Fl. (B) 6792-872—Bud. 32-51-1, dated the 31st March 1952, the following instructions in respect of the Budget Estimates for 1952-53 are issued for information and guidance of the Heads of Departments and other Drawing Officers :—

(*a*) With a view to curtailing the number of detailed heads, such heads as Executive Establishment, Office Establishment, Medical Establishment, General Establishment, etc., have been merged under one head 'Pay of Establishments' the details of course being available under Appendix B.

(*b*) No distinction is generally sought to be made between Travelling Allowance fixed, Travelling Allowance to Establishment and Travelling Allowance to officers and accordingly in majority of cases, one single head Travelling Allowance to comprise all of them is adopted.

(*c*) All detailed heads including postal charges either not being distinct in themselves or the provision thereunder being insignificant have been deleted and merged in such heads as Contingencies or other charges.

(*d*) It has to be borne in mind that such allowances as House Rent, Uniform and Ration Allowance, Special Locality Allowance, etc., though drawn along with pay are debitable to a separate head of account, *viz.*, 'Other Allowances' and classification has to be furnished accordingly in the pay bills. Non-observance of this requisite will result in increase of expenditure under Pay of Establishment and apparent savings under other Allowances as compared with the corresponding Estimates.

(*e*) Rent including fixed being an item of contingent expenditure has to be drawn on contingent bills and not on establishment bills even if the latter practice is in vogue.

(*f*) In respect of departments for which provision exists both in Volumes I and II Budgets, it is necessary for Accountant-General's office to have a clear idea of the appointments, the pay and allowances of which are debited to the Development Budget (Vol. II) to avoid a misclassification between similar heads existing under both volumes. Information in this regard may be furnished to Accountant-General if not already done.

(*g*) The following are some of the important changes in the classification adopted in the Budget, 1952-53 :—

(i) Gross budgeting in the case of Government Industrial Concerns, *i.e.*, working expenses shown as reduction of revenue formerly is provided on the expenditure side.

(ii) Kolar Gold Fields and Chamarajasagar Water Works are classified under '68 Irrigation Works' instead of under '70 Capital Outlay on Improvement of Public Health'.

(iii) Only such schemes as are included in the Five-Year Plan are shown in the Post-war Development Budget the nomenclature of which is since changed to Development Budget.

(iv) Fisheries is shown under Agriculture as per Comptroller and Auditor-General's instruction.

(v) Employment Exchange formerly shown under 47 Miscellaneous Departments is included under 57 Miscellaneous.

(vi) As no distinction is sought to be maintained between Remittance within and beyond Districts the provision for the latter purpose formerly included under 57 Miscellaneous is also provided under 25 General Administration.

(vii) There being no authorised minor head, the head Vaccine Institute under 39 Public Health is shown as a sub-head under the minor head Bacteriological Laboratories.

(viii) For the same reason as item (vii) above compassionate gratuities has been shown as a sub-head under the minor head gratuities appearing under the major head 55 Superannuation Allowances and Pensions.

(ix) The provision for Commissioner for Economic Development and Planning which was being shown under a sub-major head is included as a sub-head under D. Secretariat and Headquarters Establishment—Civil Secretaries.

(x) House Rent Control is merged under 27 Administration of Justice—C. Civil and Sessions Courts.

(xi) Palace Guards provision for which was made under 57 Miscellaneous is shown under 29 Police.

(xii) A separate minor head of account 'Cottage Industries' has been opened under 43 Industries and Supplies.

(xiii) There will be no distribution of Stores Purchase Committee charges other than clearing charges.

(xiv) The major head 54 Famine Relief has been newly opened.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Issues instructions in the matter of Recovery of contribution from Foreign Employers on behalf of lent officers and officials.

OFFICIAL MEMORANDUM.

ORDER No. Fl. 1060-1120—G.F. 28-52-2, DATED BANGALORE, THE 29TH APRIL 1952.

It has been brought to the notice of Government that the departments are not following the procedure laid down in Articles 369, 370 and 390 of the Mysore Service Regulations which require to be followed whenever an officer or official is transferred to foreign service and that consequently there has been much delay in the levy of contribution for leave allowances and pension recoverable on behalf of the lent staff.

Some of the departments send the Service Registers after the lapse of months or years and there are also cases wherein Service Registers have not been sent even after much correspondence.

To regularise the procedure and to facilitate the levy of penal interest as contemplated in Article 373 of the Mysore Service Regulations in the case of belated payment of contribution, the Heads of Departments are requested to furnish the information required as noted below with the Service Register in the case of non-gazetted staff as soon as a person is relieved in the department on deputation or reversion from foreign service to the office of the Accountant-General in Mysore, Bangalore, without any delay at any stage :—

(1) Date of relief in the department.

(2) Substantive pay or provisionally permanent pay or *S.P.T.* pay drawn in a clear vacancy.

(3) Date of report to duty in the department after reversion.

M. SHAMANNA,
Secretary to Government,
Finance Department.

FINANCIAL SECRETARIAT

Directs the Adoption of the Government of India Form (A.O.59) as prescribed by the Comptroller and Auditor-General, for the preparation of the Captial and Revenue Accounts of Residential Buildings with effect from 1st April 1952.

READ—

Letter No. W.M. 78—C. & R. (Gl), dated the 24th September 1951, from the Accountant General, Mysore, suggesting the adoption of the Government of India Form (A.O. 59) as prescribed by the Comptroller and Auditor General of India, for the preparation of the Capital and Revenue Accounts of Residential Buildings, as this form enables to work out the true cost of the residences to the Tax-payer.

2. Un-official No. 529, dated the 22nd December 1951, from the Chief Engineer in Mysore, accepting the suggestions of the Accountant General, Mysore.

ORDER No. FL. (B) 738-40—BUD. 3-52-2, DATED BANGALORE, THE 23RD APRIL 1952.

It has been brought to notice by the Accountant General, Mysore, that in existing form in use, no provision has been made to exhibit separately the cost of site and municipal and other taxes and that the existing system does not indicate the true annual cost of the residences and their returns. He has therefore, suggested the adoption of the form prescribed by the Comptroller and Auditor General of India, which provides for exhibition of such charges.

He has suggested that interest charges would be calculated on the gross capital and compared with actual realisations of rents in the annual reviews to be prepared by him.

It is directed that the new form suggested by the Accountant General, Mysore, a copy of which has been enclosed to this order, may be adopted with effect from 1st April 1952. A set of rules for the preparation of Capital and Revenue Accounts in the revised form are also appended to this order.

M. SHAMANNA,
Secretary to Government,
Finance Department.

APPENDIX.

Rules relating to the preparation of Capital and Revenue Accounts of Residential Buildings.

INTRODUCTORY.

1. An Accountant General should, if so required by Government, prepare Capital and Revenue Accounts of residential buildings with the object of reviewing the financial results of the year and of determining whether the annual allowance fixed for maintenance and repairs is sufficient to protect Government against any losses arising from the operation of the rules made by it for recovery of rent for residential buildings. These accounts may be prepared and reviewed at such intervals as may be settled between the Government and the Accountant General.

BUILDINGS.

2. Residences of any specified class may, if Government so direct, be omitted from the Capital and Revenue Accounts. All other residential buildings including buildings which are occupied partly as office buildings will be included whether they were acquired or constructed at Government expense or only leased for use as residences.

Ordinarily, residences falling under the following categories may be excluded from the Capital and Revenue Accounts :—

(1) residences for use of the Head of Local Administration ;

(2) buildings which are situated within the precincts of jails, hospitals, police lines, educational institutions, provided that they are allotted rent-free under the orders of Government to Government servants who are required to occupy particular houses in order to ensure the proper performance of their duties ;

(3) buildings which are not intended to be used as regular residences, *e.g.*, dak bungalows, rest houses, circuit houses, inspection houses and other buildings of a like nature ;

(4) petty buildings the cost of which does not exceed Rs. 5,000 or any other limit which may be prescribed by Government.

3. The buildings for which Capital and Revenue Accounts are maintained may be grouped into two classes :—

Class I.—Buildings which will ordinarily be occupied by Government servants liable to pay the full standard rent subject to the limit of a prescribed maximum percentage of their emoluments.

Class II.—Buildings from which the recovery of the full standard rent is not expected, that is, buildings which will ordinarily be occupied by Government servants who are entitled to accommodation rent-free or at reduced rents under the sanction of competen authority.

(1) Buildings should not ordinarily be transferred from one class to the other unless there is a permanent change in the conditions under which they will be rented. The transfer should be made under the orders of the competent authority and should normally have effect from the commencement of a financial year.

(2) Buildings for which rent is recovered for a season only such as those meant for the migratory staff of Government may be shown under class I, if they are allotted to Government servants liable to pay the full standard rent limited to a specified percentage of their emoluments. Such buildings may however, be exhibited under a separate sub-group of that class.

4. A building should be brought on to the Capital and Revenue Accounts in the official year following that in which any of the events enumerated below has taken place ; but if the event takes place on the 1st of April the building should be brought on to the accounts of the same year :—

(*a*) its acquisition or construction was completed, or

(*b*) it was leased, or

(*c*) being a building already in existence it was first brought into use as a residence.

5. A residential building which has once been included in these accounts should not be excluded therefrom without the sanction of Government or of such other authority of Government may prescribe in this behalf.

6. If, under the rules of the Government concerned, a number of residences in a particular area or of a particular class or classes is grouped for the purpose of assessment of rent, the collective results of all such buildings should also be brought out in the Accounts.

INSTALLATIONS AND OTHER SERVICES.

7. Transactions relating to the capital cost and maintenance of sanitary, water supply and electric installations and fittings of a residence included in these accounts should be included in those for the building itself. Similar transactions relating to other services excepting furniture, such as gardens, tennis courts, etc., for which additional rent is recovered under the rules, should be shown separately for each such service, below those relating to the building itself. The furniture provided for all such residences in each circle of superintendence or other unit for which a separate account is prepared (*vide* paragraph 11), is treated as an item by itself.

FORM OF ACCOUNTS.

8. These accounts should be compiled in Form 110. For their preparation, the Executive Officers concerned may be required to furnish the Accountant General with the necessary data in a suitable form which, the Accountant General may prescribe according to local requirements. Any additional information which the Accountant General considers necessary for testing the accuracy of the standard rent fixed may, if required, be also obtained. These data should be scrutinised in the Account Office as far as possible.

9. Both in respect of capital outlay and maintenance charges, the actual charges only should be taken, no addition being made on account of establishment and tools and plant charges or on account of the cost of the accounts and audit.

(1) If a building is occupied partly as a residence and partly as an office, the best possible approximation should be made, in consultation with the Superintending Engineer or other officer prescribed by Government for the purpose of assessing the capital value of the portion used as a residence, the revenue charges being proportionately distributed for the purposes of accounts.

(2) In the case of non-residential buildings which are converted into residences, if the original cost cannot be ascertained from the records, the capital value should be based on the estimated value of the buildings subject to any rules which Government may have prescribed.

10. Column 15 of the Accounts (Form 110) "Interest on capital outlay to end of year under report or rent payable by Government" should be filled in as indicated below :—

(i) *Leased buildings* :—Rent payable by Government to the lessor should be noted in this column. When charges for maintenances of and repairs to the building or municipal or other taxes relating thereto, are also borne by Government, those charges should be noted in columns 12 to 14.

(ii) *Government buildings* :—As interest for the year is generally calculated at the rate which is in force as the standard of return from productive irrigation works at the time of acquisition or construction of the building, it is necessary to calculate interest separately on (1) capital outlay to end of previous year, and (2) capital outlay during the year. The interest on (1) will be in figure entered in the last account, or, if there was any capital outlay during the previous year, it will be that figure plus interest on half the amount of that capital outlay. The interest on (2) will be calculated on half the amount of the capital outlay of the year at the rate of interest for the year. The total of (1) and (2) should be noted in column 15.

11. These accounts should be prepared in such detail as Government may desire, but in respect of buildings under the control of the Public Works Department usually it will be found sufficient to prepare a separate account for each circle of Superintendence, so that copies of the accounts may be sent to Superintending Engineers to enable them to review the results of the areas in their respective charges and to take such action as they may deem necessary to effect economies in working.

REVIEW.

12. The accounts, when completed, should be reviewed in the light of the rules made by Government governing the assessment and recovery of rent and the allotment of residences; and the results of this collective review should be embodied in a concise report, with which the accounts should be submitted to Government by such date as may be fixed in consultation with the latter. If, in any particular cases, or generally, the standard rents need revision, or the maintenance charges are excessive or the realisations inadequate, these points should be mentioned in the report, with any suggestions regarding the working or suitability of the rules which the Accountant General may wish to make. The true annual cost to the tax-payer on account of residences included in these accounts should also be reviewed. For this purpose, a lump sum (which should be estimated by the Accountant General with due regard to the rules relating to the allocation of these charges) representing charges for establishment and tools and plant should be added to the total capital cost, including the value of site, of all buildings which form the subject of a single review. If the capital cost of any building does not include the value of the site, the estimated value of this site should be ascertained and added to its capital cost for this purpose. A similar lumpsum addition for departmental charges should also be made to the total average maintenance charges of all buildings forming the subject of a single review, and the interest charges should be calculated on the (gross) capital cost worked out in the manner indicated above. The total of the maintenance and interest charges thus worked out should be compared with the total realisation of rent. In all comments and observations, leased buildings should as far as possible, be distinguished from those owned by Government, and each of the special services such as furniture which are exhibited separately in the accounts (see paragraph 7) should be dealt with separately.

(1) The Accountant General should satisfy himself that sanction exists for (1) every building appearing in the accounts which is stated to be occupied rent-free or at reduced rent; and (2) residences completed during the previous year but omitted from the accounts under review, in terms of clause (2) of the second sub-paragraph of paragraph 2.

(2) In cases where Government have issued orders writing down the capital cost of any residence the calculation for the purpose of the review prescribed in this paragraph should be based on the reduced cost; but the extent of reduction made should be clearly indicated in the Capital and Revenue Accounts for the year in which those orders take effect.

READ—

D.O. letter No. 237—A—T.M. dated 7th March 1952, from the Accountant-General, Mysore, Bangalore, bringing to the notice of Government that a large number of Drawing Officers do not furnish complete and correct classification on the bills encashed by them at the treasuries and consequently great difficulty is experienced by the treassuries and also by his office in classifying the payments correctly, that circular instructions issued to the treauries not to accept bills on which complete classification is not furnished by the Drawing Officers have had no appreciable improvement and has, therefore, suggested that each Disbursing Officer may be supplied with rubber stamps showing the major, minor and detail heads with which he is concerned so that he could impress the relevant stamp on the vouchers concerned before presenting them at the Treasury.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Issues certain Rules *re* Government Servants' Conduct.

OFFICIAL MEMORANDUM.

ORDER No. CH. S. 1747-807—MISC. 20-52-1, DATED BANGALORE, THE 15TH MAY 1952.

Subject: Acceptance of gifts by Government servants and public demonstrations in honour of them.

The attention of Heads of Departments, Deputy Commissioners of Districts and other officers is invited to Rules 2 to 11 of the Government Servants' Conduct Rules in the matter of acceptance of gifts by Government servants and public demonstrations in honour of them and to the message dated 22nd November 1949,

by the Hon'ble Prime Minister of India in that behalf which is reproduced below for information

"It has long been the custom for public and sometimes private organisations to present addresses of welcome to persons they seek to honour. These addresses of welcome are enclosed in caskets of varying value. Sometimes the caskets are of silver, sometimes even gold. I have repeatedly urged that such addresses of welcome should not be placed in expensive caskets. In particular, gold and silver should be avoided, as well as, of course, any form of jewels or precious stones. Beauty and artistic excellence do not depend upon expensive metals and stones.

"Mahatma Gandhi was against the practice of giving expensive caskets. At any time this is to be avoided, but, more especially, at the present moment when there is the utmost need for economy, such extravagance is not only uncalled for but rather improper.

"I should also like to add that it is not in the fitness of things for Government servants to be presented with such caskets by public organisations. This embarrasses them and is not a suitable procedure to follow.

"I trust that provincial Governments and Ministers will be good enough to follow the practice indicated above and to advise their officers accordingly."

2. The Heads of Departments and Deputy Commissioners should see that the rules are strictly observed and impress on all concerned the spirit of these rules and the Hon'ble Prime Minister's message.

A system of compulsory insurance of the lives of Government servants was introduced in the State in the year 1891. This beneficent measure was thrown open to the public in 1916. Since then, the activities of the Department have increased enormously both in the volume of the business done as well as in its complexity. The number of policies in the Official Branch as in force at the end of March 1952 stands at about 52,000, the sum assured being Rs. 6·25 crores while the number of policies in the Public Branch comes to about 1,11,000, the sum assured being Rs. 11·5 crores.

The question of starting a Fire Insurance Scheme as an adjunct to the business carried on by the Insurance Department is under the consideration of the Government.

3. The business of the Department has grown so complex that it is considered necessary to reorganise the present system of working of the Department so as to place it on a sound footing with the object of attracting business in a greater measure than at present.

4. With a view to examining in detail the scheme of reorganisation of the Department, and to submit suitable proposals thereon to Government, a Committee consisting of the following gentlemen is constituted:—

Sri J. Appaji Gowda, B.A. (Hons.), Minister, Government of Mysore (Retired).
Sri M. Shamanna, M.A., Secretary to Government, Finance Department.
Sri A. C. Nirvani Gowda, B.A., Secretary to Government, Education Department.

Orders have been issued in Notification No. Ch.S. 2347—G.E. 44-52-1, dated 22nd May 1952, appointing Sri J. Appaji Gowda, B.A. (Hons.), as General Manager.

ORDER NO. FL. (B) 2274-81—L.F.A. 64-51-4, DATED BANGALORE, THE 10TH JUNE 1952.

Revision of the Syllabus for the Subordinate Accounts Service and Accountants Examination.—The Board have recommended that there is no need to have an intermediate examination between the Accounts Higher and Subordinate Accounts Service Examination and that the Accountants Examination may be abolished. The Subordinate Accounts Service Examination has been proposed to be held in two parts with necessary changes in the syllabus and the rules, a pass in the Part I being made obligatory for crossing the Efficiency Bar at Rs. 130 (instead of a pass in the Accountants Examination for crossing the Efficiency Bar at Rs. 90 as at present) and for appearing for Part II of the Examination.

The Board has also recommended that such of those who have already passed the Accountants Examination may be permitted to cross the Efficiency Bar at Rs. 130 but such exemption will not obviously apply for passing Part I of Subordinate Accounts Service Examination.

The above proposals of the Board are approved and revised rules and syllabus of the Subordinate Accounts Service Examination will be as in the annexure.

CAUTIONS.

1. Do not permit disrespect to be shown to the National Flag or the Mysore Flag.

2. Do not dip the above Flags to any person or anything. The regimental colour, organisation flag, or institutional flag will render this honour.

3. Do not display the National Flag with the Saffron down.

4. Do not place any other flag or pennant above or to the right of the National Flag. The Mysore Flag should always be placed immediately to the left of the National Flag.

5. Do not let the flags touch the ground or the floor or trail in the water.

6. Do not place any object or emblem of any kind on or above the two flags.

7. Do not use the flags as drapery in any form whatever.

8. Do not fasten the flags in such a manner as will permit them to be easily torn.

9. Do not drape the flags over the hood, top, sides, or back of a vehicle, or on a railroad train or boat. When the flags are displayed on a motor car, the staffs should be affixed firmly to the chassis, or clamped to the radiator cap.

10. Do not use the flags as a covering for a ceiling.

11. Do not carry the flags flat or horizontally, but always as in a parade, aloft and free.

12. Do not use the flags as a portion of a costume or of an atheletic uniform. Do not embroider them upon cushions or handkerchiefs nor print them on paper napkins or boxes.

13. Do not put lettering of any kind upon the flags.

14. Do not use the flags in any form of advertising nor fasten an advertising sign to the poles from which the flags are flying.

15. Do not display, use, or store the flags in such a manner as will permit them to be easily soiled or damaged.

Traditions and Code for the use of the National Flag and the Mysore Flag in Schools and Colleges.

These flags should be displayed only from sunrise to sunset. They should be displayed on National Holidays specified by Government and on Historic and Special occasions. The flags should always be hoisted briskly and lowered slowly and ceremoniously.

2. When carried in a procession with another flag or flags, the Flag of India (hereafter called the National Flag) and the Mysore Flag should be either on the marching right, that is, the flags must be on the right side of the person or persons who are marching in the procession or, when there is a line of other flags, the National Flag should be in front of the centre of that line, the Mysore Flag should be immediately to the left of the National Flag on all occasions.

3. When displayed with the Mysore Flag against a wall from crossed staffs, the National Flag should be on the right, *i.e.*, the flag must on the right side with reference to the direction which the flag is facing, and the Mysore Flag alongside it to its left.

4. When a number of flags are grouped and displayed from staffs, the National Flag and the Mysore Flag should be at the centre or at the highest point of the group.

5. When the National and the Mysore Flags and pennants of societies are flowing on the same halyard, the National Flag should always be at the peak with the Mysore Flag alongside it. When flown from adjacent staffs, the National Flag and the Mysore Flag should be hoisted first and lowered last simultaneously. No flag or pennant should be placed above or to the right of the above two flags.

6. When the National Flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony, or front of building, the saffron side should be at the top.

7. When the National Flag is displayed in a manner other than by being flown from a staff, the saffron band must be uppermost; when it is displayed flat and horizontal on a wall, when displayed vertically, saffron should be to the right with reference to the flag, *i.e.*, it should be to the left of a person standing facing it. When festoons, resettes or drapings of green, white and saffron are desired, coloured cloth should be used but never the National Flag.

8. When displayed over the middle of the street, as between buildings, the National Flag should be suspended vertically with the saffron to the north, in an east and west street, or to the east in a north and south street.

9. On a Speaker's platform, the flags, if used flat, should be placed above and behind the Speaker. They should never be used to cover the Speaker's desk, nor to drape over the front of the platform. If flown from staffs, they should be on the Speaker's right.

10. When used in connection with the unveiling of a statue or monument, the flags should form a distinctive feature during the ceremony, but the flags themselves should never be used as a covering for the statues. Bunting may be used for this purpose.

11. When flown at half-staff, the flags are hoisted to the peak for an instant, then lowered to the half-staff position; but before lowering the flags for the day, they are raised again to the peak. But half-staff is meant hauling down the flags to one-half the distance between the top and the gay line and in the absence of the gay line, half of the staff.

12. On memorial days, the flags are displayed at half-staff from sunrise until noon and at full staff from noon until sunset, for the Nation live and the State live and the flags are the symbol of the living Nation and the State. This may be adopted only if a Memorial Day is instituted.

12. Flags flown from fixed staffs are placed at half-staff to indicate mourning. When the flags are displayed on small staffs, as when carried in parade, mourning is indicated by attaching two streamers of black crepe to the spear head, allowing the streamers to fall naturally. Crepe is used on the flag staff only by order of Government.

13. When the flags are displayed inside of a place of worship, they should be from staffs placed on the congregation right as they face the priest or leader of the congregation. The service flag, or other flag should be at the left of the congregation. If the flags are displayed in the Chancel or on the platform, the National Flag and the Mysore Flag should be placed on the priest's right as he faces the congregation and the other flags on his left.

14. When the flags are in such a condition that they are no longer a fitting emblem for display, they should not be cast aside or used in any way that might be viewed as disrespectful to the National Colours, or to the State, but should be destroyed as a whole, privately, preferably by burning or by some other methods in harmony with the reverence and respect we owe to the emblems representing our Country.

Salute to the Flag.

15. When the flags are passing in parade or in a review, all persons present should face the flags, stand at attention and salute. Those present in Uniform should render the right-hand salute. The salute to the flags in the moving column is rendered at the moment the flags pass.

When giving the Pledge to the Flag.

16. In pledging allegiance to the National Flag, the practice to be adopted in Schools and Colleges is as follows:—

Standing with folded hands all repeat together the following pledge:—

"I pledge allegiance to the Flag of India and to the Indian State for which it stands. One Nation indivisible, with liberty and justice for all."

Direction for hoisting the Flag.

17. (1) The school or the college will assemble in open square formation with the pupils forming the three sides and the flag staffs at the centre of the fourth side. The Head Master or the Head of the Institution, the pupil leader and the person unfurling the flag (if other than the Head of the Institution) will stand three paces behind the flag staffs.

(2) The pupils will fall in according to classes and in squads of ten (or other number according to strength). These squads will be arranged one behind the other. The pupil leader of the class will stand to the right of the first row of his class, and the form master will stand three paces behind the last row of his class towards the middle. The classes will be arranged along the square in the order of seniority with the seniormost class at the right end.

(3) The distance between each row should be at least one pace (30 inches); and the space between form and form should be the same.

(4) When each form or class is ready, the class leader will step forward and salute the selected school or college pupil leader. As soon as all the forms are ready, the school or college pupil leader will step up to the Head Master or the Head of the Institution and salute him. The latter will return the salute. Then, the flags will be unfurled simultaneously. The school or college pupil leader may assist.

The school or college pupil leader in charge of the parade (or Assembly) will call the parade to attention, just before the unfurling, and he will call them to salute when the flags fly out. The parade will keep at the salute for a brief interval, and then on the command 'order', the parade will come to the attention position.

(5) The Flag salutation will be followed by the National Song (Janaganamana) and the Mysore National Anthem. The parade will be kept at the attention during this part of the function.

(6) On all occasions when the pledge is taken, the pledge will follow the National Song. When taking the pledge, the Assembly will stand to attention and the Head Master or the Head of the Institute will administer the pledge ceremoniously and the Assembly will repeat it after him.

In cases where the originals of the Mysore Government Savings Bank Fixed Deposit Receipts issued by Treasuries are lost by the depositors, and duplicates in lieu thereof are required to be issued, a Bond in Form No. 23 may invariably be obtained from such depositors before a duplicate is issued. Duplicates may then be issued by the District Treasury Officers, and the following instructions should invariably be followed by the Treasury Officers and Deputy Commissioners :—

(1) Duplicate Receipts may be issued only by the District Treasuries, and a list of duplicate receipts issued every month should be forwarded to the Accountant-General's Office with the monthly accounts.

(2) The fact of the issue of the duplicate should invariably be noted against the original entry in the Subsidiary Register of Receipts of the Treasury.

(3) Duplicates may be issued by the Treasury Officers only when the claimant satisfies the Treasury Officer about his title to the deposit and the circumstances of the alleged loss, pays a fee of one rupee for each receipt, agrees to return the original deposit receipt if subsequently traced, and furnishes an Indemnity Bond in Form No. 23 agreeing to indemnify Government from all possible loss consequent on the issue of a duplicate receipt.

LOCAL SELF-GOVERNMENT SECRETARIAT

Rewiews the Administration Report of the Forest Department for the year 1950-51.

READ—

The Report of the Administration of the Forest Department for the year 1950-51 (from April 1950 to end of March 1951), received from the Chief Conservator of Forests with his letter No. Pr. 51-2, dated 4th August 1951.

ORDER No. A.F. 2034-84—FT. 29-52-2, DATED BANGALORE, THE 6TH JUNE 1952.

Recorded.

2. *Control.*—Sri M. A. Muthanna, B.SC., I.F.S. (DIP.), continued to be in charge of the Department during the year under report.

3. *Reservation and Settlement.*—Reservation and settlement of certain forest areas are still pending in Mysore, Hassan, Chitaldrug, Tumkur and Chickmagalur Divisions.

4. *Area of State Forests.*—There were no alterations in the forests notified as Reserves, Minor Forests and other Village Forests. The area of State Forests and Plantations stood at 3,890·23 sq. miles at the end of the year under report.

5. *Village Forests.*—The total area of 88·62 sq. miles under Village Forests remained unaltered. It is reported that the villagers are not evincing any interest in the improvement of these forests and that the village panchayets are not availing themselves of the technical advice of the Forest Department. The Commissioner for Local Self-Government is requested to issue necessary instructions to the Village Panchayets to secure a better record of work in the management of village forests.

6. *Forest Surveys and Working Plans.*—Topographical survey of 19 Minor Forests and two State Forests covering an area of 17·99 sq. miles and fair drawing of 17 maps were completed during the year.

The exploitation of forests was strictly according to Working Plans and Schemes.

7. *Buildings, Communications and Miscellaneous Works.*—A new road for a length of four furlongs was formed in Varahi forest in Nagar Range in Sagar Division for transport of Balgi poles. Three motorable tracks for a length of five miles were also formed during the year. A sum of Rs. 40,324-5-0 was spent on the maintenance of the existing roads. No new buildings were constructed during the year. A sum of Rs. 17,864-8-0 was spent towards repairs to the existing buildings.

8. *Protection of Forests.*—One pending Sandalwood smuggling case pertaining to Mysore Range ended in conviction. No fresh Sandalwood theft cases were reported during the year. The mobile staff employed for the prevention of smuggling of Sandalwood acted as usual a check on the smugglers.

One hundred and six cases of damage to Sandalwood trees were pending with the Revenue Authorities at the beginning of the year. With the addition of 19 cases during the year and the disposal of only 26 cases, 99 cases remained pending disposal at the close of the year. In the review of the report of the previous year, the Revenue Commissioner was requested to arrange for the expeditious disposal of these cases. The number of cases still pending is heavy. It is necessary to see that the pendency is reduced very early.

Under other forest offences, the number of cases pending at the close of the year was 271. The Chief Conservator of Forests is requested to make every endeavour to reduce this large number of pending cases.

The special staff of the Police Department and the Forest Department employed for the prevention of smuggling of timber and also the checking staff detected 78 cases in all during the year, the total value of the timber involved in these cases being Rs. 29,414.

9. *Protection from Fire.*—Measures were taken for protection of forests, exploited coupes and areas under cultural operations as usual. The total expenditure incurred for the purpose amounted to Rs. 47,196-15-0 as against Rs. 31,056 in the previous year.

10. *Grazing in State Forests.*—Consequent on the abolition of the levy of Hulbanni (Grazing fee) necessary measures for protection of forests from cattle could not be rigidly enforced. The Chief Conservator of Forests is requested to

take preventive measures against injury from grazing according to the prescribed rules of sylviculture such as—

(a) closing the areas containing young crops against grazing altogether;

(b) permitting the grazing under the supervision of a responsible herdsman;

(c) restricting the number of animals for admission having regard to the quantity of available grass or herbage in a forest;

(d) preventing, if possible, the opening to grazing of any parts of the forest during seasons at which there is no full and sufficient growth of grass and herbage to satisfy the requirements of the grazing animals;

(e) preventing cattle from grazing for too long a time over the same place;

(f) reserving for grazing as a general rule, forest areas containing large grassy blanks devoid of trees and difficult to re-stock, thereby freeing the wooded parts of the forest from the exercise of grazing rights;

(g) formation of grazing blocks—roads, fenced if necessary, should be made to admit the cattle into the grazing blocks, to obviate the necessity of their being driven through the forest.

The revenue under grazing fees during the year was Rs. 7,351-2-0 against Rs. 3,437 in the previous year.

11. *Sandal Spike.*—Spike disease continued to prevail in the forests of Bangalore, Tumkur, Mysore and Hassan Districts and experiments for checking the spread of the disease were continued as usual during the year.

12. *Sylviculture and Regeneration.*—Consistent with the locality and the growing stock, suitable sylvicultural systems based on the working plans and schemes were adopted as usual during the year.

Species like 'Balgi' and 'Dhuma' in the evergreen zones were exploited under "Selection" system. The deciduous and dry deciduous forests were worked for fuel. The natural regeneration of Teak, Honne, Bite, etc., was generally good during the year and the regeneration of Sandal was fair all round. Under normal operations an extent of 1,858 acres of land was planted up for fuel during the year as against 17,544 acres during the previous year. Stump planting was taken up as usual. Teak plantation on an extent of 648¼ acres was formed during the year.

Nurseries were maintained in good condition and seedlings were raised to meet the demands of other departments, local bodies and the public for occasions like, "Vanamahotsava," etc. Intensive dibbling of sandalwood seeds was done.

The total cost incurred under planting operations was Rs. 90,138 during the year as against Rs. 1,80,285 during the previous year.

13. *Exploitation of Forest Produce.*—As usual, the Department met the demands of the several Government Departments, Industrial concerns and Railway and Electrical Departments for timber and poles.

In spite of labour and transport difficulties, the Department maintained satisfactorily supply of raw material to the Iron and Steel Works at Bhadravati.

14. *Sandalwood.*—The quantity of Sandalwood collected during the year was 2,530 tons while the quantity of good wood supplied to the sandalwood oil factories was 1,472 tons for distillation and export purposes against the commitment of 1,200 tons.

The total receipts from the sale of sandalwood inclusive of the net receipts of sandal oil factories amounted to Rs. 70,49,060.

15. *Financial: Revenue Demand and Expenditure.*—The total demand under revenue during the year was Rs. 80,77,292-10-4 exclusive of "1 Sandal Oil—Net Receipts." Of this, a sum of Rs. 62,17,183-11-8 was realised, and Rs. 18,55,374-2-11 remained over uncollected at the end of the year.

The total expenditure of the Department including that under establishment was Rs. 31,11,911 as against a revenue of Rs. 58,49,739 (exclusive of Sandalwood Oil Net Receipts) resulting in a net revenue of Rs. 27,37,828.

The Revenue of the Department inclusive of Sandalwood Oil Net Receipts is Rs. 1,28,98,799 and Rs. 58,49,739 exclusive of Sandalwood Oil Net Receipts. These amounts are far in excess of the realisations in the past. The revenue position of the Department is satisfactory.

16. *Elephants.*—There were 55 elephants at the end of the year in the several divisions in the Department. Eight elephants belonging to the Palace with the relevant elephant staff and accoutrements were taken over by the Department during the year, under sanction of Government.

One elephant was sent to Ankara (Turkey) as a gift from the Government of India and four elephants died during the year.

The Chief Conservator of Forests is requested to instruct the subordinate officers concerned to pay proper attention to the departmental elephants according to the circular orders so that the loss of this valuable live-stock may be minimised.

17. *Wood Working Industry.*—This industry began to work on an organised basis during the year, employing manual labour. One thousand nine hundred and seventy-three benches and 706 stools were prepared and 1,854, benches and 706 stools were sold during the year realising a revenue of Rs. 40,293-13-0. Of this, a sum of Rs. 32,173-6-0 was collected, leaving a balance of Rs. 8,120-7-0 for recovery at the end of the year.

18. The work of the Department was satisfactory during the year.

A. S. KHALEEL,
Secretary to Government,
Local Self-Government Department.

Prescribes a procedure for the monthly reconciliation of Departmental Figures of Expenditure with those of the Audit Office.

READ—

Correspondence ending with letter No. 202/A/T.M., dated the 28th January 1952, from the Accountant-General, Mysore, Bangalore, in the matter of laying down a procedure for the monthly reconciliation of the departmental figures of expenditure with those of the Audit Office to enable the Heads of Departments to control expenditure against grants and appropriations, effectively.

ORDER NO. FL.(B) 2508-87—BUD. 8-52-2, DATED BANGALORE, THE 17TH JUNE 1952.

The question of laying down a suitable procedure for departmental control of expenditure and for the systematic verification of departmental figures of expenditure with those of the Accountant-General's Office has been engaging the attention of Government for some time past. Such a measure has now become increasingly important and even obligatory since the responsibility for watching the progress of expenditure against a grant or appropriation devolves entirely on the executive and Article 267 (2) of the Constitution does not permit expenditure in excess of grants or appropriations except under the rules governing the Contingency Fund.

The detailed rules to be followed hereafter which are printed as an Annexure to this order, will have effect from the 1st April 1952.

The salary bills of Gazetted Officers (other than Heads of Departments) and establishment bills of institutions, like schools, dispensaries in which the salaries of the respective heads of offices are also included, will not be encashed at the Treasuries on and after 1st September 1952 unless supported by a certificate in the following form :—

> "I certify that an extract of the expenditure account due from me for the previous month under Government Order No. Fl. (B) 2508-87—Bud. 8-52-2, dated the 17th June 1952, was forwarded to my superior officer in my Memo No..... , dated ....."

Note.—1. This will not apply to supplemental Salary or Establishment bills and bills of the Departments of the Central Government.

2. The certificate to be furnished on 1st September 1952 should read "Previous months" for "Previous month" as the first extract should show the expenditure incurred from April 1952 to July 1952.

The Director, Government Printing, is requested to print the Registers in Forms A and B appended to this order very early and supply them to all disbursing and controlling officers on indent.

The Heads of Departments are designated as Chief Controlling Officers for the exercise of the functions mentioned in these rules. The officers subordinate to them who can function as subordinate Controlling Officers will be fixed by them and reported to Government for information within a fortnight. Officers including Chief Controlling Officers, both Gazetted and Non-Gazetted, who draw the salary of their establishments are treated as disbursing officers for the purpose of these rules.

These rules will be incorporated in the Budget Manual.

M. SHAMANNA,
Secretary to Government,
Finance Department.

ANNEXURE.

All Departmental Officers will be brought under three classes, *viz.*—

1. Chief Controlling Officer,
2. Subordinate Controlling Officer,
3. Disbursing Officer.

The Heads of Departments or other officers who submit their Budget Estimates direct to Government will be designated as the Chief Controlling Officers. An intermediate controlling officer, immediately subordinate to the Chief Controlling Officer will function as Subordinate Controlling

Officer. A Government Officer, who draws money from the Treasury on bills (except a Gazetted Officer who is not the head of an office and who draws only his own pay and travelling allowances from the Treasury) will be called a Disbursing Officer.

NOTE.—Chief Controlling and Subordinate Controlling Officers are also Disbursing Officers in respect of disbursements in their own offices.

2. A Chief Controlling Officer has to see that the expenditure under each unit of appropriation is kept within the grant or appropriation fixed therefor in the Appropriation Act and that if expenditure beyond that limit is essential, steps are taken in time to obtain the necessary additional allotments. He must, therefore, keep a constant watch over the progress of expenditure and also know what liabilities have been incurred but not paid. He may either keep the grant or appropriation in his own hands and watch the actual expenditure thereagainst for the department as a whole or distribute the grant or appropriation among his Subordinate Controlling Officers each of whom may in turn distribute the grant or appropriation at his disposal among the Disbursing Officers subordinate to him and make each such officer responsible for watching expenditure against the grant or appropriation allotted to him. In the former case, the Chief Controlling Officer is wholly responsible for watching the expenditure against the grant or appropriation, whilst in the latter case, he shares this responsibility with his subordinate officers.

3. As a general rule, expenditure based on sanctioned scales, *e.g.*, pay of permanent establishments, should be watched for the Department as a whole. Where however the charges are fluctuating in nature, *e.g.*, Travelling Allowances—(other than Fixed Travelling Allowances) and non-recurring Contingencies, it is better to distribute the allotments among the Disbursing Officers. Subject to the above limitations, the Chief Controlling Officer has full discretion to decide in each case whether he will retain the grants or appropriations in his own hands or distribute it among his subordinate officers. When grants of appropriations are distributed, it is desirable for the Chief Controlling Officer to retain in his own hands a small sum from which he can sanction additional amounts asked for by Subordinate Controlling Officers when necessary and each Subordinate Controlling Officer should similarly retain a small sum in his own hands so that he may sanction, when necessary, small additional amounts asked for by the Disbursing Officers, subordinate to him.

4. Every Chief Controlling Officer should watch the progress of expenditure continuously and for this purpose, he should require the Disbursing Officers to report every month the figures of actual expenditure during the previous month and the liabilities incurred but not yet paid. Each Disbursing Officer should therefore maintain a Register in Form 'A' appended to this order, of disbursements and liabilities. As soon as a bill is cashed at the Treasury or a pre-audit cheque received, it should be posted in the appropriate columns of the Register mentioning the Treasury, District, or account in which payment will appear. In the case of pay and allowances of Village Establishments, Cattle Pound Charges and loans disbursed under the Land Improvement Loans and Agriculturists Loans Acts, it is sufficient to copy the monthly totals from the records maintained by the Disbursing Officers. The adjustments, if any, made by the Accountant-General should be entered on receipt of intimation.

Every Disbursing Officer, who draws bills on a Treasury should soon after the close of each month get his figures of drawals from the Treasury during the previous month reconciled with those of the Treasury with which he transacts and send to the Controlling Officer immediately superior to him an extract of his account for the month in Form 'A' omitting details of bills against serial No. IV.

The above rules do not apply in their entirety to expenditure drawn on cheques by Departmental Officers rendering compiled accounts thereof to the Accountant-General. In respect of such expenditure, monthly totals only will be taken to the Register in Form 'A' after the compiled accounts are despatched to the Accountant-General.

5. The Subordinate Controlling Officer should consolidate in Form 'B' the figures of his own register of expenditure (Form A) and the figures contained in the extracts of accounts received from the Disbursing Officers subordinate to him. The disbursements appertaining to each sub-head or detailed account head should be grouped by districts. When the Subordinate Controlling Officer is stationed at the headquarters of a District and his jurisdiction is co-extensive with that of the treasury District in which he is located, he should also get the figures in Form 'B' verified with those found in the District Treasury and then forward an extract thereof to the Chief Controlling Officer. The extract need furnish only the totals against each serial number except serial number VI and IX which should be omitted.

6. Unless exempted specifically in each case for reasons of impracticability or other grounds, all Disbursing and Subordinate Controlling Officers are required to reconcile their figures with those in the Treasury before they forward their statements to their superior officers. They should see that the reconciliation work is completed not later than the 15th of the following month and the extract statements in Forms A and B forwarded to the superior officers not later than the 20th of the following month. To ensure that this important work is not lost sight of, all Disbursing and Subordinate Controlling Officers should furnish a Certificate in the following form in their monthly salary bills presented for payment on and after 1st September 1952 :—

> "I certify that an extract of the expenditure account due from me for the previous month under Government Order No. Fl. (B) 2508-87,—Bud. 8-52-2, dated the 17th June 1952, was forwarded to my superior officer in my Memo No....., dated....."

Gazetted Officers, other than the Chief Controlling Officers, who are not Disbursing Officers should also furnish this certificate as information of the amounts drawn by them is required by the Disbursing Officers who keep an account of the expenditure covered by such bills. Where the salaries of the Disbursing Officers are drawn along with those of their establishments the certificate will be furnished in the Establishment bill itself.

Salary bills and establishment bills of the kind referred to which do not furnish the above certificate or furnish a modified certificate will not be encashed at the Treasuries or admitted in audit on and after 1st September 1952, without the specific orders of the officers immediately superior to them.

7. The Chief Controlling Officer should consolidate in Form 'B' the totals of his own expenditure (Form A) and those shown in the extracts from the registers of Subordinate Controlling Officers, in the manner prescribed for Subordinate Controlling Officers. He should send a clerk of his office to the Accountant-General's Office with the departmental registers every month on a date fixed by the Accountant-General. The clerk should with the assistance of the Accountant-General's staff compare the departmental figures with those recorded in the Accountant-General's books. A statement of discrepancies will be prepared in duplicate and analysed in two columns, one showing the adjustments to be made in the Accountant-General's books and the other showing the adjustments to be made by the Chief Controlling Officer. The Accountant-General's Office will keep one copy of it and the other will be taken by the clerk for the use of the Department. The Chief Controlling Officer after effecting necessary adjustments should inform the Accountant-General that this has been done. The Accountant-General will likewise make necessary adjustments in his books and inform the Chief Controlling Officer to that effect. The latter should then send a certificate to the Accountant-General stating that the figures in his registers have been reconciled with those of the Accountant-General.

8. The Accountant-General will inform a Chief Controlling Officer of all expenditure for which the latter is responsible and which has been adjusted in the accounts by him (the Accountant-General) as in the case of inter-departmental adjustments, inter-Governmental adjustments or expenditure in England. The Chief Controlling Officer will enter the adjustments directly in his own account in Form A or will communicate them to his subordinate officers for entry in their accounts, according as the charge is one for which he has retained the appropriation or one for which he has distributed the appropriation to his subordinate officers. Care should be taken to avoid double entries in respect of adjustments.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Issues instructions *re.* arrangements in connection with the Tours of Ministers and Government Officers.

OFFICIAL MEMORANDUM.

O.M. No. CH.S. 3712-72—MISC. 38-52-1, DATED BANGALORE, THE 13TH JUNE 1952.

The attention of Heads of Departments, Deputy Commissioners and other Officers concerned is invited again to instructions embodied in the O.M. No. 2405-2504—C.B. 79-49-1, dated 14th September 1949, and in paragraphs 768 and 769 of the Manual of General Circulars and Standing Orders, Vol. I., regarding arrangements to be made in connection with the tours of Ministers and Officers on Government duty, with a direction for strict observance.

2. Instances of Officers accompanying Ministers on tour, though the presence of such Officers was not necessary on the occasion and had not been specially required by the Ministers, have come to the notice of Government. Whenever Ministers are on tour, only those Officers whose presence is quite necessary and who are specially required by the Ministers to do so, need accompany them, and whenever the programmes of Ministers' tour are drawn up, the Deputy Commissioners are requested to indicate who all should accompany the Minister concerned.

3. Instances of Officers failing to present for payment bills on account of supplies made to Ministers and Officers on tour and of Officers failing to pay for supplies made to them have also come to the notice of Government. Such a practice is a violation of the instructions conveyed in the Standing Orders and has led sometimes to payment being made by subordinate officers from their pockets. Such a practice cannot but be condemned in the strongest terms. While an absolute obligation rests on all local officers to assist the Ministers and Officers travelling on Government duty in procuring supplies of food and other necessities, such requirements should be within the limits of demand on one side and compliance on the other and should not be pushed so far as to impose an undue burden on the local officers. Ministers or Officers when travelling on duty are entitled *to obtain on payment* such supplies as they are absolutely in need of *provided sufficient notice is given to the local functionaries concerned.* Acceptance or offer of free supplies, at any time, by those in public service is highly improper and will be dealt with severely.

4. Serious notice will be taken of the infringement of the foregoing directions. All officers are requested to see that such impropriety does not occur and, where it does occur, is dealt with promptly and in an exemplary manner.

5. The widest publicity may be given to these instructions.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

LOCAL SELF-GOVERNMENT SECRETARIAT

Prescribes the procedure for the Repayment of Loans by Town Municipalities.

READ—

Letter No. A5. C. 464 – 48-49, dated the 12th March 1952, from the Deputy Commissioner, Kolar District, recommending, in the circumstances stated, sanction to postpone recovery of the loan granted to the Malur Town Municipal Council for water-supply scheme together with interest thereon, till the scheme is completed and actual outlay incurred.

2. Unofficial Note No. 3065—C.S.A., dated the 6th October 1951, from the Controller, State Accounts Department, in the matter.

3. Unofficial Note No. 89—Misc. D.H.I., dated the 11th January 1952, from the Accountant-General, Mysore, in the matter.

4. Unofficial Note No. 18, dated the 11th April 1952, from the Chief Engineer, in the matter.

ORDER No. L. 3475-3596—ML. 137-52-2, DATED BANGALORE, THE 16TH JUNE 1952.

After considering the matter in detail, Government are pleased to order the following procedure for the recovery of the loan instalments due from the Town Municipalities.

2. Although the loan may be sanctioned to a Town Municipality by Government in a particular year for the execution of certain works, the loan should be treated as drawn by the Municipality only to the extent that expenditure is actually incurred by the Public Works Department. Funds spent by the Public Works Department on any works should be reckoned for interest as if they were drawn on the last day of the month in the accounts of which they are included by the Public Works Department.

3. The concerned Municipality will have to execute a bond for the full amount of loan which will however be paid in instalments based on the basis of the actual outlay on the works in question during the month.

4. The repayment of loans should commence as soon as the outlay exceeds 50 per cent of the estimated cost as the work will have made substantial progress by then.

A. S. KHALEEL,
Secretary to Government,
Local Self-Government Department.

EDUCATION SECRETARIAT

Issues Modified Instructions regarding the Reservation of Seats for Students of Scheduled Castes and Tribes and Backward Classes in Technical Institutions.

READ—

G.O. No. E. 2925-34—Uni. 97-51-1, dated 28th June 1951, issuing instructions regarding the reservation of seats in Technical Institutions for students of Scheduled Castes and Tribes and Backward Classes.

ORDER No. E. 2839-48—UNI. 97-51-4, DATED BANGALORE, THE 11TH JUNE 1952.

In modification of G.O. No. E. 2925-34—Uni. 97-51-1, dated 28th June 1951, laying down instructions regarding the reservation of seats for students of Scheduled Castes and Tribes and Backward Classes in Technical Institutions, the following rules will govern the admission of students to the various technical institutions:—

1. The following number of seats will be reserved for Government in each of the institutions noted below to be filled up at their discretion among non-Mysorean students:—

3 seats in the Government Medical College.
3 seats in the Government Medical School.
6 seats in the Engineering College, Bangalore.
2 seats in the Engineering College, Davangere.
4 seats in the Engineering School.
2 seats in the Sri Krishnarajendra Silver Jubilee Technological Institute, Bangalore.
2 seats in the Sri Jayachamarajendra Occupational Institute, Bangalore.

Total ... 22

2. Fifteen per cent of the seats in each institution will be reserved for Scheduled Castes and Tribes.

3. Thirty-five per cent of the seats in each institution will be reserved for Backward Classes.

4. The list of Backward Classes will be the same as was accepted last year.

5. The remaining number of seats in each institution after allocation of seats as in (1), (2) and (3) will form the general pool.

6. In making admissions to these institutions—

(*a*) the marks obtained in the respective optional subjects only, *i.e.*, the marks obtained in the groups when the candidates passed in that group (whether the candidates have passed in the first attempt or not), shall be taken into account in respect of all those institutions except the Artisan Courses in the Sri Jayachamarajendra Occupational Institute and only candidates who have obtained not less than 45 per cent of the total marks in the relative optionals will be considered, so far as those belonging to communities other than Scheduled Castes and Tribes are concerned. No such limit shall be observed in regard to candidates belonging to Scheduled Castes and Tribes. In respect of the Artizan Courses in the Sri Jayachamarajendra Occupational Institute the fixation of such a percentage of marks for admission is found to be not necessary.

(*b*) Regard shall be had within the respective categories to the performance of the candidate in the examination, extra curricular activities, aptitude for the technical courses, etc., as in the previous year.

(*c*) The candidates belonging to Scheduled Castes and Tribes will first be given seats, in the order of merit as indicated in 6 (*b*). If in any institution there are not enough number of candidates in the Scheduled Castes and Tribes for the seats reserved for them, the lapses will be added to the Backward Classes pool. The lapses out of the seats reserved for non-Mysorean students will go to the general pool. After the seats are so given to the Scheduled Castes and Tribes, all the remaining candidates will compete for the general pool and seats will be given according to merit as indicated in para 6 (*b*). After 50 per cent of the seats in the general pool are so filled up, the remaining seats meant for the Backward Classes will be filled up according to merit as indicated in para 6 (*b*).

7. The rules 2 to 6 will apply to the Aided Engineering Colleges and Schools also.

REVENUE SECRETARIAT

Orders the correction of Boundaries of the Maps of Kohally and Ayanur Villages by the inclusion of the abandoned course of the halla within the boundary of Yelavalli Village, Shimoga Taluk.

READ—

Letter No. C4. 1634—51-52, dated the 1st December 1951, from the Revenue Commissioner in Mysore, requesting sanction to correct the boundaries of the Maps of Kohally and Ayanur Villages, Shimoga Taluk, by including the halla on the boundary between the Yelavalli, Kohally and Ayanur within the limits of the Yelavalli Village.

2. Letter No. S.D.S. 14—51-52, dated the 14th March 1952, from the Superintendent of Land Records, furnishing two sketches in the matter.

ORDER NO. R. 1868-71—L.S. 130-51-4, DATED BANGALORE, THE 19TH MAY 1952.

An extent of 30 guntas in the halla kharab adjacent to Survey Nos. 60 and 61 of Yelavalli Village is reported to have been appropriated for wet cultivation. Subsequently, 24 guntas of the halla kharab were added to Survey No. 60 of Yelavalli and the remaining 6 guntas to Survey No. 61 of the same village. According to Survey Records, the halla in question constituted the boundary between Yelavalli and Kohally and Ayanur Villages. As per revenue accounts, half the extent of these portions of hallas belongs to Kohally, Ayanur and Yelavalli Villages, and as a result, the alluvial land owing to the change in the course of the halla now within the boundary of Yelavalli, will have to be added on *pro rata* to the respective villages. At present, the halla has been granted to one person, *i.e.*, the owner of Survey No. 60 of Yelavalli.

The addition of portions of the halla to the respective villages will result in the fragmentation of the entire extent and its constitution into separate survey numbers which hamper agricultural operations. It will also necessitate the cancellation of the sanction of the land.

This can be avoided if the bits are added on to Yelavalli Village.

In the circumstances, the Revenue Commissioner has proposed that the abandoned course of the halla may be included within the boundary of Yelavalli Village and to correct the boundaries of the Maps of Kohally and Ayanur accordingly.

The proposal of the Revenue Commissioner is sanctioned.

B. T. KEMPANNA,

Orders the constitution of the Rampura Village in the Shimoga Taluk into a separate Shanbhogi Circle.

READ—

Letter No. C. 10—P.R. 282—51-52, dated the 20th March 1952, from the Revenue Commissioner in Mysore, Bangalore, requesting sanction to the constitution of the Bechrak Village of Rampura in the Shimoga Taluk into a separate Shanbhogi Circle.

ORDER No. R. 2004-17—L.S. 149-51-2, DATED BANGALORE, THE 23RD MAY 1952.

On the bifurcation of the erstwhile Shimoga Taluk into two separate taluks of Shimoga and Bhadravati, the first five out of the six villages noted below, comprised in the Doddagoppanahally Shanbhogi Circle, were included in the Bhadravati Taluk, while the sixth village, *viz.*, Rampura was retained in the Shimoga Taluk. As a result of this, Rampura came under the administrative control of the Amildar of Shimoga, while the other five villages of the same Firka under the control of the Amildar of Bhadravati. Rampura is nearer to Shimoga than to Bhadravati and the Shanbhog of the circle in question is reported to be living at Hiriyur (Bhadravati Taluk). The Shanbhog is further stated to have pleaded his inability to attend to the Shanbhogi duties relating to the Rampura Village also, the village being far away from his five other villages.

Potgi also has been separately fixed for this village.

1.	Doddagoppanahalli ...	Bhadravati.
2.	Thimmalapura ...	Bhadravati.
3.	Bullapura	Bhadravati.
4.	Veerapura	Bhadravati.
5.	Ujjanpura	Bhadravati.
6.	Rampura	Shimoga.

In these circumstances, the Deputy Commissioner, Shimoga, the has proposed that the Rampura Village (Bechrak) be constituted into a separate Shanbhogi Circle, the Baraward being registered in the name of the Shanbhog in question and a separate Gumastha being appointed to perform the duties of the office.

The Superintendent of Land Records and the Revenue Commissioner are agreeable to the proposal.

The proposal of the Deputy Commissioner supported by the Superintendent of Land Records and the Revenue Commissioner is sanctioned.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Constitutes a Committee to examine the question of levying license fees for Catering Establishments.

ORDER No. S.D. 2497-506—R. 35-52-113, DATED BANGALORE, THE 11TH JULY 1952.

As per Mysore Food (Austerity Measures in Service of Meals) Order, 1951, in force in the State, no catering establishment can be opened except with a license obtained from the Director of Food Supplies. But no license fees are being levied on the licenses issued by the Director of Food Supplies in Mysore, Bangalore. The Local Bodies in the State have, however, been levying license fees on them under the provisions of the Corporation, Municipal and Village Panchayet Acts.

2. The question whether a fee may not be levied for licensing the hotels in addition to the fees levied by the Local Bodies came up for discussion during question time in the last session of the Legislative Assembly in November, 1951 and some of the members brought to notice that several hotels were in an insanitary condition and suggested the possibility of several of them being unlicensed. With a view to exercising effective control over the catering establishments in the State as also augmenting the revenues, Government consider that it may be desirable to levy fees on them in addition to the licensing fees levied by the local bodies. Before taking a decision, Government wish to have the question thoroughly examined by a committee.

3. Government are accordingly pleased to constitute a Committee consisting of the following members to examine this question thoroughly in all its aspects and to furnish their recommendations to Government with particular reference to the following :—

(1) Is it desirable to levy fees on Catering Establishments in addition to the licensing fees now being levied by the Local Bodies, and if so, at what rates ?

(2) What steps are needed to give effect to such a levy—legislative or otherwise ?

(3) What steps are necessary to check healthy growth of hotels and to limit the number to actual needs ?

(4) What special steps may be taken to make the existing hotels conform to sanitary and other conditions in keeping with Public Health ?

Members of the Committee.

1. The Chief Secretary to Government. (*Chairman*)
2. The Secretary to Government, Law Department.
3. The Secretary to Government, Local Self-Government Department.
4. The Director of Food Supplies in Mysore.
5. The Director of Public Health in Mysore.
6. The Mayor, Corporation of the City of Bangalore.
7. The Commissioner, Corporation of the City of Bangalore.
8. The President, District Board, Bangalore.
9. Sri B. T. Ramiah, Gandhinagar, Bangalore.

The Assistant Secretary to Government, Local Self-Government Department (Municipal), will be the Secretary to the Committee.

The Committee is requested to furnish their report within two months. Any interim recommendations that may be made by the Committee will be duly considered by Government.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

EDUCATION SECRETARIAT

Passes orders in the matter of giving Equal Opportunities to Women for appointments to Public Services in the State.

READ —

Government Order No. 6-105—C.R.B. 1-34-1, dated 3rd July 1934, issuing the revised rules of recruitment governing the subordinate superior services.

2. Government Order No. E. 13824-97—R. & P.S. 12-48-2., dated 11th June 1949, permitting the employment of women in the Mysore Public Service in certain Departments and to certain posts.

3. Letter No. 4283, dated 11th August 1950, from the Public Service Commissioner, stating that in the circumstances explained, amendments may be made in the existing service rules abolishing reservation of posts for either sex.

ORDER No. E. 4375-470—R. & P.S. 34-50-2, DATED BANGALORE, THE 7TH JULY 1952.

In Mysore, in the case of certain departments like the Medical and the Education, there are separate branches for men and women. Articles 16 (1) and (2) of the Constitution of India remove altogether any disqualification on account of sex for purposes of employment under the State and give men and women equal opportunities. It is therefore considered necessary to delete all references to and provisions for the reservation of posts for either sex and the prohibition of appointment of members of either sex from the service rules and to amalgamate men's and

women's cadres into one cadre, making no reservation of any percentage or proportion of posts in any service, class or grade in favour of either sex. Necessary amendments to the special rules if any for the services concerned will be issued in the Administrative Departments of the Secretariat.

While under Articles 16 (1) and (2) both men and women are given equal opportunities for appointment to Public Services in the State, Article 15 (3) of the Constitution empowers the State to make special provision for women. The question of making special provision for women in the Girls' Institutions and in the Women's Hospitals, will be dealt with separately in the Administrative Departments of the Secretariat.

Secretary to Government,

ORDER NO. FL. (B) 3475-76—C R. 16-52-76, DATED BANGALORE, THE 16TH JULY 1952.

As the Pass Order system now in force in the Public Works Department is not found suitable under the present conditions, Government are pleased to revive the cheque system with effect from 1st April 1952 in conformity with the procedure in Part "A" States.

The consequential changes in the accounting procedure, the main items of which are noted below, will also come into force at the same time or as soon as practicable :—

1. The Divisional Officers will issue cheques wherever they were issuing Pass Orders under the old procedure ;

2. Assistant Engineers in charge of Sub-Divisions are also empowered to issue cheques for the payments they can make. The drawing will however be subject to monthly limits fixed by the Divisional Officers for each treasury ;

3. Permanent advances now held for works expenditure will be refunded to treasuries by all permanent advance holders under advice to the Accountant-General ;

4. Moneys required for disbursement which were till now being met out of work permanent advance will hereafter be provided as under :—

(i) in the case of Divisional Officers by drawing cheques in favour of self ;

(ii) in the case of Sub-Divisional Officers by drawing cheques in favour of the payees or self as the case may require ;

(iii) in the case of other officers empowered to make petty payments under the control of Divisional and Sub-Divisional Officers by means of an imprest sanctioned by the Divisional Officer.

Moneys drawn under (i) and (ii) should be with reference to the actual requirements only and the balance of cash on hand at any time should be kept as low as possible.

Under (iii) imprests up to maximum of Rs. 500 in each case will be sanctioned by the Divisional Officer himself to subordinate officers empowered to make petty payments. The actual amount of imprest to be allowed in each case will be within his discretion. The amount which will be drawn by cheques will form part of the cash balance of the Divisional or the Sub-Divisional Officer issuing the cheques.

5. The imprest holder will maintain and render his accounts in the form and manner indicated in Annexure A.

6. The Register of passed bills will be discontinued. In its place a Cash Book in Form P.W.A.1 will be maintained by all officers drawing cheques. Receipts creditable to Public Works heads of account will be shown in this Cash Book itself. The form of the Cash Book and the detailed rules as to the manner in which this book should be written up are given in Annexure B.

7. Moneys drawn from treasuries on bills towards Salary, Establishment, T.A. and Contingencies and Disbursements thereof will not be shown in the above Cash Book but in a General Cash Book in the form prescribed in Mysore Civil Account Code, Volume I.

8. A disbursing officer (Divisional or Sub-Divisional Officer) can make a remittance to a subordinate officer to enable him to make a number of specific petty payments on a muster roll or other voucher which has already been passed for payment. The amount remitted in such cases should be treated as a temporary advance and accounted for in the same way as an imprest, but separately.

9. The Sub-Divisional Officers will close their Cash Book on the 25th of each month and extracts of this Cash Book (supported by vouchers) should be sent to the Divisional Officer twice a month, *i.e.*, for the period from 26th of the previous month to the 10th of the current month, on the 13th and for the period from 11th to 25th, on the 28th of the month. Transactions of the last few days after the 25th will of course appear in the Cash Book for the following month. In March however, the Sub-Divisional Cash Book will be closed on the last working day of the month to enable all the transactions of the official year being included in the Divisional accounts for the year. These extracts will not be incorporated in the Divisional Officer's Cash Book but used independently for posting the Divisional General Cash Abstract.

10. The Sub-Divisional Cash Books will be balanced on the dates prescribed for closing the Cash Book for the month, *i.e.*, 31st in March and 25th in other months. The Divisional Cash Book will be balanced on the last working day of the month invariably which is also the date of closing. The details of the actual cash found at the monthly counting should be recorded in P.W.A. 2 (*vide* Annexure C) and a certificate of the reconciliation of the book balance with the actual recorded below the closing entries of the month.

A copy of the monthly Cash Balance report (in Form P.W.A. 2) of the Sub-Division should be sent to the Divisional Officer along with the extract from the Sub-Divisional Cash Book.

11. Rules for the custody of Cheque Books, drawing the cheque forms, issue of duplicate cheques, etc., will be found in the Accountant-General's Circular No. 21—W.M., dated the 4th January 1952.

12. Payments to suppliers located outside the jurisdiction of the Divisional Officers should be arranged by the Divisional Officers themselves in future by obtaining Remittance Transfer Receipts from the treasuries on self cheques. Payments outside the State may be arranged through the Imperial Bank of India, Bangalore. For this purpose, a requisition should be sent to the Bank through State Huzur Treasury furnishing the full addresses of the firms and the amount payable to each accompanied by forwarding memos to be enclosed with each draft together with a Remittance Transfer Receipt on the State Huzur Treasury to cover the amounts of drafts.

13. Paras 66, 150 to 152, 158, 160, 162, 189, 192, 194 to 198, 200 to 209, 221, 273, 274, 283, 311, 329 to 349 of the Public Works Account Code will be suitably amended. In other respects, the existing procedure will be continued.

M. SHAMANNA,
Secretary to Government,
Finance Department.

ANNEXURE A.

IMPREST CASH ACCOUNT.

1. Government servants entrusted with fixed imprests or temporary advances should maintain and render accounts of their disbursements therefrom in Form P.W. A3.

2. The round sum with which an Imprest cash account is opened, should be entered at once in red ink in column 5, "Total". The date and manner of the remittance, and, if recouped by cheque, the cheque and the cheque book number should also be entered, column 3 being utilised for the latter purpose. The disbursements from this imprest should be entered daily as they are made clearly and in full detail; and from time to time as the imprest holder finds it necessary, as also a few days before the due date for the monthly closing of the Cash Book of the disbursing officer from whom the imprest is held, the account should be closed and balanced, the detachable sheet being cut off and sent to the disbursing officer, the counterfoil being retained by the imprest holder. The account should be supported by a voucher in proper form, for each payment, numbered and attached to the account so as to correspond with the order of the entries in column 2, "Voucher No.". The sum received from time to time, in recoupment of the imprest should be entered in column 5 in red ink in the same way as the fixed amount with which the account was first opened.

3. The account should contain no entries of receipts other than the opening entry of the fixed imprest and the subsequent recoupments of expenditure, nor any entries of expenditure other than those paid directly by the imprest holder himself from the amount of his imprest.

4. Money received by imprest holder on behalf of Government is not to be mixed up with their imprest cash, or brought into the imprest cash book, but should be disposed of in the manner prescribed in the relevant treasury rules.

5. To facilitate the abstracting of charges by the recouping disbursing officer, the imprest holder must enter invariably in column 3, along with other particulars of payment, the name of the work, etc., to which each payment is debitable and also the name of the contractor or other person, if any, from whom the amount paid is recoverable. Column 6 is intended for the head of account to which each payment relates and should be left blank by the imprest holder. The date and manner of recoupment, and, if recouped by cheque the cheque and cheque book number, should be entered by the recouping disbursing officer on every imprest account disposed of by him also a note of increase, reduction, or withdrawal when such occur. When the amount is incorporated in his own cash book, it should be numbered to correspond with the voucher number quoted in the Cash Book, so as to be readily traceable from it.

6. Temporary advances should also be accounted for in this form, but the accounts of these advances should be quite distinct from those for permanent advances.

ANNEXURE B.

CASH BOOK (P.W. A1).

The Cash Book contains two money columns, headed (1) "Cash" and (2) "Bank or Treasury", on the payment side to distinguish payments made by cheques from those made out of the cash in chest. When, however, a cheque is drawn to replenish the chest, its number and amount should be entered on the payment side in the "Bank or Treasury." Columns Nos. 10 and 11, and the amount only on the receipt side as "Cash from Treasury" in the single "Cash" Column No. 4. The amount of a cancelled cheque should be shown by a special writeback entry, as a *minus* figure on the payment side in the "Bank or Treasury" column, but the fact of a new cheque having been issued in lieu of a time-expired or lost cheques should be entered on the date of issue in red ink in Column No. 8 only, and not in the columns for "Payments" a counter reference being given in both cases against the original entry in the Cash Book.

2. Every entry should be concise. The date, the number of voucher if any, the name of the work, and such a brief narration as will indicate unmistakably the nature of the transaction must be entered against each item. The amount debitable or creditable to each separate work, head of account, or contractor or other person should be entered separately, and the amounts to be posted by the divisional office into the Abstract Book or Schedules of account under each prescribed head of account should be brought out distinctly opposite the entries in Columns 5 and 12, headed "Classification of Receipts" and "Classification of Charges". No receipt or payment other than that of "Cash" as defined in Article 311 (*a*) (i) should be entered in the Cash Book. A deduction made at the time of payment, creditable to a work or head of account other than that to which the payment itself is debitable, should, however, be entered on the receipt side of the Cash Book.

3. Transactions should be recorded at the time and on the date on which they actually occur and strictly in the order of occurrence. If, however, owing to the absence of the disbursing officer on tour a cheque issued by him, whilst in camp, is entered in the Cash Book maintained at his headquarters on a subsequent date, the actual date of issue of the cheque should be noted in the Cash Book as the denominator of a fraction the numerator of which should be the date on which the transaction is incorporated in the book. A similar procedure should be observed when the double transactions relating to the realisation of miscellaneous cash receipts by a subordinate and their payment directly into treasury is incorporated in the Cash Book of the superior disbursing officer on receipt of the receipted chellan of the treasury from the subordinate.

4. Acknowledgments of payments should be numbered in a separate series for each month and the serial number of each voucher should be entered in the Cash Book as soon as the payment transaction is entered in it.

5. When an imprest is first given the fact should be noted in red ink, in the Cash Book of the disbursing officer giving it, in the column "To whom paid" but the amount should not be entered as an actual payment, as it will still form a portion of the Cash Book balance of the distribusing officer making the advance. If, however, a cheque is drawn, its amount should be shown on both sides of the Cash Book, *vide* Note 1. Any subsequent increases or decreases in the amount should be noted similarly, the increases on the payment side and the decreases on the receipt side.

6. In posting transactions from imprest accounts the recouping Disbursing Officer should enter in his Cash Book only the total for each work or head of account as brought out in the abstract, which should be prepared in his own office, on the reverse of the imprest account.

7. All payments should be debited at once to the work or service on account of which they are made. Money advanced to a subordinate for disbursement of labourers, etc., at a distance should be noted in the Cash Book in red ink as a temporary advance, in the manner followed when regular imprests are first made; and when the subordinate returns the duly certified muster rolls, etc., with the unpaid wages, if any, the amounts actually paid should be debited to the works or services concerned, the amount unpaid being returned into the cash balance. A similar procedure should be observed when the Disbursing Officer removes cash from his chest and takes it with him on tour for disbursement.

8. When an advance on transfer is made to a Government servant from the cash in the hands of the Disbursing Officer pending recoupment when the bill is encashed subsequently, the amount thus advanced should not be entered as a final transaction in the Cash Book but recorded as a temporary advance so that the amount may continue to form part of the cash balance for which the disbursing officer is responsible.

9. The cash balance at end of the month should be detailed thus in a note at foot of the Cash Book :—

Cash in chest ...	...	7	9	5
Imprest with Janab Abdul Raheem	...	50	0	0
Imprest with Mr. R. Johnson	...	100	0	0
Total cash balance as above	...	157	9	5

(Rupees one hundred and fifty-seven, annas nine and pies five only).

10. If the disbursing officer draws on more than one district or taluk treasury, the total amount of cheques drawn during the month on each (excluding the amount of cancelled cheques), should be recorded in another note at foot of the Cash Book.

11. Cash Books should have their pages machine-numbered. As far as possible, no lines should be left blank, but if any space on a page of the Cash Book has to be left blank owing to the whole of the other page of the same folio being written up completely, a diagonal line should be drawn to cancel the blank space, so that it may not be possible to make any subsequent entries therein. Interpolation of entries should be avoided as far as possible, but when it becomes necessary to make any entries between two ruled lines or to make any additions to, or interpolations between, entries already made, such additions should be attested invariably by the dated initials of the Disbursing Officer.

LAW SECRETARIAT

Records Administration Report of the Labour Department for the year ended the 31st March 1951, with certain observations.

READ—

Administration Report of the Department of Labour for the year ended with the 31st March 1951 received with letter No. T2/66. C. 104/52-53, dated the 21st April 1952, from the Commissioner of Labour in Mysore, Bangalore.

ORDER No. L.S. 1740-42—L.W. 142-52-3, DATED BANGALORE, THE 11TH JULY 1952.

Recorded.

There has been inordinate delay in the submission of the Administration Report, in spite of remarks to this effect in the previous Administration Report. The Labour Commissioner is requested to see that in future at least these reports are submitted to Government in time.

Tours.—The Commissioner of Labour has toured only 73 days as against 91 days during the year 1949-50 and 108 days during the years 1948-49 and the touring done is inadequate. While there is some improvement in touring by the Assistant Commissioners of Labour of Bangalore, Chikmagalur and Shimoga, the touring done by the Assistant Commissioner of Labour, Mysore and Kolar Gold Fields does not seem to be satisfactory. As previously pointed out, the Commissioner of Labour should regulate the tours of all these officers on a systematic basis and see that there is neither too much of touring nor too little of it.

Industrial Labour.—There were 216 industrial undertakings (including Plantation Estates) coming under the purview of the Mysore Labour Act as against 129 industrial undertakings during the year 1949-50 and as against 115 during the years 1948-49. The total number of operatives employed in these industrial undertakings is stated to be 80,883 as against 94,127 in the year previous. While there is a steady expansion of industrial undertakings, a marked decrease in the number of operatives is reported. This is perhaps due to retrenchment and strict measures of economy adopted by the Industrial Concerns.

Security of Service.—Security of Service was ensured to all workers employed in industrial undertakings coming under the purview of the Mysore Labour Act. As regards Plantation Labour no security of service exists, as there is no permanency of employment, and the workers are played off during certain seasons. It is however, gratifying to note that some of the Estates have introduced Provident Fund Schemes for the benefit of their labourers.

Labour Conditions.—General labour conditions in the State during the year was on the whole normal and peaceful. The number of strikes decreased markedly from 26 in the previous year to six in the year under report. This is perhaps due to the timely intervention of the department and prompt reference of the disputes to the Industrial Tribunal for adjudication.

Elections to Labour Associations.—Annual elections to Labour Associations were completed during the year in respect of 15 Associations as against 40 Associations in the previous year. The inactivity of the department in this behalf is stated to be due to the want of clarification of law due to the introduction of Central Acts under Part B States (Laws) Act, 1951.

Standing Orders.—It is gratifying to note that only two standing orders were pending settlement at the close of the year as against 11 (eleven) in the previous year.

Notices of Change.—Out of 43 notices of change pending before the conciliator, agreement was brought about by him in 10 cases, and 4 cases were referred to Arbitration. The pendency at the close of the year was heavy.

160

Labour Welfare.—The two recreational centres started by the Department at Bangalore—one at Cottonpet and the other at Chamarajpet—continued to work satisfactorily. During the year Labour Welfare received due attention at the hands of the Department.

The working of the Department during the year was on the whole satisfactory.

10. Letter No. F.C. 1044—52-53, dated the 2nd June 1952, from the Commissioner for Food Production in Mysore, Bangalore, stating that an expenditure of Rs. 7,50,000 is proposed to be met by the Government of India under Grow More Food Scheme for sinking 1,500 irrigation wells in the State, and that it is necessary to limit the subsidy granted under the existing Government Order to Rs. 250 instead of Rs. 500 and recommending orders of Government to limit the subsidy payable for each well to Rs. 250 and to raise the loan limit from Rs. 500 to Rs. 750 per well so that the raiyats may have the benefit of receiving financial assistance from Government up to Rs. 1,000 in all per well.

11. Letter No. C. 5-5032—51-52, dated 25th June 1952, from the Revenue Commissioner in Mysore, requesting orders to continue the scheme for the year 1952-53.

ORDER NO. R. 4137-49—R.M. 36-52-9, DATED BANGALORE, THE 19TH—21ST JULY 1952.

The scheme of subsidising the sinking of irrigation wells which was originally introduced in the year 1946 in Government Order No. R. 6349-62—R.M. 37-45-152, dated 12th March 1946, cited above, has been continued from time to time. The original limit of subsidy which was Rs. 500 per well was enhanced to Rs. 1,000 during 1948-49 to provide a greater incentive to food production. In Government Order No. R. 9572-85—R.M. 85-49-4, dated 25th March 1950, the maximum of subsidy allowed per well was limited to half the cost of the well not exceeding a sum of Rs. 500 subject to the condition that a loan not exceeding Rs. 500 per well could be sanctioned wherever necessary.

Pursuant to certain decisions arrived at, at a Conference on the Grow More Food Scheme held in New Delhi on 21st April 1952, the existing subsidy rules require modification so as to conform to All-India policy in the matter especially as moiety of the subsidy granted for irrigation wells under the Grow More Food Scheme is being met by the Government of India. Government accordingly sanction the continuance of the scheme for the construction of the irrigation wells during the year 1952-53. They further direct that :—

(*a*) the outright grant payable shall be Rs. 250 per well subject to the condition that it shall not exceed 25 per cent of the total cost and

(*b*) a loan may also be sanctioned in cases where necessary, in addition to the subsidy sanctioned, subject to a maximum of Rs. 750 per well.

The Revenue Commissioner in Mysore is requested to issue any subsidiary instructions necessary to the Deputy Commissioners in the matter.

OFFICIAL MEMORANDUM.

ORDER No. M. 8693-792—G.M. 27-52-1, DATED BANGALORE, THE 29—30TH JULY 1952.

His Highness the Maharaja is pleased to direct that the "Janaganamana" having already been adopted as the National Anthem in Mysore State, the use of the Mysore Anthem in addition be discontinued in future.

By Order of His Highness the Maharaja,

A. S. KHALEEL,
Secretary to Government,

FINANCIAL SECRETARIAT

Prescribes revised procedure for accounting of Earnest Money Deposit paid by Tenderers into Treasuries.

READ—

Letter No. W.M. G.C. 212, dated the 2nd June 1952, from the Accountant-General, Mysore, Bangalore, proposing revised procedure for accounting of Earnest Money Deposit paid by Tenderers into Treasuries.

ORDER No. FL. (B) 3577-90—C.R. 18-52-2, DATED BANGALORE, THE 17TH JULY 1952.

Under the rules contained in the Mysore Public Works Account Code, the Earnest Money paid by prospective tenderers for work in the Public Works Department is now brought to account in the Divisional Cash Book on the strength of the Treasury Chellans produced and credited to Public Works Deposits. The deposits of unsuccessful tenderers are refunded to them on Deposit Refund Bills passed for payment by the Executive Engineers.

But in Part 'A' States and in the Central Public Works Department, the following procedure is followed:—

"Persons who wish to submit tenders, remit the specified amount of Earnest Money into Treasury, mentioning in the chellans the name of the officers on whose behalf and the names of the work for which the amount is deposited. The chellan containing the Treasury Officer's acknowledgment is attached to the tender. In the Treasury accounts, the amount is credited to "Revenue Deposits", and it is not accounted for in the Divisional Cash Book as it was remitted into the Treasury and not received in the Divisional Office direct. After the tenders are disposed of, the Treasury chellan accompanying the tenders of unsuccessful tenderers is returned to them by the Public Works Department after recording thereon an endorsement signed by the Divisional Officer to the effect that the tender is rejected and the amount of the chellan may be repaid to the party concerned. The Treasury Officer thereafter refunds such Earnest Money deposits to the parties direct on production of such endorsed chellans without any further authority of the Divisional Officers. In the case of the amount paid by the person whose tender is accepted the Treasury Officer is addressed by the Executive Engineer to transfer the amount from the Revenue Deposits to the Public Works Department through "P.W. Remittance III Other Remittances—Items adjustable by Public Works Department." On receipt of advice of such credit from the Treasury, the amount is adjusted to the credit of "P.W. Deposits" in the Divisional Accounts as security for the due fulfilment of contract."

The Accountant-General states that the above procedure will be very convenient to the Contractors who can get quick refund of the money deposited by them as soon as the tenders are settled and that the Department can also save a good deal of scriptory work involved in entering all the items relating to unsuccessful tenderers in the Deposit Registers and refunding them on the Refund Bills.

It is, therefore, directed that the revised procedure proposed by the Accountant-General be introduced in the Mysore State also, with effect from 1st September 1952.

Necessary amendments to the Mysore Public Works Account Code and Mysore Civil Accounts Code, Volume II, will issue, in due course.

M. SHAMANNA,
Secretary to Government,
Finance Department.

IMPORTANT GOVERNMENT ORDERS

DEVELOPMENT SECRETARIAT

Sanctions the introduction of Incentive Bonus Scheme in the Mysore Iron and Steel Works.

READ—

Correspondence ending with letter No. B. 685, dated the 28th February 1952, from the Secretary, Board of Management, Mysore Iron and Steel Works, regarding the introduction of an Incentive Bonus Scheme in the Mysore Iron and Steel Works.

ORDER No. I. 1046-48--IND. 34-52-6, DATED BANGALORE, THE 4TH JULY 1952.

The desirability of introducing an Incentive Bonus Scheme in Government Industrial Concerns on the lines of the scheme adopted by the British European Airways was referred for examination and report to the three Boards of Management for Industrial Concerns and the respective Directors.

Meanwhile, the Board of Management, Mysore Iron and Steel Works, had already constituted a Committee in the year 1946 to examine the question of introducing a Production Bonus Scheme in the Works. This Committee has examined the proposals in great detail duly taking into consideration the scheme obtaining in Messrs. Tata Iron and Steel Co., Ltd., and also that introduced by the British European Airways, referred to above. After a careful study of all the factors involved and the average production that can reasonably be expected in

the Production Departments, the Committee has prepared a scheme for payment of Production Bonus to employees of the Mysore Iron and Steel Works. A copy of the scheme is appended. The chief features of the scheme are as under :—

(1) The production bonus should act as an incentive to higher production, any increase in cost due to payment of production bonus being more than set off by the reduction in the unit cost under fixed charges.

(2) The production targets have generally been fixed considering the production for the last five years and the present trend of production.

(3) The entire works have been classified into production, semi-production and service departments.

(4) The production bonus varies from 12 per cent to 20 per cent of basic wages and salaries, including acting allowances in the case of production departments. The percentage of bonus proposed for semi-production and service departments is 75 per cent and 50 per cent, respectively, of the average percentage of production departments pooled together. The net savings to the Works, after payment of production bonus to these departments, vary from Rs. 5,618 to Rs. 42,559 per month.

(5) The bonus for a month is to be calculated on the average monthly production, based on the production for that month and preceding eleven months. But during the first year, it will be based on the average monthly production from the date of introduction of the scheme.

(6) The scheme will apply to all staff, from Superintendents downwards.

(7) The scheme may be tried for two years in the first instance.

(8) A scheme of good attendance bonus may be introduced providing for a bonus of 5 per cent of basic wages for the daily-rated staff, who are not absent on leave on loss of wages on any day during the month and in the case of monthly-rated staff, it may be restricted to I Division Clerks and below in Offices and Foremen and below in the Factory, the attendance bonus being paid at 5 per cent of their basic salary, if they are not absent for more than one day on leave with pay.

The scheme is proposed to be given effect to from 1st April 1952. It is proposed to notify that the targets have been designedly pitched on the low side to begin with to stimulate interest in the scheme. Necessary provision for the expenditure has been made in the budget of the Works for the current year (1952-53).

The Board of Management, Mysore Iron and Steel Works, have approved the scheme subject to the following modifications and have solicited sanction therefor :—

(1) The production bonus will be given on actual production.

(2) The targets fixed for Cement Plant will be notified as being low and fixed provisionally and subject to revision on adjustment of the plant to capacity.

The Mysore Iron and Steel Works Labour Association have also been repeatedly urging for sanction to the above scheme.

Government consider that the proposals of the Works are acceptable and are calculated to prove an incentive to good work.

The introduction of the scheme, as recommended by the Board, is accordingly sanctioned for a period of two years in the first instance from 1st July 1952, the position being subject to review at the end of the period.

Secretary to Government,
Development Department.

ANNEXURE.

THE MYSORE IRON AND STEEL WORKS, BHADRAVATI.

Dated 28th January 1952.

Sub :—A Scheme for Production Bonus.

1. Need for creating some kind of incentives to the employees engaged in an industry, over and above their normal wage earnings, to enable them to put forth their best efforts to increase output, has been recognised in all well established industries. The incentive takes a variety of forms, all of which invariably result in increased money earnings of the employees. The basis for fixing the amounts naturally varies according to the type of industry, local conditions, etc. Latest practice for incentive awarding, followed in advanced countries like U.S.A., it is learnt, is through an elaborate system of time studies of operation of each unit in the Departments, conducted by a special Department called the Industrial Engineering Department. Using these statistical data, mainly based on the extent of utilisation of personnel and equipment, a scheme of payment of incentive bonus, expressed as a percentage of wages, is worked out. The scheme is too elaborate and complicated for being considered in our Works at present.

2. In Iron and Steel Industry, the incentive generally takes the form of what is generally known as Production Bonus. The practice followed in Tatas, the foremost Steel Producing Company in India, was therefore considered in detail.

3. The scheme of Production Bonus at Tatas' Works has varied from time to time and the salient features of the scheme now in force (revised in October 1947) are noted below:—

(i) All Production Departments to be on a uniform system of bonus.

(ii) The Bonus is calculated on the average production of finished steel in tons. By average production is meant the average of the production of 12 months, period consisting of the current month's production *plus* the production of the eleven preceding months.

(iii) Bonus is in the form of percentage of their wages (actual wages *plus* acting allowance).

(iv) Bonus to Maintenance and Service Personnel is 10 per cent less than what is earned by Production Personnel.

4. Detailed figures showing the tonnages of steel and corresponding percentage of bonus to production and Service Personnel are given in the enclosed pamphlet.

5. At the outset, it will be seen that the employees get bonus even for production far below what is shown as target figure. Each production Department Employee gets 50 per cent of his wage as Bonus (and Maintenance and Service Department employees get 40 per cent) for a monthly average production of 61,100 tons of finished steel—the target figure—while he earns 10 per cent of his wages (in this case Maintenance personnel get no bonus) for an average monthly production as low as 41,200 tons. (This tonnage works out to an annual output of 4,94,400 tons which is far below the lowest tonnage produced in any one year). On the other hand, each employee gets a bonus of 90 per cent of his wages for an average monthly production of 74,900 tons or 8,98,800 which is certainly a realisable output in their works.

6. Obviously it is not practicable to introduce a scheme in our Works, as simple and as liberal as in Tatas. Since we make a number of saleable products—steel being one of them —no scheme can be recommended based on output of finished steel only. On account of several natural handicaps confronting the Works, no incentive for getting best possible results, anywhere near Tatas' basis can be recommended Besides, the system of production bonus at Tatas' Works has been in existence long before the time scale of wages was introduced. A liberal scale of production bonus can be justified only when the wages and salaries are fixed for jobs with no annual increments.

7. After a careful study of all the factors involved and the average production that can be reasonably expected in the Production Departments, details have been worked out for each Production Department giving the minimum tonnage, which will entitle the employees in that Department to earn 12 per cent of their wages (basic) wage and acting allowance as bonus, and the increased percentages of bonus (increasing by 1 per cent up to 20 per cent) for each incremental increase in production. Details have been worked out for the Main Production Departments, *viz.*, Blast Furnace, Pipe Foundry, Open Hearth, Rolling Mills, Cement Plant, the New Ferro-Silicon Plant, Strip and Rod Mill. The targets in the last " two cases have been fixed low provisionally and are subject to revision on adjustment of the Plants to Capacity "

8. In working out the details, the main principle kept in view is that any scheme of production bonus that may be introduced must work as an incentive to higher production above the fixed output; and that the total cost of product, after payment of bonus should not be increased appreciably. The increase in cost due to payment of bonus will be more than offset by the reduction in unit costs under wages and salaries and fixed charges.

9. It is not considered practicable to group all other departments as maintenance and service departments, as the Electric Furnace, Steel and General Foundries, Machine Shop, Structural Shop do a considerable amount of work on sale of products. We, therefore, consider it advisable to treat these departments as semi-production departments, entitling the employees of these departments to 75 per cent of the average percentages of bonus proposed for all the Production Departments pooled

together while in the case of purely service and maintenance departments like Electricity and Water Supply, Yard Laboratory, Inspection, etc., the ton percentage of bonus might be 50 per cent.

10. The case of staff in the Materials Division, Mines and Transport Departments was also considered. Although, a scheme of incentive other than what is generally applied to the Production Departments, is desirable, we recommend that the scheme now recommended to the Service Departments of the Works be applied to these departments also, namely 50 per cent of what is applicable to the Production Departments.

The Laboratory (both the Main Laboratory and the Cement Plant Laboratory), Drawing Office and the Inspection Office, Central Stores including Stationery and the Rolling Mills Stock-yard and Shipping may also be treated as Service Departments and the rate of bonus recommended made applicable accordingly.

During the 1st month after introduction of the scheme the production that will count for production bonus will be the production of that month. From the second month and onwards until close of the first year the average monthly production from commencement up to and inclusive of the production of the month for which the production bonus is payable. After completion of the first year, the production that will count for production bonus will be the average production of the month *plus* those of eleven previous months. In calculating the average, any periods of abnormality to be excluded and the production of a corresponding preceding period to be taken to account.

The standard weight of O.K. production in the Rolling Mills and standard weight of production of P. Class in the Pipe Foundry and the production of Cement in the Cement Plant will be reckoned for calculating production bonus.

The bonus is payable to all Staff from Superintendents and below.

Regarding application of Production Bonus Scheme to Administration Accounts, Management, Sales, Town, Hospital and Watch and Ward, it is proposed to review the position after the scheme is tried for some time in the case of departments already proposed.

It may be seen from the statements showing the total amounts to be paid as bonus and the net savings after payment of bonus to Production and Service Departments, the overall anticipated savings vary from Rs. 5,618 to Rs. 42,559 per month for the different percentage of bonus from 12 per cent up to the maximum amount of 20 per cent.

We recommend that the scheme of bonus be sanctioned from 1st April 1952. We also recommend that the scheme of bonus proposed for sanction and the basis for payment should be for a temporary period of 2 years in the first instance. The position can be reviewed later and any revision or modification effected.

A proposal put forward by Sri T. Krishnappa proposing some incentive to the Gas Producing Section of the Open Hearth Department was referred to the Production Bonus Committee. Such special incentives to individual section in departments can be satisfactorily dealt with only by making elaborate time studies by an independent agency. In view of our proposal to sanction a plant-wide scheme of bonus based on production, we do not consider it desirable to examine this scheme.

A scheme of good attendance bonus is in force in Tata Iron and Steel Company fixing a certain percentage of the basic wage for the daily-rated staff and a reduced percentage to monthly rated employees drawing Rs. 150 and below. The Committee has examined this question and recommend that a scheme of good attendance bonus be introduced providing for a bonus of 5 per cent of basic wages for the daily-rated employees who are not absent on leave on loss of pay on any day during the month. In the case of monthly rated employees, we propose that this scheme should be restricted to I Division Clerks and below in Offices and Foreman and below in Factory. Such employees will be entitled to attendance bonus of 5 per cent of their basic salary if they are not absent for more than one day on leave with pay per month.

FINANCIAL SECRETARIAT

Issues instructions regarding countersignature of Travelling Allowance Claims of Non-Gazetted Officers by Controlling Officers.

OFFICIAL MEMORANDUM.

No. FL. (B) 2987-3087—C.R. 12-52-2, DATED BANGALORE, THE 28TH JUNE 1952.

A copy of Official Memorandum No. F. 5 (3)-E. IV/52, dated the 27th May 1952, issued by the Government of India, Ministry of Finance, New Delhi, is appended herewith for information and guidance. In cases where the drawing officers, who sign travelling allowance bills have no knowledge of the travelling allowance claims of subordinates, they should get the travelling allowance journals certified by the superior officer who authorised the journeys before claims are preferred in the travelling allowance bills.

The Heads of Departments are requested to issue needful instructions to avoid fraudulent claims.

By Order of His Highness the Maharaja,

M. SHAMANNA,
Secretary to Government,
Finance Department.

ANNEXURE.

O.M. No. F. 5 (3)-E. IV/52, dated 27th May 1952, issued from the Government of India, Ministry of Finance, New Delhi.

SUBJECT.—Countersignature of Travelling Allowance Claims of Non-Gazetted Officers by Controlling Officers—Verification of particulars of journey.

A case has come to the notice of the Government of India in which a stenographer attached to an officer claimed travelling allowance in respect of a journey stated to have been performed by him in connection with the tour of the officer to whom he was attached and the bill was passed by the audit officer. According to further information obtained, it transpired that this journey was never performed by the stenographer concerned. A fraud of this kind is possible whenever the controlling authority does not, before countersigning the bill, verify from the officer concerned whether his stenographer had actually preformed the journey. The undersigned is directed to say that to prevent the recurrence of such fraudulent claims, it is essential that all controlling officers, before countersigning travelling allowance bills of non-gazetted officers (particularly of stenographers, personal assistants and Class IV Government servants) should see that the particulars of the journeys are certified by the Gazetted Officer under whose instructions the journeys were performed.

Procedure to be followed by Government Officers to obtain Imperial Bank Drafts for payment of bills relating to the Public Works Department to firms located outside the State.

READ—

Letter No. 418/P.P.D., dated the 20th March 1952, from the Accountant-General, Mysore, Bangalore, mentioning the classes of cases in which pre-audit cheques are being issued by his office needlessly and suggesting that in such cases, the Officer-in-charge of the State Huzur Treasury himself may be empowered to issue cheques on the Banks concerned.

2. Government Order No. Fl. (B) 3475—6. C.R. 16-52-6, dated 16th July 1952, approving the proposal of the Accountant-General to discontinue the pre-audit of bills of firms relating to the Public Works Department and directing that in such cases the Divisional Officers should arrange payment to the firms direct.

3. Correspondence ending with letter No. 88—Misc. A.S.R., dated 5th July 1952, from the Agent, Imperial Bank of India, Bangalore, suggesting the procedure to be followed by Government Officecs to obtain Imperial Bank drafts in such cases.

ORDER NO. FL. (B) 4007-4093—B. & T. 11-52-3, DATED BANGALORE, THE 25TH JULY 1952.

At present, pre-audit cheques are issued by the Accountant-General, Mysore, Bangalore, (1) in settlement of collection memos presented by the several local Banks at the State Huzur Treasury ; (2) on treasury requisitions whenever a claim payable at the Bangalore District Treasury or the State Huzur Treasury is desired to be discharged by means of a cheque on a Bank and (3) on requisitions for payments to be made outside the State on behalf of the Secretary, Government Insurance Department, the Controller, State Accounts Department, the Mysore University, and the Government Industrial Concerns. The intervention of the Audit Office in the above cases is considered unnecessary as no pre-audit of the claims is involved. Further, with the discontinuance of the pre-audit of firms bills of the Public Works Department, the Divisional Officers will themselves have to arrange payment to firms located outside the State by means of Imperial Bank drafts. With a view to facilitating expeditious payment in all these cases, the following procedure is sanctioned :—

(*a*) The Officer-in-charge of the State Huzur Treasury will be empowered to draw cheques on the Government Accounts with the Imperial Bank of India, Bangalore, and the Bank of Mysore, Bangalore.

(*b*) The collection memos of local Banks will be settled by the State Huzur Treasury Officer himself by issue of cheques on the Banks concerned.

(*c*) Government Officers including those in charge of Government Industrial Concerns having to make payments outside the State on Government account by bank drafts will hereafter prepare requisitions for bank drafts themselves in the form appended to this order and send the same to the State Huzur Treasury Officer along with a bill, cheque or R.T.R. to cover the amounts of drafts. The State Huzur Treasury Officer will adjust the amounts of such bills/cheques/R.T.R.'s. by transfer credit to a suspense head to be indicated by the Accountant-General, draw a cheque on the Imperial Bank for the amount covered by the draft requisition and forward the cheque and the requisition to the Imperial Bank, Bangalore, duly countersigning the latter for issue of Bank drafts.

(*d*) Unless the Officers requisitioning the drafts specify otherwise, the drafts will be arranged to be despatched to the payees by the Imperial Bank direct. For this purpose, the requisitions for bank drafts should be accompanied by covering memos signed by the departmental officers explaining the nature of payment for being sent to the payees along with the drafts.

(*e*) The postal charges incurred by the Imperial Bank for despatch of the bank drafts to the payees direct, will have to be borne by the Department concerned.

The Officers requisitioning the drafts should therefore see that the amounts of bills/cheques/R.T.R.'s. sent along with the requisitions for drafts, cover the postal charges also.

The new procedure will come into force from a date to be fixed by the Accountant-General and is liable to be modified suitably after the Reserve Bank commences to function within the State.

M. SHAMANNA,
Secretary to Government,
Finance Department.

INTRODUCTORY.

1. The Accountant-General may be required by Government to prepare annually *pro forma* accounts (otherwise known as Administrative Accounts) of irrigation, navigation, embankment and drainage projects for which capital and revenue accounts are kept. These accounts should be prepared in Form.....which is divided into the following six parts :—

Part I.—General Abstract of Financial Results.
Part II.—Detailed Account of Capital Expenditure.
Part III.—Revenue Account.
Part IV.—Interest Account.
Part V.—Account of Indirect Charges.
Part VI.—Statement comparing Capital Cost with Sanctioned Estimates.

Accounts of individual projects are kept in Parts II to VI for each, and the general results of all projects are abstracted in Part I.

CLASSIFICATION.

2. The Projects for which Administrative Accounts are prepared are classified thus:

A.—Irrigation Works.—

(1) Productive. (2) Unproductive.

B.—Navigation, Embankment and Drainage Works.—

(1) Productive. (2) Unproductive.

In Part I, projects should be grouped according to this classification, and on all separate accounts of them the detailed classification of each project should be indicated prominently.

PART I.—GENERAL ABSTRACT OF FINANCIAL RESULTS.

3. Part I is a summary of the financial results of all projects in the State excluding those for which no capital accounts are kept, the figures in respect of individual projects being taken from the detailed accounts as brought out to other parts.

NOTE.—Projects should be arranged serially in the order of the dates on which the construction estimates were closed. Projects whose construction estimates have not closed should come next in the arrangement and they should be detailed in the order of the dates of sanction to the estimates. This arrangement should not, however, interfere with the classification of projects between Irrigation and Navigation, etc., and between productive and unproductive prescribed in the preceding paragraph.

PART II.—DETAILED ACCOUNT OF CAPITAL EXPENDITURE.

4. Part II, the Detailed Account of Capital Expenditure, is a statement of the total direct charges incurred to end of the year against all the sanctioned estimates of capital expenditure. The outlay should be detailed by such branches and sections of the project as are shown separately in the sanctioned project estimate, and under each it should be given in full detail of minor heads (including "Receipts and Recoveries on Capital Accounts") and detailed heads.

(1) Charges under the minor heads "Establishment" and "Tools and Plant" should be detailed only if the entire expenditure of a circle of superintendence, or of any other prescribed unit of distribution of charges relates to a single project; in other cases, the charges to be shown under each of these two heads will be the lumpsums which may be debited to a project according to the rules of distribution of such charges made by Government in consultation with the Accountant-General.

(2) In the case of projects for which completion reports have been submitted, it is not necessary to show details of expenditure by detailed heads under the sub-divisions of the minor heads.

(3) In the case of projects in respect of which the construction estimates have been closed and the completion reports approved by Government and in respect of which no further capital expenditure is bing incurred under open capital estimates, all details of capital expenditure should be omitted, references being given to the Administrative Accounts of the years in which the Capital Accounts were shown in detail.

(4) The particulars of apportionment of the capital expenditure among the Irrigation Major Heads need not be shown in the capital account.

5. Expenditure on surveys which was incurred before construction commenced should be brought on to the account by an entry in the column headed "To end of the year" qualified by a suitable explanation in the column for "Remarks".

6. For purposes of comparison with estimates, the form of Part II provides a column for "Cost of construction as now estimated". This column is written up thus:—

(i) if the construction estimate is still open,	The estimated cost.
(ii) if the construction estimate is closed,	The aggregate of (1) actual expenditure on the closed construction estimate, (2) actual expenditure on all closed estimates of open capital, and (3) estimated cost of all open capital estimates the account of which are still open.

In the case of projects the construction estimates of which have been closed the difference between the figures in this column and column 4 of Part VI will indicate the amount of the open capital sanctions still operative, *i.e.*, the further authorised liabilities of the project.

7. If the construction estimate has been closed, the date on which it was closed should be noted in the column for "Remarks".

PART III.—REVENUE ACCOUNT.

8. Part III.—the Revenue Account is a statement making an up-to-date comparison of the gross (*i.e.*, direct as well as indirect) figures of the receipts and the working expenses of a project yielding revenue. The receipts should be detailed by minor heads, and the working expenses by both minor heads and sub-divisions of minor heads. The difference between the gross receipts and the gross charges will represent the net revenue or the deficit, as the case may be.

The Revenue account should be opened for a Project as soon as any section of it is completed and begins to yield Revenue.

PART IV—INTEREST ACCOUNT.

9. Part IV.—the Interest Account is a simple debit and credit account showing on one side the charges for the interest and on the other the not revenue, or deficit, as worked out in Part III.

10. Interest is adjusted in the Administrative Accounts of Irrigation, etc., projects as stated below :—

(*a*) for capital outlay met out of specific loans raised by Government, at such rate of interest as may be prescribed by Government having regard to the rate of interest actually paid on such loans and the incidental charges incurred in raising and managing them ;

(*b*) for capital outlay provided otherwise at such rate of interest as may be determined by Government in consultation with Auditor-General.

NOTE.—By specific loans are meant loans that are raised in the open market for one specific purpose which is clearly specified in the prospectus and in regard to which definite intimation is given at the time of the raising of the loans that the purpose of accounts they are to be regarded as specific loans.

Interest is calculated on the total direct capital outlay to end of the previous year *plus* half the outlay of the year itself.

PART V.—ACCOUNT OF INDIRECT CHARGES.

11. Part V—the Account of indirect charges, which is prepared in two separate sections—Capital and Revenue—is a simple statement of the indirect charges shown below :—

Capitalised abatement of land revenue.—At twenty times the annual amount of land revenue remitted.

NOTE :—This charge should not be made in cases when the capitalised value has been awarded in lieu of abatement and has been debited as a direct charge.

Audit and Accounts Establishment.—The actual expenditure, where it is readily ascertainable, as in the case of separate Audit and Account Offices constituted for specific projects ; otherwise, 1 per cent on works expenditure.

PART VI.—STATEMENT COMPARING CAPITAL COST WITH SANCTIONED ESTIMATES.

12. Part VI compares both the direct and indirect charges incurred up-to-date on a project with the amount of sanctioned estimates.

13. If the construction estimate is still open, no entries should be made in columns 2 to 4, headed "Charges against closed sanctions", and in column 8 "Total charges to date against old and current sanctions". But, if it has been closed, all the columns of the form should be written up, columns 2 to 4 being used in respect of all working estimates (construction of open capital) which have been closed, and columns 5 to 7 headed "Current Sanctions", in respect of all working estimates of open capital, the accounts of which are still open. Particulars of the sanctioned estimates, *e.g.*, the numbers and dates of the orders of Government issued from time to time, the amounts of estimates, etc., need not be entered in either case.

REVIEW.

14. The Administrative Accounts should be submitted to Government in print as soon as possible after closing the final accounts for March. The Accountant-General should review the accounts and send with them a report of the points which his review may suggest. In the report should be mentioned specially all points requiring attention, *e.g.*, (1) cases in which in the Accountant-General's opinion, a change of classification of projects from 'productive' to 'unproductive' or *vice versa* may be indicated, (2) cases in which an abnormal increase under "Working Expenses" is not accompanied by an adequate increase in the "Receipts" or (3) cases in which "Receipts" show marked decline and there is no known reason for this.

(1) For the purpose of the review the figures shown against the minor head "Recoveries of Expenditure" should be deducted both from "Gross Receipts" and from "Gross Working Expenses".

(2) Any practical suggestions calculated to reduce the working expenses, to develop the gross receipts, or to effect economies otherwise, which may occur to the Accountant-General, should ordinarily be made separately, the report being confined to mentioning the salient features of the accounts in a manner intelligible to an outsider.

15. Two copies of the accounts (with Report) should also be submitted simultaneously to the Auditor-General. If printed copies cannot be despatched so as to reach the Auditor-General by 25th July each year, the first copy should be sent on the due date in manuscript. A separate report should also be submitted at the same time reviewing the working of the various Irrigation projects with reference to the desirability of changing the existing classification of a particular work or works from "productive" to "unproductive" or *vice versa*, on the basis of the actual yield and the anticipated return from such works. This review may, however, if Government has no objection, be included in the report to Government which the Accountant-General submits under paragraph 14 above.

DEVELOPMENT SECRETARIAT

Directs the Monopoly Operation of certain Bus Routes by the Government Road Transport Department.

READ—

Press Note dated the 22nd April 1948, stating that in pursuance of the Scheme of Nationalisation of Bus Services in the State, permits for running services after 30th June 1948 will not be renewed as a matter of course.

2. Government Order No. T. 4047-60—R.T. 30-47-4, dated the 3rd May 1948, approving the policy of Nationalisation of Road Transport in Mysore and directing that a beginning be made in regard to the passenger bus services from and to Bangalore in the first instance and that 100 Ford Chassis be purchased from Messrs. ORDER No. T. 1926-36—R.T. 28-52-2, DATED BANGALORE, THE 5TH SEPTEMBER 1952.

The General Manager, Road Transport Department, has been pressing on the attention of Government the urgent need for eliminating the private services running on routes operated by the Department with a view to prevent private competition with Departmental buses. An attempt made in this behalf in the year 1949 to secure voluntary surrender of permits held by private operators met only with partial success. The buses of the Mysore Government Road Transport Department have had to face severe competition from the private services with the result that the object with which the scheme was undertaken, *viz.*, providing better travelling facilities to the public could not be fully achieved Government are satisfied that the need for securing monopoly for operating the Mysore Government Road Transport Department Services, at least on a few direct routes, is urgent. Government have therefore decided to monopolise with effect from 1st October 1952, the following six routes as a first step in this direction :—

1. Bangalore-Gundlupet *via* Mysore.
2. Bangalore-Nelamangala-Tumkur.
3. Bangalore-Nelamangala-Bellur.
4. Bangalore-Dodballapur.
5. Bangalore-Devanahalli.
6. Bangalore-Kolar-K.G.F.

Government accordingly direct that, with effect from 1st October 1952, no buses except those belonging to the Government Road Transport Department be permitted to run on the six routes referred to above or sections thereof.

The General Manager, Road Transport Department, is requested to take necessary action to give effect to the monopoly proposals and arrange to run an adequate number of buses on each route, including shuttle services, if necessary, in keeping with the needs of the travelling public.

R. J. REGO,
Secretary to Government,
Development Department.

2. G.O. No. W. 607-676—46, dated 3rd December 1946, directing among other matters the continuing or otherwise of vacancies reserved for the purpose of filling up of candidates with war service seeking civil employment.

3. Letter No 60450—A-1, dated 31st October 1950, from the Lieut.-General, Southern Command, Poona-1, requesting in the circumstances explained to grant the concession of counting approved completed years of war service towards the initial fixation of pay to war service candidates when appointed to a civil post.

4. U.O. Note No. 6—51-52—P.S.C., dated 15th June 1951, from the Secretary, Public Service Commission, in the matter.

ORDER NO. E. 973-1065—R. & P. S. 37-50-2, DATED BANGALORE, THE 26TH APRIL 1952.

In recognition of war service in the Armed Forces of India, certain concessions have been accorded as per Government Orders dated 8th December 1941 and dated 3rd December 1946 read above.

The Headquarters Southern Command states that the Government of India and the Governments of States such as Madras, Hyderabad, etc., have granted the concession of counting approved completed years of war service in case of war service candidates towards the initial fixation of pay when appointed to civil posts under them and requests sanction for a similar concession to the war service candidates appointed by the Government of Mysore.

The Public Service Commission has recommended the following principles for adoption in the matter of fixing higher initial pay to Ex-Service men :—

(*a*) In the case of a person appointed after 1st January 1947 to a reserved vacancy in a post, the scale of pay of which has been revised with effect from that date, his initial pay must be fixed in the revised scale at a stage which he would have drawn had he rendered service in that post for a period which is equal to the length of his constructive war service and for purposes of calculating weightage, the G.O. No. Fl. 2682-2741—S. & A. 25-47-20, dated 14th October 1947, issuing instructions regarding grant of weightage to officials in the revised scales of pay may be applied in the case of Ex-Servicemen also.

(*b*) Further, the period of war service rendered before 1st April 1941 or before the date of a person attained the age of 23 in the case of Brahmins and 26 in the case of Backward Communities (*i.e.*, two years less than the prescribed age limit for entry into service) whichever is later, shall not be taken into account for purpose of determining war service.

(*c*) These concessions may be made applicable only to those who have been or will be appointed in reserved vacancies for Ex-Servicemen.

The recommendations of the Public Service Commission are approved.

A. C. NIRVANI GOWDA,
Secretary to Government,
Education Department.

FINANCIAL SECRETARIAT

No. Fl. (B) 5417-517—Bud. 16-52-1, Dated Bangalore, the 1st September 1952.

FROM

The Secretary to the Government of Mysore,
Finance Department (Budget).

To

All Estimating Officers.

SIR,

Subject.—**Budget 1953-54—Appendix 'B' Estimates—Pay of Officers, Establishment and other fixed allowances.**

As a preliminary to the preparation of the Budget Estimates for 1953-54, Appendix B containing the details for the undermentioned heads on the expenditure side, pertaining to fixed charges, has to be framed in the first instance :—

(*a*) Pay of Officers.
(*b*) Pay of Establishment.
(*c*) Allowances and Honoraria—

(i) T.A. Fixed.
(ii) High Price and Dearness Allowance.
(iii) Other Allowances.

2. The allowances that can be included under items (*a*) and (*b*) above are Personal, Deputation and Duty Allowances. All other allowances [excepting (*c*) (i) and (ii)] such as Special Locality Allowance, House Rent Allowance, Ration and Uniform Allowance, etc., have to be included under (*c*) (iii).

3. Estimates for 1953-54 have to be furnished in the skeleton forms of Appendix B pages (which will follow shortly) relating to heads of which you are concerned and sent to this office (Financial Secretariat, Budget) not later than 10th October 1952 with subsidiary statements showing details of calculation working up to each item of provision (Annexure 3) accompanied by explanation in in the form (*vide* Annexure 1) for the variations from the corresponding number and provision of 1952-53.

4. It is imperative that the Estimates framed by Heads of Departments are based on the information compiled or collected from the subordinate officers in the prescribed form (*vide* Annexure 2). This annexure with names is intended to provide data for the Estimates and to serve as working sheet and hence need not be sent to the Finance Department while returning the Appendix B pages. It is sufficient if the Estimates furnished are supported by a statement (Annexure 2) showing only numbers on different rates of pay.

5. The following are some of the important points to be kept in view while preparing the Estimates :—

(*a*) *Pay of Officers and Pay of Establishment.*—The number of posts (with authoritative explanation for variation, if any), the rate of pay, the rate and nature of allowances should be furnished in the text of the details for each item for which a total is given in the inner column. Permanent establishment should be distinguished from Temporary and when provision only for a fraction of the period is made for the latter, the period should be specified. The Estimates should ordinarily be based on sanction existing as on 1st September 1952 and on the pay as it would stand on 1st April 1953, making the provision for increments falling due subsequently during the year. (The method of calculating increments to be included in the provision is explained in the Note to Annexure 3). Any sanction accorded subsequent to the despatch of the Estimates, vitally affecting the same may be intimated separately before 1st January 1953 indicating details of posts, the provision and the appropriate place in the Appendix. Pay and allowances of an officer for a month become due only at the end of the month. Accordingly, for sanctions expiring on 31st March 1953, provision for one month has to be made in the estimates of 1953-54. If, however, provision for further period or full year is necessary, the same may be indicated, taking appropriate action for obtaining sanction before the date on which such sanction ceases. Provision on the basis of minimum pay may be made in respect of vacant posts indicating them specifically.

(*b*) With regard to T.A. fixed, the head comprises F.T.A. and C.A. and such details have to be furnished as are susceptible of verifying the provision asked for.

(*c*) *High Price and Dearness Allowances.*—The details may be indicated such as for example 2 (40), 3 (35), 7 (27-8-0), 15 (17) and 30 (15), which should bear relation to the number of posts, the pay and the Headquarters of the posts to which they refer.

(*d*) With regard to "Other Allowances," the nature of the allowance, the designation of the officers entitled to it, the number and rate should be clearly indicated. When details cannot be conveniently entered in full, only rate and the number of persons drawing each allowance need be entered, further details about designation of the officers being given in an annexure.

(*e*) The details should strictly confine to the Budget head to which the charges are debitable. Thus, for instance, if the Deputy Commissioner has several Establishments whose pay is debitable to different Major Heads, the details and Estimates should be separate and distinct.

6. Immediate action should be taken to have the details ready so that the skeleton pages (referred to in paragraph 3 above) when received could be returned duly completed without any loss of time whatsoever.

7. The Budget work cannot start earlier nor close later than the dates fixed for the purpose. As the entire work has to proceed as per schedule, **utmost priority** has to be given to Budget Returns, adhering to due dates, by bestowing your personal attention in the matter.

202

8. Posts already retrenched should be omitted and variations explained. If further retrenchments are proposed, the same should be indicated in a separate statement and not merged in the regular Estimates.

Yours faithfully,

M. SHAMANNA,

Secretary to Government,
Finance Department.

Prescribes the Calendar for Budget Work, 1953-54.

ORDER NO. FL. (B). 5337-5416—BUD. 15-52-1, DATED BANGALORE, THE 1ST SEPTEMBER 1952.

The attached Calendar for regulating the Budget work for 1953-54 is approved. The object with which an interval is allowed for several items of work is to secure an even flow of work in the Financial Secretariat (Budget) and thus avoid rush of work in the last stages. All estimating officers are requested *not* to take up the entire interval but to see that **top priority** is given to the Budget work and the returns are sent direct to the Budget Branch of the Finance Department as soon as they are completed without waiting for the prescribed date.

2. All estimates are to be framed with the greatest possible care and with particular regard to sanctions and actual requirements. Those relating to heads of receipts should aim at forecasting the realisable result as closely as possible; and those relating to expenditure heads—Revenue and Capital—should be limited to absolute minimum requirements.

3. As in the case of previous years the estimates have to be prepared in two parts—Part I comprising of Revenue and normal expenditure and Part II consisting of expenditure relating to Development Schemes. Part II has been readjusted so as to correspond only to schemes as shown in the five-year plan. Thus Schemes included in the five-year plan may be shown only in Vol. II.

4. Sanctions to establishment and other recurring charges which were communicated on or before 15th September 1952 need alone be ordinarily taken into account in framing the expenditure estimates. But a list of fresh sanctions should be sent to the Finance Department as on 1st January 1953, immediately after that date as in the previous years.

5. In the consolidated Budget Estimates, the totals of major heads should be worked to thousands of rupees and those of minor heads to even hundreds of rupees. This has to be kept in view in fixing the provision under individual heads of account.

6. The Director of Printing, Stationery and Publications, is requested to treat all Budget work as urgent and return the Budget sheets on the dates prescribed by the Finance Department. The Director is personally responsible to see that no delay occurs at any stage in the Press and that the Budget work is given highest priority.

204

7. Government desire to impress on all Heads of Departments that it is their duty to pay special attention to Budget work and to see that the time limits prescribed are not exceeded at any cost.

M. SHAMANNA,
Secretary to Government,
Finance Department.

The existing rates of application fees of Rs. 10 and Rs. 7, respectively, for the Local Service Examinations were fixed in Government Order dated 22nd August 1922, read above, and these rates have remained unchanged for the past 30 years.

2. It is reported that heavy postal charges are now being incurred for sending application forms, hall tickets and certificates to the candidates appearing for the several examinations conducted by the Board, and also in respect of correspondence with the Examiners and the Deputy Commissioners of Districts in the State. Recently, increased rates of remuneration have also been sanctioned to the Examiners and other members of the Board in Government Order dated 9th November 1951, read above, with the result that all the above items involve additional expenditure to Government.

3. With a view to meet the increasing expenditure on the above account, the Board consider it necessary to increase the existing rates of application fees slightly and with that end in view, a resolution was passed by the Board, as detailed below, at their meeting held on 5th June 1952:—

(i) The fee for all examinations for which a sum of Rs. 10 has been prescribed at present may be raised to Rs. 12, and

(ii) The fee for the examinations for which a sum of Rs. 7 has been prescribed at present may be raised to Rs. 8.

4. *Rainfall and Seasonal Conditions.*—There was an increase in the average rainfall for the State both during the official year 1950-51 and the calendar year 1951 as compared with the preceding official and the calendar year, respectively. The rainfall during the year 1950-51 was also above the average for the past 35 years. Though the average rainfall was more than that of the previous year, the actual rainfall was less than the 35 years average in Mysore District. Similarly the rainfall during the calendar year 1950 was less than that of 1949 in Bangalore, Kolar, Tumkur, Mysore and Mandya Districts. Further, the rainfall was untimely and ill-distributed as a result of which the mungar crops like Jower in parts of Chamarajanagar, Gundlupet, Yelandur, and T.-Narasipur Taluks, suffered badly. Similarly paddy crop in parts of Bangalore, Kolar, Shimoga, Tumkur, and Chikmagalur Districts was also affected resulting in low yield. Paddy crop in parts of Tarikere Taluk, and certain parts of Mysore District, was affected by pests. On account of these circumstances, remission of half the wet assessment in certain parts of Bangalore, Kolar, Mysore, Chitaldrug and Tumkur Districts and remission of dry assessment in Bangarpet Taluk was sanctioned under the seasonal remission rules. In the Taluks of Sorab and Sagar, crops were affected by heavy floods in the Varada river. Hence, remission of half the wet assessment was also granted on such damaged lands.

The health of the cattle was generally good and water and fodder were available. Public health was also generally good throughout the State except for the prevalence of plague and cholera in some parts of Mysore District and small-pox in parts of Kolar District. Necessary preventive measures were taken to arrest the spread of the epidemics. The seasonal conditions which were rather gloomy at the beginning of the year turned out at the end to be, on the whole, satisfactory.

5. *Distress.*—There was no distress in any part of the State during the year. But owing to untimely and inadequate rainfall, the tanks in Kolar District did not receive their full supply of water and consequently wet crops below these tanks suffered throughout the District, except Goribidanur and Chintamani Taluks. To mitigate the hardship caused, grant of seasonal remission of half the wet assessment to the extent of Rs. 88,739-10-1 was sanctioned in respect of the areas that suffered.

A further sum of Rs. 8,740-15-6, being half the wet assessment in respect of lands under certain tanks in the Districts notified in previous years, was remitted during the year.

Owing to failure of dry crops in Bangarpet Taluk, Kolar District, remission of half dry assessment amounting to Rs. 12,448-5-4 was sanctioned. Total remissions sanctioned amounted to Rs. 1,26,570 during the year.

Sanction of loans and advances was continued during the year, as also the scheme of giving subsidies for irrigation wells.

(2) *Amrith Mahal Kaval Lands.*—An extent of 89,061 acres 14½ guntas of land was available at the beginning of the year and an extent of 989 acres was surrendered bringing the total area available for disposal during the year to 90,050 acres 14½ guntas. Out of the total area available, an extent of 2,524 acres 35 guntas was disposed of, leaving a balance of 87,525 acres 19½ guntas.

A sum of Rs. 4,927-3-7 was realised by the disposal of the above area (including the amount of Rs. 3,833-5-4 realised by the confirmation during the year under report of the lands granted during the previous year), the assessment levied thereon being Rs. 237.

Out of this, an extent of 1,872 acres 11 guntas of land was disposed of during the year leaving a balance of 281,887 acres 29½ guntas at the end of the year. The percentage of lands allowed to lie fallow was the highest in the Shimoga District and the lowest in the Bangalore District.

8. *Darkhasts.*—The number of Darkhasts pending at the beginning of the year was 9,007 and the number received during the year was 25,240 making a total of 34,247. Out of these 23,894 darkhasts were disposed of during the year leaving a balance of 10,353 at the close of the year. The percentage of disposal during the year was 69·7.

The total extent of land granted for cultivation and the amount realised thereon during the year was 74,251 acres 37 guntas and Rs. 8,50,466-11-7, respectively. The assessment levied thereon was Rs. 93,406-1-0.

Subsidisation of Irrigation Wells in the State.—The scheme for the construction of irrigation wells in the State was continued during the year under report with the modification that the subsidy admissible for any particular well is limited to a maximum of Rs. 500 and a loan of Rs. 500. The percentage of collection to the demand was 14·5 against 20·4 in the previous year. The scheme for the creation of dry belts around the villages in the Visvesvaraya Canal area, the existence of Medu and Marshi lands, the depletion of water in the Krishnarajasagara Reservoir, and the consequent damage to the standing crops, the stoppage of the system of adjusting arrears out of the Sugarcane Bills, retarded the progress of collection during the year.

ORDER No. E. 8130-32—EDN. 84-52-9, DATED BANGALORE, THE 10TH SEPTEMBER 1952.

In Government Order No. 1321-80—Edn. 96-19-1, dated 5th August 1919, the Government of Mysore published the Memorandum on Education in Mysore, submitted by the late Dr. C. R. The Memorandum indicated the lines on which further advance could be made after consolidating the results of the policy of educational expansion pursued in the State since 1914; certain tentative suggestions were made for the remodelling of education in all grades and public opinion was invited on those suggestions. After considering all opinions and suggestions received on the Memorandum referred above, Government passed orders in G.O. No. 11180-250—Edn. 498-20-1, dated 25th May 1921, reviewing the problems relating to the improvement of Education in Mysore and laying down the future policy.

This order visualised a comprehensive development of all aspects of Education and contemplated far-reaching changes in the educational organisation and in the curricula of schools. But in the three decades that have passed since that order, while in some directions the advance has been noteworthy, in some others, it has

fallen short of expectations. Remarkable progress has been registered in the number of schools and pupils, in the extension of the Kannada medium, in the provision of educational facilities to the backward classes and in certain other respects. The figures given in the annexure illustrate the quantitative results achieved in the thirty years from 1921 to 1951. The State's expenditure on Education has also increased considerably from Rs. 56 lakhs in 1921 to Rs. 338 lakhs as provided in the budget for 1952-53.

But in the direction of giving practical reorientation to education, much remains to be done and provision for vocational education still remains the crux of reform to-day. Compulsory primary education has not made substantial progress. The control of primary education has been taken over by the Government from the local bodies. In the matter of teacher-training facilities, there has actually been a diminution in the number of training institutions. Also, there is a widespread feeling which Government share that the vast changes in economic, social and political conditions of to-day demand a change in emphasis and a reorientation of the methods of education. Government consider that the educational set-up should take note of the greatly varying type and aptitudes of pupils that now come within its purview as a result of the phenomenal increase in institutional facilities. The changed aspects of national economy too cannot be ignored. Government feel that the system of education ought to be integrated with national life and national needs in all their varied aspects, without compromising the full development of individual personality and creative talents.

Government have given the most earnest consideration to the valuable report of the University Education Commission appointed by the Government of India, and also to the comprehensive proposals in the Report of Dr. C. R. Reddy submitted in 1949 on Education in Mysore State. They have also taken note of the fact that the Government of India have appointed a Commission, which is expected to go into all the problems relating to Secondary Education and to make recommendations for its reform. While it is not intended to anticipate the recommendations or duplicate their work in any way, Government consider it immediately necessary to have a clear-cut and practical programme of action for a period of, say, 10 years from now, which programme ought to be capable of implementation within the financial resources of the State, and should be so designed as to suit local needs, aspirations and potentialities. In particular, the obvious defects of the existing system of education resulting in a sense of frustration in the minds of the students, wastage of time and talent, have to be remedied. Government, accordingly, direct the constitution of the Committee consisting of the personnel named in Annexure II to this order with the following terms of reference :—

1. To examine the efficacy of the measures so far adopted in regard to compulsory primary education and to suggest further measures for its expansion ;

2. To examine the extent to which the principle of Craft Education may be adopted to the work of primary schools, as the first step towards realisation of the basic ideal and to suggest other methods of making primary education activity centered ;

3. To suggest a new curriculum for general education in Middle Schools as well as High Schools so as to make it better suited to individual and social needs ;

4. To formulate proposals for diversifying the courses of study in Middle Schools and High Schools, with a view to including practical subjects ; to examine the existing facilities for vocational education, and possibility of securing fuller utilisation in the programme of diversification of studies in the general schools ;

5. To examine and formulate the proposal for re-organisation of the S.S.L.C. and Intermediate Examinations ;

6. To consider and suggest measures for the improvement of University Education ;

7. To suggest practical methods, for adoption in schools, by means of which manual labour and social service are recognised as essential factors in the educative process ;

8. To examine the question of rationalisation of hours of work of schools and school vacations so as to make them more in tune with the life of people and their needs ;

9. To formulate proposals for the development of extra-curricular activities ; to examine how far such activities could be so regulated as to secure some financial support both to the teachers and pupils ;

10. To suggest measures designed to improve the efficiency and well-being of the teaching staff ;

11. To examine the advisability and feasibility of further extending the Kannada medium and to consider generally the language policy of the State ;

12. To examine the existing facilities for technical education and to make proposals for their expansion ;

13. To suggest measures for the full utilisation of the N.C.C., Bharat Scouts and Guides, the Red Cross, the Bharat Seva Dal and similar organisations in an integrated scheme of Public Instruction.

The foregoing is only an indication of the main questions which the Committee may consider. It does not preclude the Committee from considering any other matter germane to the problem of educational reform in the State.

The Committee is requested to submit its recommendations which, as already observed, is expected to be in the nature of a practical and feasible programme of action achievable within the financial resources of the State, on or before the 1st December 1952. It may examine witnesses, issue questionnaires, visit institutions, obtain information from other States, and secure such other assistance as may be considered necessary, for the expeditious conclusion of its business. The Committee shall have power to co-opt members. It shall also be competent to appoint sub-committees to which additional members could be appointed.

Separate orders will issue regarding the source from which the expenditure connected with the work of the proposed Committee should be met.

Secretary to Government,
Education Department.

Orders that the limit for the Classification of Works as Minor be raised from Rs. 4,000 to Rs. 10,000.

READ—

Government Order No. P.W. 5832-33, dated the 12th April 1945, sanctioning, for the duration of the War, the proposal to raise the limit of Rs. 2,500 to Rs. 4,000 for classification of works (Public Works Department) as Minor.

2. Letter No. W.M. G.C. 146, dated the 7th May 1952, from the Accountant-General Mysore, Bangalore, suggesting that, in the circumstances stated, the limit of Rs. 4,000 referred to in the Government Order read above, be raised to Rs. 10,000.

ORDER NO. FL. (B) 5614-18—C.R. 24-52-8, DATED BANGALORE, THE 4TH SEPTEMBER 1952.

According to paragraph 28 of Mysore Public Works Account Code, works the sanctioned estimate of which exceeds Rs. 2,500 are treated as Major Works. This limit was temporarily enhanced to Rs. 4,000 in the Government Order dated the 12th April 1945 referred to above.

On account of the abnormal rise in the cost of labour and materials after the war, the cost of works has increased to three to four times the pre-war rate. It is therefore considered necessary to enhance the above limit further with a view to simplify the accounting procedure and to reduce clerical work in posting details by sub-heads. It is, therefore, directed that the limit fixed in the Government Order, dated the 12th April 1945 read above be raised to Rs. 10,000.

Necessary amendments to the Mysore Public Works Account Code will issue separately.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Delegation of Power to the Registrar of Co-operative Societies.

OFFICIAL MEMORANDUM.

O.M. No. CH.S. 7117-87—MISC. 12-52-4, DATED BANGALORE, THE 22ND AUGUST 1952.

Reference:—Serial No. 10—1 decentralisation of Powers—Part I of Annexure I in Government Order No. C.S. 18629-18728—C.B. 29-50-3, dated 28th March 1951 delegating certain powers to the Heads of Departments.

Power is delegated to the Registrar of Co-operative Societies to transfer Assistant Registrars of Co-operative Societies of the grade pay of Rs. 200-15-350.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

Constitutes a Committee to formulate a co-ordinated long-term plan to meet fuel requirements of the State.

ORDER NO. S.D. 3864-86—C. 39-51-82, DATED BANGALORE, THE 5TH SEPTEMBER 1952.

Mysore State is not self-sufficient in respect of firewood and efforts are being made to raise extensive fuel plantations in the Bangalore District and Post-War Scheme for "Afforestation of barren areas" costing annually about one and a half lakhs of Rupees is being implemented. The requirements of fuel and charcoal in the urban and industrial areas in this State are far in excess of availabilities and that the State's total forest area of 14 per cent is absolutely inadequate to meet our requirements. Added to this, the rising tempo of urbanisation and industrialisation in the State is exerting an increasingly greater pressure on the diminishing resources of fuel, which, as is well-known, is a rapidly wasting asset. As the supply position of fuel and charcoal is unsatisfactory and has been continuously deteriorating, an Ad-hoc Committee consisting of the Director of Food Supplies, Chief Conservator of Forests, Chief Electrical Engineer, Secretary to Government, Food and Agriculture Departments, and Local Self-Government Departments, and Special Officer, Fuel Supplies, was set up to go into the question and formulate proposals to meet the crisis caused by acute short supply of fuel when compared to the demand by the Industries and evergrowing population.

2. The concensus of opinion of the members of the Ad-hoc Committee is that there is urgent need for a co-ordinated long-term plan to meet the fuel shortage in the State and they recommended the appointment of an authoritative Committee to go into the question and formulate a long-term plan in this behalf. The Committee were of the view that the problem could be tackled in two directions broadly (1) economy in the use of fuel and (2) improvement of fuel resources. The specific measures which, in the view of the Committee, could well be adopted under these two headings, are indicated below :—

ECONOMY IN THE USE OF FUEL.

(*a*) Retention of the existing ban on export of fuel and charcoal outside the State.
(*b*) Retention of existing control over fuel in Bangalore City.
(*c*) Negotiation with the Railways for securing a special concessional rate for transport of fuel by train.
(*d*) Prohibiting the use of firewood by industrial concerns and institutions including hotels and compelling them to switch over to electricity.
(*e*) Urging the Electric Department to arrange to secure materials for installation of heating circuits to the said institutions.
(*f*) Improvising cheap kerosene stoves of simple design and making them available to householders.
(*g*) Replacing of firewood now used by the factories and industrial concerns by coal or soft coke, and
(*h*) Utilisation of sewer gas for heating purposes.

IMPROVEMENT OF FUEL RESOURCES.

(*a*) Encouraging the Village Panchayets, etc., through subvections and grants to raise fuel trees in their areas.
(*b*) Leasing out blocks of Government land up to 500 (five hundred) acres to private individuals or Companies for growing fuel trees under concessional terms, and
(*c*) Grant of adequate annual grants to the Forest Department for the next ten years, to bring up new plantations.

3. Agreeing with the recommendation of the Ad-hoc Committee, Government are pleased to constitute a Committee consisting of the personnel noted below, to examine in detail the suggestions made by the Ad-hoc Committee and to formulate a co-ordinated long-term plan with specific steps required to place the future supply of fuel in the State on a satisfactory basis. Such other measures as may, in the opinion of the Committee, be considered by Government in this behalf may also be examined and reported with relevant details :—

1. The Hon'ble Minister for Home (*Chairman*).
2. The Revenue Commissioner in Mysore.
3. The Director of Food Supplies in Mysore.
4. The Chief Conservator of Forests in Mysore.

5. The Chief Secretary to Government.
6. The Secretary to Government, Local Self-Government Department.
7. The Chief Electrical Engineer in Mysore.
8. The Regional Traffic Superintendent, Southern Railways, Mysore.
9. Major E. Jayaram, Deputy Assistant Director, Supplies and Transport, Bangalore Sub-Area.
10. Shri H. R. Guruv Reddy, President, District Board, Bangalore.
11. Shri L. S. Venkaji Rao, Secretary, Mysore Pradesh Congress Committee, Bangalore.
12. Shri K. Ramaswamy, Secretary, City Congress Committee, Bangalore.
13. The Special Officer, Fuel Supplies, Bangalore (*Secretary*).

4. The Committee is requested to furnish their report within three months.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

DEVELOPMENT SECRETARIAT

Reviews the Administration Report of the Mysore Government Road Transport Department for the year 1951-52.

READ—

Correspondence ending with letter No. MRT/Adm./2498—52-53, dated the 18th July 1952, from the General Manager, Road Transport Department, Bangalore, forwarding the report on the working of the Road Transport Department for the year ending 31st March 1952.

ORDER No. T. 2011-13—R.T. 32-52-2, DATED BANGALORE, THE 11TH SEPTEMBER 1952.

Recorded.

2. Sri A. S. Khaleel, B.A., B.L., continued to be the General Manager of the Department throughout the year.

3. Thirty Chevrolet buses were purchased during the year at a total cost of about Rs. 7,00,000 (Rupees seven lakhs only).

4. One hundred and sixty routes were being operated at the beginning of the year and the average mileage earned was 12,208·9. Due to unsatisfactory vehicle position, 54 routes were suspended during July 1951 reducing the total mileage to 9,382. Subsequently 28 routes were resumed making the total number of routes 134 covering a total mileage of 10,649. The average quantity of petrol consumed by all the vehicles daily amounted to 818 gallons (1,037 gallons) and the average quantity of diesel oil consumed was 152 gallons (213 gallons).

5. The total capital invested in the undertaking up to the end of March 1952 was Rs. 28,58,692 (Rs. 25,68,600). The gross earnings realised in the year were Rs. 33,87,748 (Rs. 32,85,318) working out to 169·6 pies per vehicle mile (131·3 pies). The total expenditure during the year inclusive of mileage cess, service tax, depreciation, etc., was Rs. 33,61,518 (Rs. 32,62,214). The net revenue realised was Rs. 26,230 as against Rs. 23,104 during 1950-51 and Rs. 2,65,749 during 1949-50. The net return on the capital invested was 0·92 per cent as against 0·9 per cent during 1950-51 and 16·3 per cent during 1949-50. The fall in the net income of the Department is said to be due to the abnormal increase in the operational expenses caused by heavy consumption of spare parts by the buses which had done heavy mileage and by the rise in the price of articles.

6. The construction of new buildings for the workshop and garages has been completed in the Sunkal Farm area. The maintenance of vehicles is being attended to in the new workshop and a part of the stores has also been shifted to the new premises. The construction of a temporary office building is also in progress. The proposal for the purchase of the premises of the Mysore Art and Wood Works for the Department has been abandoned.

7. There were 4 major (3) and 12 minor (7) accidents during the year resulting in 3 deaths. A total compensation of Rs. 1,740-10-0 was paid during the year on account of accidents in 1949-50.

8. The employees of the Department have been provided with adequate medical aid. A departmental canteen is being run on a non-profit basis for the benefit of the employees. It is under contemplation to provide a Rest House and Club Room in the new premises.

9. The work of the Department during the year under review was generally satisfactory.

LAW SECRETARIAT

Annual Administration Report of the Prisons Department for the year 1950 with the review of Government thereon.

READ—

Letter No. 52–18, dated the 14th April 1952, from the Inspector-General of Prisons in Mysore, Bangalore, forwarding the report on the working of the Jails and Lock-ups in the State for the calendar year 1950.

ORDER No. H.B. 4550-62—PRIS. 82-51-7, DATED BANGALORE, THE 14TH AUGUST 1952.

Recorded.

Dr. B. Jayaram Naidu, Senior Surgeon, was the *ex-officio* Inspector-General of Prisons from 14th March 1949 to 9th May 1950 and he was succeeded by Dr. N. A. Aiengar from 10th May 1950 who continued till the end of the year.

At the beginning of the year there remained in jails 954 prisoners of all classes. Four thousand seven hundred and ninety-two prisoners were newly admitted, 4,811 were discharged from all classes and 935 remained at the end of the year. The average number during the year was 932 against 1,347 during the year 1949. The number of offences recorded in the jails was 224 against 180 during the previous year. No one was awarded corporal punishment during the year under report.

The expenditure in the jails during the year under report was Rs. 3,68,275-8-8 against Rs. 3,64,840-15-1 during the previous year. The average cost per head for the maintenance of prisoners during the year was Rs. 395-2-3 against Rs. 371-14-6 in the previous year.

The total value of the articles manufactured during the year in the manufactories of both the jails at Mysore and Bangalore was Rs. 30,743-8-5 against Rs. 56,554-11-6 for the previous year. The total amount of outstanding bills due to the manufactories of the two jails on the sale of the jail products was Rs. 1,29,197-2-3 as on the 1st January 1950 and it rose to Rs. 1,37,505-14-0 on the 31st December 1950.

At the beginning of the year there remained in the lock-ups 366 prisoners of all classes, 7,781 were newly admitted, 7,681 were discharged from all classes and 466 remained at the close of the year. The average number for the year was 582·06 against 366·93 for the year 1949.

The gross expenditure in the lock-ups for the year was Rs. 1,45,312-3-6 against Rs. 1,73,304-4-7 for the previous year. The average cost of maintaining a prisoner for the year in the lock-ups was Rs. 249-10-4 against Rs. 473-8-2 in the previous year.

The two schools (Kannada and Urdu) continued to work in the Central Jail, Bangalore, where the curriculum prescribed by the Department of Public Instruction was followed. The Religious Ministers and teachers of the jails at Bangalore and Mysore continued to visit the respective jails regularly once a week to impart religious and moral instructions to the prisoners.

The official and non-official visitors of the jails at Mysore and Bangalore visited the jails and gave valuable suggestions for the improvement of the conditions of the prisoners. The Minister for Law and Labour visited the two jails several times and in accordance with his instructions several additional amenities in the nature of games were provided. The convicts were also allowed the use of Kannada and English Dailies.

General.—The amount outstanding recovery from the sale of jail products is very heavy and steps should be taken to recover the amount very early. While the expenditure in jails is increasing year by year, the receipts especially from the sale of articles manufactured during the year have fallen from Rs. 56,554-11-6, in the

previous year to Rs. 30,743-8-5, during the year under review. Every endeavour should be made to make the jail industries not only self-supporting but to maintain production at peak level by enforcing the prescribed tasks and utilising the cheap convict labour so readily available.

The expenditure could also be reduced by increasing the receipts from the gardens maintained in the jails and by minimising purchase of vegetables by making the jail garden more productive to meet the requirements of the jails.

To organise the jail industries and to improve the quality of the products, several important schemes like setting up Japanese Garabo Spinning Plant, fitting up of power looms and purchase of several machines to several manufactory sections has been sanctioned by Government. The Government expect that when these machines are installed there will be appreciable increase in the production of articles manufactured in the jails and before long the jails will be self-supporting.

Government observe that there has been inordinate delay in submitting the Administration Report of the Department to Government and the Inspector-General of Prisons is requested to avoid such delays and to strictly conform to the time limit prescribed under Rule 11 of the Mysore Jail Manual.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Issues instructions in the matter of grant of Increments and Promotions to Officials in the Subordinate Superior Service.

READ—

Government Order No. E. 2361-440—R. & P.S. 25-48-3, dated 15th June 1951, prescribing an uniform procedure for all Departments in regard to confirmations, grant of increments and promotions to officials governing the subordinate superior services and authorising grant of exemption from passing departmental tests in certain cases.

2. Letter No. 364, dated 7th August 1951, from the Private Secretary to His Highness the Maharaja of Mysore, enquiring if the authority competent to grant exemptions from passing the departmental tests referred to in para 4 of the G.O. dated 15th June 1951 read above is the Head of the Department.

3. Government Order No. E. 10209-301—R. & P.S. 10-51-6, dated 29th January 1952, directing in modification of G.O. dated 15th June 1951 read above, that the tests prescribed in G.O. No. Fl. 3966-4033—S. & A. 25-47-45, dated 16th October 1948, for steno-typists for crossing the efficiency bar will remain in force, etc.

4. Government Order No. E. 2516-87—R. & P.S. 25-48-7, dated 6th June 1952, clarifying certain points raised by the Revenue Commissioner in respect of grant of exemption from passing the departmental tests.

5. Letter No. E. 3631—R. & P.S. 25-48-11, dated 25th June 1952, from the Education Secretary to Government addressed to the Director of Printing (copy forwarded to Heads of Departments in Memo No. E. 3632-704, dated 25th June 1952), stating that increments due to officials on 1st January 1950 and 1st January 1951 but withheld as per G.O. No. Fl. 10506-590—S. & A. 14-48-17, dated 23rd May 1949, for not having passed the Examination cannot be sanctioned now and that since three years time has been given under G.O. dated 15th June 1951, one increment may be given on 15th June 1952 and the next on 15th June 1953, the officials being thrown out if they do not pass the tests before 15th June 1954.

ORDER No. E. 8523-623—R. & P.S. 3-52-19, DATED BANGALORE, THE 22ND SEPTEMBER 1952.

Since some doubts are still raised in the matter of grant of exemption from passing the departmental tests for purposes of confirmations, grant of increments and promotions to officials in the Subordinate Superior Services, the following instructions are issued :—

1. Officials who are below 42 years of age should pass the test within a period of three years failing which, their services will be terminated by the Heads of Departments as directed in the Government Order dated 6th June 1952 read above. Cases may arise when their services need not be terminated for special reasons. In such cases Heads of Departments may send up recommendations to Government. They may even grant extension of the period up to a maximum of two years in deserving cases.

2. Officials who are between the age of 42 and 45 and who have not passed the departmental tests may be given exemptions in individual cases on their merits. The Heads of Departments should submit such cases to Government recommending for grant of exemption from passing the departmental tests, and Government may grant exemption in such cases.

3. In the case of officials who were already 45 years of age on 15th June 1951, the Heads of Departments may grant such exemptions to them.

4. The exemptions contemplated in 1, 2 and 3 above will enable confirmation and drawing of increments in the grade in which the officials are working. If, for any reason, the exemptions so given have to be made applicable for promotion to the higher grade then the Heads of Departments may send up recommendations to Government on this behalf.

5. Officials after entry into service should pass the departmental tests within a period of three years, failing which their services will have to be terminated. Cases may arise when on account of sickness or other valid reasons, removal from service may not be necessary. In such cases, one or two years more may have to be allowed to enable the officials to pass the tests within that period. The Heads of Departments may therefore grant extension of the period even in the case of recruits also up to a maximum of two years in deserving cases.

6. In the case of exemptions from age limit for purposes of appointment, the Government will consider each on its merits.

The relaxations made in the control over distribution continued to be in force during the period under report; licensed dealers in Bangalore City and Taluk could sell cement up to 100 bags per month to a consumer without permit and 50 bags in the rest of the State. There were 190 licensees dealing in cement in the State at the beginning of the year and 175 at the close of the year. Distribution of cement was satisfactory throughout the State.

Cotton.—The Cotton Control Order, 1950, continued to be in force and the new system of licensing formulated by the Government of India was made applicable to the State also.

The Drugs Control Act, 1950, the Hoarding and Profiteering Prevention Act, 1948 and the Supply and Prices of Goods Act, 1950 continued to be in, force and the Department of Civil Supplies availed of the provisions of the orders to check the rise in the prices of the articles coming under the respecitve Acts.

Procurement of Typewriters.—The Department of Civil Supplies continued to procure and supply typewriters to all Government Departments during the period under report.

Kerosene Oil.—Control over kerosene oil was removed with effect from the 17th October 1951 in view of easy and continued supply of kerosene oil.

Under the Supply and Prices of Goods Act, 1950, three persons were fined Rs. 50 each and sentenced to undergo simple imprisonment for a day.

General.—The work of the Department during the year under report was on the whole satisfactory.

The Chief Engineer in Mysore, Bangalore, shall in consultation with the Accountant-General, Mysore, Bangalore, issue needful instructions in the matter.

Necessary amendments to the rules in the Mysore Public Works Account Code will issue separately.

M. SHAMANNA,
Secretary to Government,
Finance Department.

ANNEXURE.

Rent Accounts in Public Works Division Offices.

I. The recovery of rents from Government servants occupying rentable buildings in charge of the department shall be made by deduction from their pay bills through the Treasury Officer or other disbursing officer concerned.

(i) Amounts due on account of the hire of Government furniture and on account of the value of articles of furniture and other Government property lost or damaged by a Government servant as well as any other dues for which a Government servant may be liable to Government in respect of the residence allotted to him shall also be recovered by deduction from pay bills in accordance with the rules in this paragraph.

(ii) A demand in Form A "Statement of rents recoverable from pay bills" should be sent, in duplicate, by about the 25th of each month, to the officers concerned as indicated below who will make the necessary recoveries and return one copy of the statement duly completed not later than the 4th of the following month, the other copy being attached to the bill from which the recovery has been made :—

1. Treasury Officers in respect of gazetted officers.
2. Drawing Officers in respect of the non-gazetted officers.
3. Officers drawing cheques in respect of gazetted and non-gazetted officers whose salaries are drawn by cheques.

(iii) In cases of cash recovery from Government servants coming under Item No. 3 above, and other exceptional cases, the Divisional Office should obtain from the disbursing officers a certified statement in Form A.

(iv) In Form A will also be included any amounts due on account of the hire of Government furniture, the value of articles of furniture and other Government property lost or damaged by a Government servant as well as any other dues for which a Government servant may be liable to Government in respect of the residence allotted to him.

(v) A separate Form A should be prepared in respect of each tenant who is a gazetted Government servant who draws his pay direct from the Treasury. For non-gazetted Government servants there should be a single consolidated form for each class of establishment whose pay is drawn in a separate bill. Likewise, in respect of a gazetted and non-gazetted staff whose pay is drawn by cheques a consolidated statement should be prepared. Particulars in regard to this should be obtained by the Divisional Office from the drawing officers.

(vi) In the case of gazetted Government servants, the Form A will be filled up from the information furnished by them. In the case of non-gazetted Government servants, the Form A will be prepared on the basis of information to be obtained from drawing officers.

(vii) The Executive Engineer should provide also for the recovery of additional rent due either because the full amount has not been collected in the previous month or because arrears of emoluments have been paid to a Government servant.

(viii) Treasury Officers and other disbursing or drawing officers should recover the amounts specified by the Divisional Officer, without prior reference to the tenants and to note in the statement of rents the particulars of emoluments, and of changes therein in respect of Government servants whose rent is limited to a percentage of such emoluments.

(ix) If an Executive Engineer becomes aware that the emoluments of a Government servant have been changed in respect of a period during which he occupied a Government residence at some other station or stations, he should see that the intimation of the change of emoluments is given to the Divisional Officers of the stations concerned to enable them to recover the arrears of rent where necessary.

(x) Amounts recovered by deduction from pay bills cashed at the treasuries subordinate to the same Accountant-General as the Divisional Officer, will not be passed on to the latter for adjustment in his accounts, as the Accountant-General will credit the revenue heads concerned direct in his own books. The Divisional Officer should, however, credit the accounts of the tenants in the Register of Rents of Buildings and Lands (Form B) with the recoveries as certified by the Treasury or other officer concerned and forward the statements with a consolidated Rent Return prepared in Form A by the 8th of the following month along with the Divisional accounts.

(xi) The Accountant-General will forward to the Divisional Office for verification and return the statements in Public Works Account Form A received during the month in the Audit Office with the accounts of ten per cent of the treasuries selected by him. The Divisional Accountant should compare these statements with the corresponding entries in the Register of Rents of Buildings and Lands (Form B) and see that no statement pertaining to the Treasury has been omitted to be sent by the Audit Office, and take steps to revise the assessment of rents of Government servants whose rates of emoluments have been altered by the Audit Office.

(xii) The duties of a Treasury or other officer in the matter of recovery of rents are laid down below :—

He will note in column 6 of both copies of the Statement of rents ;

(a) the emoluments actually drawn by the tenant, where they differ from those entered by the Executive Engineer in column 3 ;

(b) any sum drawn by the tenant as arrears of emoluments, with details of the rate at and period for which it has been drawn.

(xiii) He will also note in column 6 the number of the bill from which deduction of each item of the rent was made, and if, in any instance, the rent noted in column 4 has not been recovered in full, a brief explanation of the reasons for non-recovery.

(xiv) He will continue to recover rent at a rate once intimated by the Executive Engineer, until advice to the contrary is received from him, whether the monthly demand statement Form A has been received or not ; and when a Government servant is transferred, proceeds on leave, or retires, he will, unless otherwise instructed by the Executive Engineer, follow the procedure noted below :—

(a) if the Government servant is paid up to the date of making over charge, recover from the pay bill the rent due up to that date ;

(b) if the Government servant is not paid up to the date of making over charge, recover the rent due for the period covered by pay bill and note on the reverse of the L.P.C. the balance of rent due for recovery for the remaining period up to the date of making over charge.

He will not conduct any correspondence with tenants on the subject of their rents but will refer them to the Executive Engineer.

(xv) Recoveries made by officers not coming within the account jurisdiction of the same Accountant-General as the Divisional Officer should be credited to the accounts of tenants in the Register of Rent of Buildings and Lands (Form B) and adjusted in the Divisional Accounts by debit to the remittance head concerned, on the authority of the certified statements without waiting for the intimation of the corresponding credits from the Audit Office.

The statements received from disbursing officers and forwarded to the Audit Office along with the Divisional Accounts will however be sent periodically to the Audit Officers of the Circles concerned for verification.

II. A register in Form B (Register of Rents of Buildings and Lands) should be maintained in the Divisional Office to show the monthly assessments, realisations and balances of rents, of all residential buildings (including office buildings used as residences) and of such other buildings, lands, etc., as may be available for being let.

(i) Private buildings which have been hired for use as residences or are used as such wholly or in part, should be included in this register.

(ii) The entries relating to the assessment of rent should be made month by month and for this purpose arrangements should be made to obtain timely intimation (with full particulars) of all changes of tenancy from the subordinates in charge of the properties.

(iii) If any property is occupied free of rent or if the rate for any month's assessment is neither the standard rate nor the 10 per cent of the occupant's emoluments, a suitable remark (quoting authority) should be made against the entry relating to it. If a Government servant is not entitled to but is actually allowed the benefit of the 10 per cent concession, a reference to the specific orders of Government allowing it, should be recorded in the remarks column of the Register of Rent.

(iv) The total realisations of each month should be abstracted at the foot of the register, so as to show separately (1) Cash realised in the division, (2) recoveries by other Disbursing Officers adjusted in the Divisional Accounts [(paragraph I (xv)] and (3) recoveries at Treasuries of the State adjustable in the Audit Office [Paragraph I (x)] for rents of buildings and rents of lands, etc. If any buildings are provided with special services such as furniture, etc., for which rent is charged separately, the account of rent charged for each building in respect of these services should be kept separate from that of the rent for the building itself and in the abstract also the realisations on account of each of these services should be shown separately.

(v) Refunds of rents realised should be treated as payments made and should, therefore, be shown separately as minus realisation in the Register of Rents and Buildings and Lands and thus distinguish them from the gross realisations of rent.

Directs the discontinuance of Objection Book Advance Schedule in the Public Works Department.

READ—

Letter No. W. M. G. C. 373, dated 20th February 1952, from the Accountant-General for Mysore, Bangalore, stating that transactions under "Objection Book Advance—Public Works Department" may be accounted for under "Miscellaneous Public Works Advance" under distinct sub-heads from 1st April 1952.

ORDER NO. FL. (B) 3276-9—C. R. 14-52-2, DATED BANGALORE, THE 4TH JULY 1952.

Under the existing rules in the Mysore Public Works Account Code, the transactions that appear in the Schedule of "Objection Book Advance—Public Works" represent outlay incurred by the Public Works Department on behalf of District Boards, Palace and Electrical Departments and any outlay incurred on Deposit Works in excess of deposits contributed. But in Part "A" States similar transactions are included in the schedule of Miscellaneous Public Works Advances under distinct sub-heads which are as follows:—

EXTRACTS FROM THE GOVERNMENT OF INDIA ACCOUNT CODE

VOL. III.

"IV. MISCELLANEOUS P.W. ADVANCES.

Transactions recorded under the head 'Miscellaneous P.W. Advances' should be divided into the following classes:—

(1) Sales on credit;

(2) Expenditure incurred on Deposit Works in excess of deposits received or in anticipation of receipt of money (Article 32).

(3) Losses, retrenchments, errors, etc.

(4) Other items.

Note.—No charges should be debited to this head on the ground of absence or insufficiency of sanction or appropriation except as provided in item (2).

When stores of any kind are sold on credit, their value (*plus*, if recoverable, the supervision charges) should be debited to Miscellaneous P.W. Advances under the sub-head 'Sales on Credit', so that (1) the accounts of Stock or works from which the materials are issued may be kept correctly, and (2) the recovery of the value from the local body or individual concerned may be watched through the regular accounts.

Under the heading 'Losses, retrenchment, errors, etc.,' should appear the following:—

(*a*) deficiencies in cash or stock;

(*b*) actual losses of cash or stock;

(*c*) errors in accounts awaiting adjustments, and

(*d*) retrenchments and losses of other kinds recoverable from Government servants.

The head 'Other items' should be used for all debits, the allocation of which is not known or which cannot be adjusted until recovery of settlement is effected or write off ordered. The following are cited as examples: (1) debits, the classification of which cannot be determined at once, (2) recoverable debits not pertaining to the accounts of a work, and (3) recoverable outstanding pertaining to works, the accounts of which are closed.

Note.—The share of Municipal Taxes paid by Government on behalf of tenants of Government buildings should be debited to this head pending recovery.

IV. NON-GOVERNMENT WORKS.

Expenditure incurred on Deposit Works should be debited against the amount advanced by the party concerned to the extent of that amount. Any excess over that amount and also any expenditure on a Deposit Work which has been authorised by competent authority in anticipation of receipt of money, should be classified under 'Miscellaneous Public Works Advances' pending recovery. Expenditure incurred on District, Municipal, Cantonment and Port Trust Fund Works, may, if authorised by Government, be debited to the head 'Deposits of Local Funds .....' in cases where the balances of the fund form part of the Public Account of the Government concerned."

The Accountant-General has proposed that a similar system may with advantage be adopted in Mysore also and thereby dispense with the necessity for the head of account "Objection Book Advance" in the Public Works Accounts.

The proposals of the Accountant-General are accepted. The new system of accounting will come into force with effect from 1st August 1952. The Executive Engineers will hereafter account for the transactions, which hitherto were being accounted for under "Objection Book Advances" under "Miscellaneous Public Works Advances" and discontinue the submission of the Schedule of Objection Book Advances henceforth.

Action will be taken to incorporate the revised procedure in the Mysore Public Accounts Code under revision.

The Accountant-General is requested to issue needful subsidiary instructions in the matter.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Approves the introduction of Audit Slip in the State Public Works Department on the model of Madras Public Works Department with effect from 1st October 1952.

FINANCIAL SECRETARIAT

Issues instructions regarding the clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places overseas.

OFFICIAL MEMORANDUM.

No. FL. (B) 6207-307—B. & T. 19-52-2, DATED BANGALORE. THE 13TH SEPTEMBER 1952.

Subject:—Clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places, Overseas.

At present, transactions of this Government in the foreign countries relating to sale proceeds of Sandalwood Oil and other items of revenue, payments on account of pensions and leave salaries of Government servants, scholarships, pruchase of machinery and materials, etc., are being arranged mostly through Messrs. Coutts and Company, London, and for this purpose an account known as the "Mysore Government Royalty Account" is being maintained with them.

2. Consequent on the Financial Integration, it has become necessary for this State also to follow the procedure prescribed for all State Governments in this behalf. The following changes will accordingly be introduced in the existing procedure with effect from the 1st of December 1952:—

Receipts.—The sale proceeds of Sandalwood Oil and any other revenue accruing to the State now being realised through the Trade Agent for Mysore in London and credited to the Mysore Government Royalty Account with Messrs. Coutts and Company, London, should be arranged to be paid to the High Commissioner for India in United Kingdom, London, for credit to Mysore Government Account.

Payments.—Payments on account of pensions, leave salaries, scholarships and other educational expenses and subscriptions to periodicals and journals will be arranged by the Accountant-General through the High Commissioner for India. In regard to payments for the purchase of foreign machinery and materials made direct by the Government departments, payments should be arranged for through the Imperial Bank of India, Bangalore, (instead of through Messrs. Coutts & Co.), subject to the usual requirements of Exchange and Import Control.

3. As regards the orders already placed and pending execution or partly executed in respect of which payments are agreed to be made to the suppliers through Messrs. Coutts & Co., London, the indenting departments should advise the suppliers to receive payments through the Imperial Bank of India.

4. In the case of purchases of stores effected through the India Stores Department, London, or any of the Government of India Purchasing Mission abroad, payments will be arranged by the High Commissioner or the Mission as the case may be.

5. The Heads of Departments are repuested kindly to issue needful instructions to the subordinate offices and their representatives in the United Kingdom in this matter and refer all doubtful points to this Department for clarification.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Approves revised procedure of remitting money into Treasury by or on behalf of Public Works Officers.

READ—

Letter No. W.M.G.C. 277, dated the 7—11th July 1952, from the Accountant-General, Mysore, Bangalore, suggesting a revised procedure for remitting money into Treasury by or on behalf of Public Works Officers.

ORDER NO. FL. (B) 6326-38—C.R. 28-52-2, DATED BANGALORE, THE 15TH SEPTEMBER 1952.

Under the existing procedure followed in the State, the revenue and receipts relating to the Public Works Department are paid into treasuries both by the

departmental officers and private parties for credit to the head of account " P.W. Remittances." While the amounts remitted by the Executive Engineers are taken to the Cash Book on the dates of remittance and adjusted in the Divisional Accounts of the same month, the amounts remitted directly by the departmental subordinates and private parties are taken to the Cash Book either in the same month or in subsequent months on the authority of the duplicate challans relating to such credits received from treasuries and adjusted in the Divisional Accounts. Under this system considerable delay is caused in bringing to account all the departmental revenue and receipts.

2. The procedure followed in Part 'A' States in this respect is detailed below:—

" All amounts of revenue, except rents on buildings occupied by Government Officers, are received by the Departmental officers and taken to their respective cash books on the dates of receipt and remitted to Treasury. A remittance register (form printed as annexure) is maintained by them and all amounts sent to treasury are entered and acknowledgments of treasury obtained in it. When a departmental subordinate collects revenue from parties he either (i) remits it to the Sub-Divisional Officer (or other nearer superior officer having a cash book) or (ii) remits it direct into treasury accompanied by a challan in duplicate, and sends the treasury receipt to the nearest superior officer having a Cash Book. The cash in the former case or the treasury receipt in the latter is accompanied by a 'Remittance Slip' (annexed to this order) on the back of which the subordinate enters full particulars of the money realised by him with the date of realisation and date of remittance. In either case the subordinate should also send a copy of the 'Remittance Slip' to the Divisional Officer for check of the receipt entry which should appear in the extract of the Sub-Divisional Cash Book. The transactions will not however find a place in the imprest account, if any, of the subordinate concerned.

The Sub-Divisional Officer should on receipt of the duplicate copy of the remittance slip along with cash or treasury receipt fill in the two forms of memorandum of acknowledgment attached thereto, one intended to be the Sub-Divisional Officer's copy and the other intended to be sent to the Subordinate, and send the latter forthwith to the Section Officer along with a permanent receipt for the amount received from him or remitted by him into the treasury. If the memorandum of acknowledgment and the permanent receipt are not received by the subordinate officer within a week of his sending the cash or treasury receipt he should forthwith report the fact in writing to the Sub-Divisional Officer by name to obtain them. The amount will be taken by the Sub-Divisional Officer to his Cash Book by crediting the revenue head concerned and debiting the head 'S. Remittances—P.W. Remittances—I Remittances into Treasuries.'

The amounts remitted to several treasuries by the departmental officers during the month will be entered in a separate Remittance Register and the total amount remitted during the month arrived at. This register will be sent to Treasury on the 1st of the following month with a Consolidated Treasury Receipt for acceptance by the Treasury Officer. The Treasury Officer after checking the figures in the Remittance Register sent by the Division with his figures will return the Consolidated Treasury Receipt duly signed. If there are any variations, the Treasury Officer will explain this in a reconciliation statement recorded in the Remittance Register itself and send the Consolidated Treasury Receipt for the amount as per treasury accounts.

In cases where money is paid into treasury directly by private parties to the credit of the Public Works Department then it will be credited to the Head 'P.W. Remittances—(iii) Other Remittances—Receipts on account of P.W.D.' The Treasury Officer will send a schedule of receipt on account of P.W.D. during a month at the beginning of the next month. On receipt of this advice the Executive Engineer will adjust these amounts to the final heads concerned in the Divisional Accounts by passing the transactions through the adjustment register maintained in the Division. Such amounts do not pass through the Divisional Cash Book."

3. As the procedure detailed above is found to be very convenient and would facilitate the correct accounting of monies received and remitted to treasury from several sources in the accounts of the month of their receipt, it is directed that the same be introduced with effect from the 1st October 1952.

M. SHAMANNA,
Secretary to Government,
Finance Department.

ORDER No. FL. (B) 6688-92—C.R. 29-52-2, DATED BANGALORE, THE 17TH SEPTEMBER 1952.

According to paragraphs 403-B (Note 2) and 379 of the Mysore Public Works Accounts Code, Half-Yearly Returns of Stock and Annual Returns of Tools and Plant, extracted from the Half-Yearly Register of Stock and Register of Tools and Plant respectively have to be sent to the Office of the Accountant-General, Mysore.

According to the procedure in Part 'A' States, the Half-Yearly Register of Stock and the Register of Tools and Plant are audited locally or centrally in the Accountant-General's Office as the State Government may prescribe, in consultation with Accountant-General. In cases where the audit is conducted centrally, documents are submitted to the Accountant-General, *in original*, after transferring the closing balances to the corresponding registers for the subsequent period. When the registers are sent in original to the Audit Office, the audited registers of the previous period are also sent for check with the current registers. After complete check, suitable audit enfacements are recorded on the registers over the signature of a Gazetted Officer of the Audit Office and the registers including the audited registers of the previous period are returned to the Divisional Officers.

This procedure would avoid scriptory work in preparing the returns and discrepancies between the original registers and the extracts required to be sent under the existing procedure.

It is, therefore, directed that the change of procedure suggested by the Accountant-General, Mysore, Bangalore, be adopted by all the Public Works Divisions in the State and that the periodical registers of Stock and Tools and Plant be sent in original to the Office of the Accountant-General, Mysore, for audit from 1952-53 onwards.

Necessary amendments to the Mysore Public Works Account Code will issue in due course.

The responsibility of making supplies to the civilian labour employed on Army Works continued to vest with the Department.

The concessions granted to M.P.C.S. were continued for a further period of one year from 1st April 1951.

9. *Rationing.*—Statutory Rationing was extended to the following suburban areas of Bangalore :—

10. *The Mysore Food (Austerity Measures in Service of Meals) Order of 1951* continued to be in force.

With a view to popularising non-cereal preparations, the Mysore Branch of the All-India Women's Food Council was assisted to run a Cafeteria at the Dasara Exhibition during October 1951.

Two hundred and nineteen Bakeries were working at the end of the year in statutorily rationed areas. Thirteen Ex-servicemen were permitted to run Ration Shops, Fuel Depots, Bakeries, Sweetmeat Stalls and Ice Candy Stalls.

Milk Supply in Statutorily Rationed Areas.—An *Ad hoc* Committee was set up to examine and submit specific proposals as to the steps necessary to restrict the use of natural milk in Hotels and Restaurants in statutorily rationed areas to begin with, to ensure adequate supplies of milk powder to Hotels and such other measures that may be necessary and also to examine the question of starting a Dairy on a Co-operative or other basis by the Corporation of the City of Bangalore.

11. *Storage and Preservation of Foodgrains.*—Government of India have since approved the revised plans and estimates for the construction of 14 godowns at a cost of Rs. 4,20,000 out of the 25 per cent of the Food Bonus set apart for the purpose.

The usual measures for the preservation of stocks of foodgrains, *viz.*, pest control, cleaning and brushing of stocks, spraying with pyrethrum extract, fumigation of infested stocks, dusting were conducted periodically in all Government Godowns and Emergency Depots. Inspection of stocks were also conducted periodically by drawing out samples and analysing them for determining the degree of attack.

The Godown Inspection Committees in District Headquarter Towns and Cities met periodically and gave suggestions for improvement of storage conditions.

12. *Sugar.*—The entire production of 10,085 tons in the Mysore Sugar Company as also a quota of 9,670 tons of sugar from other Sugar Factories outside the State was allotted to the Department. Appreciable quantities of free market sugar were imported into the State consequent on the decision of the Government of India to permit sugar factories to dispose of their surplus production over and above the basic quotas, in the free market. As a result, the price of free market sugar registered a decline and settled around Rs. 1-12-0 a viss as against the controlled rate of Rs. 1-6-6. Restrictions on the inter-state and intra-State movement of sugar, prices and sale of free market sugar were removed. The scale of rations was stepped up in September 1951 to 2 lbs. to "A" Class and to 1 lb. to "B" Class card-holders. Off-take of sugar rose from 1,288 tons to 1,472 tons per month. Extra rations were distributed to consumers on the occasion of Rakshabandhan, Janmashtami, Dasara, Divali and Holy Festivals. Consumers were allowed to draw advance quotas up to 4 months from 1st March 1952.

The retail issue prices were Rs. 1-6-6, Rs. 1-7-6 and Rs. 1-8-0 per viss at District Headquarter Towns, Taluk Headquarters and interior places, respectively, till the end of March 1952, when it was reduced to Rs. 1-3-6, Rs. 1-4-6, and Rs. 1-5-0, respectively, with effect from 1st April 1952, as a result of reduction of the Ex-factory price, from Rs. 33 to Rs. 29-12-0 per ton, on sugar produced after 31st October 1951.

13. *Jaggery.*—Jaggery position continued to be satisfactory as a result of freezing the stocks and revising and fixing the ceiling price for its sale. The price also came down and stabilised in the neighbourhood of Rs. 3-8-0 to Rs. 4 per maund against the ceiling price of Rs. 6-12-0 per maund.

14. *Fuel.*—Supply of fuel to Bangalore through the agency of Messrs. Mysore National Contractors and Supplies was continued till 31st March 1951. The contract with the Company was terminated from 1st April 1951 and fuel supply was arranged direct through the suppliers. The number of Government licensees is being gradually reduced and private persons encouraged to transport large quantities of fuel into Bangalore. Assistance to the Kolar Gold Fields Mining Board for obtaining their requirements of casuarina poles and fuel was continued during the year.

Retail sale prices of fuel were fixed in Mysore City from 5th April 1952. However, this restriction did not apply to sale of firewood by headloads or bundles.

15. *Food Offences and Rewards.*—Out of 5,088 food cases, 4,055 cases were disposed of during the year, of which 1,119 ended in acquittal or discharge, 19 were withdrawn and 2,917 ended in conviction. Foodgrains valued at Rs. 40,154-5-2 involved in these cases were confiscated.

A sum of Rs. 20,000 was sanctioned under "Rewards and Secret Services." A further sum of Rs. 1,400 was granted for the grant of suitable rewards for the detection and elimination of Bogus Ration Cards.

16. *Transport.*—The entire transport work of the Department was not done by calling for tenders from private contractors. Due to the rise in the price of petrol, oil, tyres, tubes and spare parts, there was a general enhancement of lorry hire rates in all the districts.

17. *Rice Mills.*—The scheme of utilisation of the services of Rice Mill owners was continued during the year under the Rice Mill Owners' Agreement, 1950. The ban on polishing of rice was continued.

The Mysore Rice Mills Control Order, 1950, was issued in August 1951 incorporating the recommendations of the Government of India for the improvements of Rice Mills and in rice milling methods, for checking the loss in yield of rice.

Owners of hullers were also directed to make certain alterations and improvements to their hullers before renewing their old licenses.

18. *Issue Prices.*—The Government of India decided to stop the subsidisation of foodgrains supplied to States, with effect from 1st March 1952. The pool prices were also enhanced by them due to increase in prices of imported foodgrains as well as freight charges.

Retail issue prices in force throughout the State were as follows :—

Rice I Variety	...	2 seers per rupee
Rice II Variety	...	2 3/8 do
Millets	...	4½ do
Wheat	...	Re. 0-6-8 per seer.

The total stocks of different kinds of foodgrains at the close of the year was 14,07,748 pallas as against 12,49,986 pallas at the close of the previous year.

19. *Financial Aspect of Food Supply Operations.*—During the year under review, foodgrains of the value of Rs. 5,98,45,555-5-9 were purchased locally and of Rs. 5,23,52,123-6-0 from outside the State. The total sales during the year amounted to Rs. 10,30,98,920-5-2 and the value of stock at the end of the year was Rs. 3,82,58,520-6-0. A sum of Rs. 66,36,843 was received from the Government of India towards our share of subsidy on imported foodgrains. Prescribes revised procedure regarding the compilation of Departmental Demand, Collection and Balance Statements.

READ—

Letter No. Fl. (B) 2415-2495, dated the 17th June 1952, to the Heads of Departments calling for their remarks regarding the compilation of the Departmental Demand, Collection and Balance Statements from 26th of a month to 25th of the following month, in respect of collections remitted to Taluk Treasuries for months other than March.

2. Replies from several Heads of Departments agreeing to the change in procedure suggested.

ORDER NO. FL. (B). 5756-856—B. & T. 16-52-1, DATED BANGALORE, THE 8TH SEPTEMBER 1952.

At present, the Heads of Departments and other officers collecting departmental revenues, *viz.*, Land Revenue, Excise Revenue, etc., are getting the Demand, Collection and Balance Statements prepared by the calendar month.

2. As the Taluk Treasuries are now closing their monthly accounts on the 25th of each month (except in March), the departmental Taluk Demand, Collection and Balance Statements should also be compiled on that basis, *i.e.*, from 26th of a month to 25th of the following month, so that differences in the figures of collections between treasury and departmental figures on account of the above factor may be eliminated.

3. The above revised procedure will come into effect immediately.

Issues instructions regarding the clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places overseas.

OFFICIAL MEMORANDUM.

No. FL. (B) 6207-307—B. & T. 19-52-2, DATED BANGALORE. THE 13TH SEPTEMBER 1952.

Subject:—Clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places overseas.

At present, transactions of this Government in the foreign countries relating to sale proceeds of Sandalwood Oil and other items of revenue, payments on account of pensions and leave salaries of Government servants, scholarships, purchase of machinery and materials, etc., are being arranged mostly through Messrs. Coutts and Company, London, and for this purpose an account known as the "Mysore Government Royalty Account" is being maintained with them.

2. Consequent on the Financial Integration, it has become necessary for this State also to follow the procedure prescribed for all State Governments in this behalf. The following changes will accordingly be introduced in the existing procedure with effect from the 1st of December 1952:—

Receipts.—The sale proceeds of Sandalwood Oil and any other revenue accruing to the State now being realised through the Trade Agent for Mysore in London and credited to the Mysore Government Royalty Account with Messrs. Coutts and Company, London, should be arranged to be paid to the High Commissioner for India in United Kingdom, London, for credit to Mysore Government Account.

Payments.—Payments on account of pensions, leave salaries, scholarships and other educational expenses and subscriptions to periodicals and journals will be arranged by the Accountant-General through the High Commissioner for India. In regard to payments for the purchase of foreign machinery and materials made direct by the Government departments, payments should be arranged for through the Imperial Bank of India, Bangalore, (instead of through Messrs. Coutts & Co.), subject to the usual requirements of Exchange and Import Control.

3. As regards the orders already placed and pending execution or partly executed in respect of which payments are agreed to be made to the suppliers through Messrs. Coutts & Co., London, the indenting departments should advise the suppliers to receive payments through the Imperial Bank of India.

4. In the case of purchases of stores effected through the India Stores Department, London, or any of the Government of India Purchasing Mission abroad, payments will be arranged by the High Commissioner or the Mission as the case may be.

5. The Heads of Departments are repuested kindly to issue needful instructions to the subordinate offices and their representatives in the United Kingdom in this matter and refer all doubtful points to this Department for clarification.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Reviews the Administration Report of the Sales-Tax Department for the year 1951-52.

READ—

Report on the working of the Department of Sales-Tax for the year 1951-52, received with letter No. C. 24—52-53, dated the 10th August 1952, from the Commissioner of Sales-Tax in Mysore, Bangalore.

ORDER NO. FL. 5723-25—S.T. 69-52-2, DATED BANGALORE, THE 23RD SEPTEMBER 1952.

Recorded.

2. *Administrative Charges.*—The Commissioner of Excise continued to be *Ex-Officio* Commissioner of Sales-Tax. The Deputy Commissioners' Divisions remained at two and the Sales-Tax Officers' Circles at eleven. The reorganisation

of the Department sanctioned in Government Order No. Fl. 6922-70—S.T. 33-50-2, dated 11th November 1950, was given effect to from 28th May 1951. The seventeen Assistant Sales-Tax Officers' Circles were redistributed into 30 Sub-Circles and the posts of the Inspectors were abolished.

3. *Amendments to Sales-Tax Act and Rules.*—During the year under review some important changes were made in the Act and Rules by suitable amendments as already notified from time to time.

4. *Registration of Dealers.*—At the end of the year there were 21,175 dealers as against 21,924 at the beginning of the year. Out of these 12,648 (12,221) were assessed to tax and 5,419 (4,116) were pending assessment. The amount of registration fees collected was Rs. 1,16,829 (Rs. 1,09,375). As in the previous year, the cases pending assessment were great. This is not satisfactory.

5. From the amount of registration fees collected it is seen that the renewal fees have not been collected in about 1,700 cases. Though there is some improvement in this respect as compared to the last year's figures yet it is not explained why the renewal fees were not collected in all cases of registration although the rules require payment of such fees within the end of the first month of the year. Prompt action is necessary to recover the entire amount that has fallen due under this head without any further delay.

6. *License Fees.*—The number of licenses issued or renewed during the year was 1,498 (1,047). The amount of license fee collected was Rs. 3,27,648-9-3 as against Rs. 2,42,763-4-9 in the previous year.

7. There is some improvement both in respect of the number of licenses issued and the amount of license fees realised. It is hoped that this position will be further improved.

8. *Demand, Collection and Balance.*—The total demand under Sales-Tax including the miscellaneous items of revenue was Rs. 198·54 lakhs. Out of this a sum of Rs. 150·59 lakhs was collected leaving a balance of Rs. 47·95 lakhs.

9. The arrears are very heavy and systematic and continued efforts are necessary to collect them quickly.

10. *Appeals and Revision Petitions.*—There were 2,089 appeals and 740 revision petitions to be dealt with during the year. One thousand nine hundred and twenty-eight appeals and 492 revision petitions were disposed of leaving a balance of 161 appeals and 248 revision petitions pending disposal at the close of the year. The pendency both under appeals and revision petitions is very heavy and these petitions should be disposed of more quickly.

11. *Rebate under Section 8.*—A sum of Rs. 6,62,876 was allowed as rebate under Section 8 of the Act and the claims pending in 47 cases amounted to Rs. 4,46,404. The claims pending should be settled early.

12. *General.*—The working of the Department on the whole continued to be satisfactory. It is however necessary that every endeavour should be made to improve the revenue and to prevent the evasion of taxes due.

Prescribes a revised method of Allocation of Establishment Charges originally booked under "50 Civil Works" amongst other heads of Public Works Expenditure.

2. Government Order No. 2793-2892—C. B. 93-49-1, dated 27th September 1949, sanctioning the re-organisation of the Public Works Department.

3. Letter No. 7235—E., dated 30th October 1950, from the Chief Engineer, regarding re-allocation of expenditure relating to the Cauvery Circle.

4. Letter No. 632—W. 4, dated 15th January 1951, from the Auditor, Public Works Department, on the subject.

5. Government Order No. P. W. 9682-84—Est. 54-50-3, dated 8th March 1951, ordering the method of allocation of establishment charges in the Cauvery Circle.

ORDER No. FL. (B). 7274-6—BUD. 28-52-1, DATED BANGALORE, THE 3RD OCTOBER 1952.

The Government Order of 8th March 1951 read above prescribes the method of allocation of establishment charges in the Cauvery Circle initially booked under "24 Civil Works" now "50 Civil Works" under the Service Heads XVII, 18, 19 and 68. This mode of allocation is not considered to be effective and practicable as several circles other than Cauvery Circle also execute works for which grants are provided under XVIII, 18, 19 and 68. In view of the composite nature of work executed by the several divisions and with a view to secure correct allocation of establishment charges against the respective grants, the following procedure is laid down.

The entire establishment charges which are not specifically sanctioned for particular works in all the Divisions will be initially booked under "50 Civil Works". All outlay incurred in various divisions in respect of works for which no specific staff is sanctioned will be calculated and the distribution of establishment charges effected in proportion to the outlay under the heads XVII, 18, 19 and 68 at the close of the year in the books of the Accountant-General in consultation with the Chief Engineer. The outlay will also include charges on account of repairs and maintenance of channels, tanks, roads, buildings, bridges, etc.

The outlay on works for which specific establishment is sanctioned, as for example, several big tank works, has to be excluded from the above calculation and such establishments specifically sanctioned for respective works will be exhibited under the heads concerned.

The establishment charges under XVII, 18, 19 and 68 will be exhibited distinctly as follows:—

(1) Specific Establishment sanctioned for works.

(2) General transfer from "50 Civil Works" for composite work turned out.

It is imperative that the establishment charges for specific works, including temporary work charged (regular) establishments have to be accounted for distinctly under establishment and not merged in works outlay.

The new proposal will come into force with effect from the current year. The Chief Engineer will issue needful instructions in the matter to all the Divisions under his control so that correct classification of establishment charges may be made and grants proposed accordingly in the Budget Estimates.

Directs the procedure to be adopted *re* : Measurement of Jungles—Cleared in the State.

READ—

Letter No. W. M. G. C. 335, dated 30th July 1952, from the Accountant-General, Mysore, Bangalore, proposing revised procedure for the measurements of jungles cleared.

ORDER No. FL. (B) 7677-8—C.R. 33-52-2, DATED BANGALORE, THE 11TH OCTOBER 1952.

The Accountant General has observed that at present, works done in the Public Works Department in connection with the jungle clearance are measured, just as in the case of any other work, after the work has been done and that this procedure is defective since it will not be possible to mark out the exact area covered by the jungle, or the exact type of the jungle after it is cleared. He has therefore proposed that the provision in the Madras Public Works Account Code for the measurement of jungles may be adopted with advantage. According to the provisions in the Madras Public Works Account Code, all jungle or prickly-pear to be cleared whether the jungle is solid or in patches should be recorded by the Section Officer in a measurement book of clearance. The Sub-Divisional Officer

should also check-measure the works before clearance except in the case of those costing less than Rs. 50 in out of the way places, where there are no other works requiring the Sub-Divisional Officer's attention. In such cases the Executive Engineer of the Division concerned will decide whether the work should be check-measured or not. Clearance works which cost more than Rs. 300 should be inspected by the Sub-Divisional Officer after clearance and before payment.

As the procedure obtaining in Madras eliminates any possible risk of wrong or over-measurements, it is directed that similar procedure be adopted in this State also with immediate effect.

RULES.

1. (i) The transfer duty imposed under Sub-clause (xiii) of clause (b) of Section 61 and Section 65 of the Mysore Town Municipalities Act, 1951, on the instruments of sale, gift and mortgage of immovable property situated within the limits of the Kunigal Town Municipality where the levy of surcharge has been sanctioned by Government, executed after the introduction of the above duty, shall be paid and recovered in the same manner and under the same procedure as the ordinary duty imposed on such instruments by the Mysore Stamp Act, 1900.

(ii) A rate of one per cent on the amount of consideration, the value of the property or the amount secured by the mortgage as set forth in the instruments shall be levied.

2. (i) Whenever any instrument referred to in Rule 1 is presented before the Registering Officer, he shall see whether the particulars referred to in Section 27 of the Mysore Stamp Act, 1900, are set forth separately in the instrument in respect of the property situated within the limits of the Kunigal Town Municipality as required by Section 65 of the Mysore Town Municipalities Act, 1951.

(ii) If the said particulars be not so separately set forth in any such instrument, the said officer must impound it and forward it to the nearest officer exercising powers of a Deputy Commissioner under Section 40 of the Mysore Stamp Act, 1900, calling his attention to Section 64 of the Mysore Stamp Act, 1900, as extended by Section 65 of the Mysore Town Municipalities Act, 1951.

10. When used in connection with the unveiling of a statue or monument, the flag should form a distinctive feature during the ceremony, but the flag itself should never be used as a covering for the statue. Bunting may be used for this purpose.

11. When flown at half-staff, the flag is hoisted to the peak for an instant, then lowered to the half-staff position; but before lowering the flag for the day, it is raised again to the peak. By half-staff is meant hauling down the flag to one half the distance between the top and the gay line and in the absence of the gay line, half the staff.

On memorial days, the flag is displayed at half-staff from sunrise until NOON and at full staff from NOON until sunset; for the Nation lives and the flag is the symbol of the living nation. This may be adopted only if a Memorial Day is instituted.

12. Flags flown from fixed staffs are placed at half-staff to indicate mourning. When the flag is displayed on a small staff, as when carried in parade, mourning is indicated by attaching two streamers of black crepe to the spear head, allowing the streamers to fall naturally. Crepe is used on the flag staff only by order of Government.

13. When the flag is displayed inside of a place of worship, it should be from a staff placed on the congregations right as they face the priest or leader of the congregation. The service flag, the State flag, or other flag should be at the left of the congregation. If the flag is displayed in the Chancel or on the platform, the National Flag should be placed on the priest's right as he faces the congregation and the other flags on his left.

14. When the flag is in such a condition that it is no longer a fitting emblem for display, it should not be cast aside or used in any way that might be viewed as disrespectful to the National Colours, but should be destroyed as a whole, privately preferably by burning or by some other method in harmony with the reverence and respect we owe to the emblem representing our country.

Salute to the Flag.

15. When the flag is passing in parade or in a review, all persons present should face the flag stand at attention and salute. Those present in uniform should render the right hand salute. The salute to the flag in the moving column is rendered at the moment the flag passes.

When giving the pledge to the Flag.

16. In pledging allegiance to the National Flag, the practice to be adopted in schools is as follows :—

Standing with folded hands all repeat together the following pledge :—

"I pledge allegiance to the Flag of India and to the Indian State for which it stands. One Nation indivisible, with liberty and justice for all".

Direction for Hoisting the Flag.

17. (1) The school will assemble in open square formation with the pupils forming the three sides and the flag staff at the centre of the fourth side. The Headmaster, the pupil leader and the person unfurling the flag (if other than the Headmaster) will stand three paces behind the flag staff.

(2) The pupils will fall in according to classes and in squade of ten (or other number according to strength). These squades will be arranged one behind the other. The pupil leader of the class will stand to the right of the first row of his class and the form master will stand three paces behind the last row of his class, towards the middle. The classes will be arranged along the square in the order of seniority with the seniormost class at the right end.

(3) The distance between each row should be at least one pace (30 inches); and the space between form and form should be the same.

(4) When each form or class is ready, the class leader will step forward and salute the selected school pupil leader. As soon as all the forms are ready, the school pupil leader will step up to the Headmaster and salute him. The Headmaster will return the salute. Then, the flag will be unfurled. The school pupil leader may assist.

The school pupil leader in charge of the parade (or Assembly) will call the parade to attention, just before the unfurling, and he will call them to the salute when the flag flies out. The parade will keep at the salute for a brief interval and then on the command "Order", the parade will come to the attention position.

(5) The flag salutation will be followed by the National Song (Jana Gana Mana). The parade will be kept at the attention during this part of the function.

(6) On all occasions when the pledge is taken, the pledge will follow the National Song. When taking the pledge, the Assembly will stand to attention and the Headmaster will administer the pledge and ceremoniously and the Assembly will repeat it after him.

FINANCIAL SECRETARIAT

Issues instructions regarding the clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places overseas.

OFFICIAL MEMORANDUM.

No. FL. (B) 6207-307—B. & T. 19-52-2, DATED BANGALORE.
THE 13TH SEPTEMBER 1952.

Subject:—Clearance of Receipts and Disbursements of Government arising in the United Kingdom and other places overseas.

At present, transactions of this Government in the foreign countries relating to sale proceeds of Sandalwood Oil and other items of revenue, payments on account of pensions and leave salaries of Government servants, scholarships, purchase of machinery and materials, etc., are being arranged mostly through Messrs. Coutts and Company, London, and for this purpose an account known as the "Mysore Government Royalty Account" is being maintained with them.

2. Consequent on the Financial Integration, it has become necessary for this State also to follow the procedure prescribed for all State Governments in this behalf. The following changes will accordingly be introduced in the existing procedure with effect from the 1st of December 1952:—

Receipts.—The sale proceeds of Sandalwood Oil and any other revenue accruing to the State now being realised through the Trade Agent for Mysore in London and credited to the Mysore Government Royalty Account with Messrs. Coutts and Company, London, should be arranged to be paid to the High Commissioner for India in United Kingdom, London, for credit to Mysore Government Account.

Payments.—Payments on account of pensions, leave salaries, scholarships and other educational expenses and subscriptions to periodicals and journals will be arranged by the Accountant-General through the High Commissioner for India. In regard to payments for the purchase of foreign machinery and materials made direct by the Government departments, payments should be arranged for through the Imperial Bank of India, Bangalore, (instead of through Messrs. Coutts & Co.), subject to the usual requirements of Exchange and Import Control.

3. As regards the orders already placed and pending execution or partly executed in respect of which payments are agreed to be made to the suppliers through Messrs. Coutts & Co., London, the indenting departments should advise the suppliers to receive payments through the Imperial Bank of India.

4. In the case of purchases of stores effected through the India Stores Department, London, or any of the Government of India Purchasing Mission abroad, payments will be arranged by the High Commissioner or the Mission as the case may be.

5. The Heads of Departments are repuested kindly to issue needful instructions to the subordinate offices and their representatives in the United Kingdom in this matter and refer all doubtful points to this Department for clarification.

M. SHAMANNA,
Secretary to Government,

Prescribes a revised method of Allocation of Establishment Charges originally booked under "50 Civil Works" amongst other heads of Public Works Expenditure.

READ—

Government Order No. P. W. 6922-4—Est. 12-46-4, dated 10th April 1947, sanctioning the re-allocation of expenditure relating to the late Irrigation Circle.

2. Government Order No. 2793-2892—C. B. 93-49-1, dated 27th September 1949, sanctioning the re-organisation of the Public Works Department.

3. Letter No. 7235—E., dated 30th October 1950, from the Chief Engineer, regarding re-allocation of expenditure relating to the Cauvery Circle.

4. Letter No. 632—W. 4, dated 15th January 1951, from the Auditor, Public Works Department, on the subject.

5. Government Order No. P. W. 9682-84—Est. 54-50-3, dated 8th March 1951, ordering the method of allocation of establishment charges in the Cauvery Circle.

ORDER NO. FL. (B). 7274-6—BUD. 28-52-1, DATED BANGALORE, THE 3RD OCTOBER 1952.

The Government Order of 8th March 1951 read above prescribes the method of allocation of establishment charges in the Cauvery Circle initially booked under "24 Civil Works" now "50 Civil Works" under the Service Heads XVII, 18, 19 and 68. This mode of allocation is not considered to be effective and practicable as several circles other than Cauvery Circle also execute works for which grants are provided under XVIII, 18, 19 and 68. In view of the composite nature of work executed by the several divisions and with a view to secure correct allocation of establishment charges against the respective grants, the following procedure is laid down.

The entire establishment charges which are not specifically sanctioned for particular works in all the Divisions will be initially booked under "50 Civil Works". All outlay incurred in various divisions in respect of works for which no specific staff is sanctioned will be calculated and the distribution of establishment charges effected in proportion to the outlay under the heads XVII, 18, 19 and 68 at the close of the year in the books of the Accountant-General in consultation with the Chief Engineer. The outlay will also include charges on account of repairs and maintenance of channels, tanks, roads, buildings, bridges, etc.

The outlay on works for which specific establishment is sanctioned, as for example, several big tank works, has to be excluded from the above calculation and such establishments specifically sanctioned for respective works will be exhibited under the heads concerned.

The establishment charges under XVII, 18, 19 and 68 will be exhibited distinctly as follows :—

(1) Specific Establishment sanctioned for works.

(2) General transfer from "50 Civil Works" for composite work turned out.

It is imperative that the establishment charges for specific works, including temporary work charged (regular) establishments have to be accounted for distinctly under establishment and not merged in works outlay.

The new proposal will come into force with effect from the current year. The Chief Engineer will issue needful instructions in the matter to all the Divisions under his control so that correct classification of establishment charges may be made and grants proposed accordingly in the Budget Estimates.

Secretary to Government,
Finance Department.

Introduces change of the Rules regarding reserve stock limit of Public Works Divisions.

READ —

Letter No. G.C. 174—W.M., dated 11—12th September 1951, from the Accountant-General, Mysore, Bangalore, stating that in the circumstances explained, rules regarding the powers of the Chief Engineer in respect of the Reserve Stock Limit of the Public Works Divisions be modified.

2. Letter No. 392—W.M. G.C., dated 1st March 1952, from the Accountant-General, Mysore, Bangalore, furnishing his further remarks in the matter.

ORDER NO. FL. (B) 7986-9—C.R. 34-52-3, DATED BANGALORE, THE 16TH OCTOBER 1952.

According to paragraph 383 of the Mysore Public Works Account Code, sanction of Government is necessary for the maintenance of Reserve Stock in a Public Works Division. Paragraph 112 (28) 2 of the same Code also lays down that the Chief Engineer may sanction Reserve Stock Limit of Divisions. In view of the conflicting provisions of the rules contained in the above paragraphs, modification of the rules is called for. Taking all the facts into consideration, it is directed that the following change of the rules be introduced :—

(1) the Chief Engineer be empowered to sanction a Reserve Stock Limit not exceeding Rs. 1,00,000 ;

(2) excess over this limit be sanctioned by Government ; and

(3) that the Chief Engineer be empowered to sanction excess up to 20 per cent over the Stock Limit prescribed by Government for short periods not exceeding six months.

Necessary amendments to the Mysore Public Works Account Code will issue in due course.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Fixes the maximum limit of advances to be sanctioned for the purchase of houses up to Rs. 20,000.

ORDER NO. FL. 6006-6206—G.F. 75-52-10, DATED BANGALORE, THE 20TH OCTOBER 1952.

At present, the amount of advance sanctioned to Government servants desiring to purchase houses for their residence vary from place to place such as Cities, District Headquarter Towns and other places, the maximum amount however being limited to two years' pay or Rs. 10,000 whichever is less in any single case. Recently, the Mysore Civil Service Association has brought to the notice of Government that on account of the costliness of building materials the present limit of advance is too inadequate for the purpose for which it is intended and requested that the present limit may be increased to three years' pay subject to a maximum of Rs. 20,000.

2. It is accordingly directed that the amount of advance admissible to Government servants desiring to purchase houses in any place in the State be limited to three years' pay subject to a maximum of Rs. 20,000 in any single case.

3. All the previous orders on the subject stand modified to the extent indicated above.

4. The existing procedure regulating the grant of advance, the mode of recovery, etc., will however remain unaltered.

5. The necessary amendment to the Mysore Civil Accounts Code, Vol. I, will issue separately.

M. SHAMANNA,
Secretary to Government,
Finance Department.

ELECTRICAL SECRETARIAT

Directs that the Corporation of the City of Bangalore, the City and Town Municipalities and Village Panchayets should invariably consult the Electrical Department while granting Licenses for the construction of new buildings or improvement of the old ones, when such works are to be done in close vicinity of power lines.

OFFICIAL MEMORANDUM.

ORDER NO. E.D.S. 3047-146—ELECL. 13-51-178, DATED BANGALORE, THE 20TH OCTOBER 1952.

Recently a labourer, working on a building at No. 117-119, Dharmaraja Koil Street, Bangalore, came in contact with power primaries which are running only 2 feet away from the building and on account of consequential shock received by him he dropped down from a height of about 25 feet and died of injuries. The accident is due to the callous indifference with which the contractor got the ignorant labourer to undertake the hazardous work in close proximity to the live electric lines without arranging for adequate protection against the preventable accidents like the one under reference.

When the matter was referred to the authorities of the Corporation of Bangalore as to why the Electrical Department was not intimated of the construction of the building in close proximity to the electric lines, it was stated that it has not been the practice of the erstwhile Municipality to consult the Electrical Department when the lines are near the proposed buildings and that the discretion of the Corporation in the matter of granting licenses to construct or re-construct buildings is limited by the provisions under Section 248 of the Corporation Act and that the Corporation cannot legally withhold the grant of license if the plans are otherwise in order.

Government are constrained to observe that such fatal accidents should occur when they could have been avoided with proper care and vigilence and therefore direct that in the interest of the safety for the lives of the people the Corporation of the City of Bangalore, the City and Town Municipalities and Village Panchayets should invariably consult the Electrical Department while granting licenses for the construction of new buildings or improvement of the old ones, when such works are to be done in close vicinity of power lines to avoid accidents due to the workmen coming in contact with live wires.

Secretary to Government,

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Issues instructions regarding verification of Dates of Birth.

OFFICIAL MEMORANDUM

O.M. No. E. 10612-50—R. & P.S. 21-51-6, DATED BANGALORE, THE 4TH NOVEMBER 1952.

The Director of Public Instruction has reported that several instances of persons having given a false date of birth in their applications for appointments addressed to the Public Service Commission have been noticed by him and that after appointments are made and discrepancy between the date given and that found in the authorisation records is noticed, the candidates request that latter date of birth be accepted.

He has therefore suggested that whenever there is such an occasion for change of their dates of birth, the G.O. No. E. 3558-60—Edn. 77-47-3, dated 15th November 1947, sanctioning a levy of Rs. 10 may be extended to the candidates who have given false date of birth in their applications sent to the Public Service Commission

so that they may feel that giving false dates of birth is an offence for which they are made to pay some penalty.

In G.O. No. E. 3558-60—Edn. 77-47-3, dated 15th November 1947, it has been ordered that a fee of Rs. 10 (Rupees ten only) may be levied in each case from persons who apply for the change of their date of birth. Since some doubts have arisen as to the procedure to be followed for the verification of dates of birth in respect of those (1) who are to be recruited hereafter and (2) who are already in service, the following general instructions are issued :—

(1) Procedure to be followed in respect of those who are to be recruited hereafter :—

Under Rule 20 of the Revised Rules of Recruitment issued in 1934, the appointing officer should duly verify all certificates (including evidence of age), etc., furnished by the candidate before he is actually appointed to a post. As required in para 27 (*d*) of annexure to M.C.A.C., Vol. I, one of the following evidences should be produced by the candidate as satisfactory proof of age :—

(*a*) an authenticated extract from the birth register, or
(*b*) baptismal certificate, or
(*c*) original copy of the horoscope, or
(*d*) an affidavit.

Before the candidate is appointed or taken to duty, the appointing officer should obtain the above evidence and see if the date as entered therein tallies with that mentioned in the application. If they do not tally and if it is found, on verification, that the candidate has deliberately and intentionally furnished false date of birth in the application with a view to reduce the age, the candidate should not be taken on to duty and such a candidate may be deemed as liable for being debarred from entry into Government service. According to note to para 27 (*c*) annexure to M.C.A.C., Vol. I, entrants into Government service should be warned that exact date of birth should be given at the time of entry into service and that any false statement detected afterwards will render them liable to summary dismissal.

If the candidate is taken to duty without obtaining before hand all the required evidence or without proper verification and if the discrepancy in age is noticed later on, the candidate should be dismissed from service and there shall be no question of retaining his services on a payment of the penalty prescribed in G.O. No. E. 3558-60—Edn. 66-47-3, dated 15th November 1947. The appointing officer concerned should also be held personally responsible for appointing the candidate in contravention of Rule 20 of the Revised Rules of Recruitment, 1934 and disciplinary action should be taken against such an officer.

It is also necessary to obtain from recruits a certified copy of extract of School Leaving Certificate regarding the date of birth (S.S.L.C. or M.S.), duly attested by a gazetted officer in addition to one of the evidences mentioned in para 27 (*d*) of annexure to M.C.A.C., Vol. I. This will not only enable the appointing officer to accept the correct date of birth after proper verification before the candidate is actually appointed but will also considerably minimise cases of age discrepancy. Hence, amendment to the said para 27 (*d*) will issue separately.

(2) Procedure to be followed in respect of those who are already in service :—

No penal fee as referred to in G.O. No. E. 3558-60—Edn. 77-47-3, dated 15th November 1952, need be levied in the case of those who are already in service. But they should be directed by the Unit Officers to verify from the concerned records their dates of birth and apply for correction, if necessary, within 30th June 1953. In such cases, no action need be taken against them for having originally given wrong dates of birth and after due verification, their correct dates of birth will be determined. In the case of those who do not apply for correction before 30th June 1953, if it is found out later on that they have originally given a false date of birth with a view to reduce their age, they should be dismissed from service.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

HOME AND REVENUE SECRETARIAT

READ—

Letter No. Cl. 94—52-53, dated 22nd July 1952, from the Inspector-General of Police in Mysore, Bangalore, submitting the report on the Administration of the Police Department for the official year 1951-52, ending 31st March 1952.

In addition to the permanent staff, a temporary staff of 295 officers and 1,506 men of Civil Police was also employed during the year. Of the total of constables 7,121 were literate. In order to increase the number of literates in the force and to wipe out illiteracy, the help of the Adult Literacy Campaign Organisation has been invoked and classes have been conducted in the several places in the State. It is hoped that this would considerably reduce the illiteracy in the force in future.

There were 77 vacancies (262) which remained unfilled at the beginning of the year to provide places for the retrenched Military personnel. Eight hundred and eighty-five persons were entertained, and in addition 147 vacancies were filled up by absorbing ex-Military men. The total cost of the force was approximately Rs. 93·28 lakhs (Rs. 87·80).

The number of grave crimes reported during the year was 8,308 (8,744) and the number of heinous crime cases was 503 (501). Under the classification of reported crime during the year 11,090 cases (11,673) were reported under classes I to V. There has been an increase in the number of cases reported under special and local laws, including offences under public nuisance (Class VI) owing to vigilant detection.

During the year 2,421 cases (2,543) of burglaries were reported under house-breaking and theft and properties worth about Rs. 6,34,895-0-4 (Rs. 5,83,983-2-0 in 1,206 cases) were lost in 2,209 cases and properties worth Rs. 2,10,079-2-0 (Rs. 1,62,725-0-0 in 828 cases) were recovered in 900 cases. The percentage of cases in which the property was recovered to that lost comes up to 40·8 per cent (as against 31 per cent) which is an improvement over last year.

The percentage of conviction in property and other cases during the year under review is 62·5 as against 56·6 in the previous year, resulting in an improvement in securing conviction by 5·9 per cent.

As against 5,210 cases (4,926) of ordinary thefts reported resulting in a loss of Rs. 4,83,259-6-10 (Rs. 5,86,132) property worth Rs. 2,47,471-12-5 (Rs. 3,24,007-10-0) was recovered in 3,156 (3,031) cases. During the year 408 (520) cases of cattle theft were reported.

Six hundred and sixty-two (450) cases were referred to the police by Magistrates during the year.

The number of cases reported under motor accidents is 162 (219) during the year and of these 45 (24) relate to accidents by military vehicles and 84 (70) cases have resulted in loss of lives. Of the 11,490 (7,731) cases filed under the Motor Vehicles Act, 9,601 (6,814) have ended in conviction. The number of convictions secured for (*i*) rash and negligent driving is 140 (80) out of 209 (144) cases instituted; (*ii*) 684 (196) cases for driving without licences as against 761 (245) put up; (*iii*) 365 (96) cases for high speed as against 557 (105) put up; (*iv*) 2,684 (1,586) cases for infringement of conditions of permit as against 2,985 (1,837) instituted.

The services of Fire Brigade was called upon on 45 (52) occasions. The total loss of property due to fire is estimated at about three lakhs of rupees (Rs. 63,768) and the property involved cost six lakhs.

The administration of the Prohibition Act was in charge of the Police Department during the year. As many as 11,291 (8,533) cases were instituted during the year and a sum of Rs. 1,53,420 (Rs. 1,43,250) was recovered in the shape of fine.

The number of persons detained under the Preventive Detention Act of 1950 during the year was small. At the commencement of the year, there were only four persons in detention. Two more were detained during the year, one in June 1951, and another in September 1951. Thus the total number of persons detained was six for the whole year. The Advisory Board constituted in Mysore State under Section 8 of the Preventive Detention Act, reviewed these cases and upheld detention in every case.

All the persons detained were released at different periods during the same year, and there was no person in detention by the end of March 1952.

The working of the Department during the year was satisfactory.

FINANCIAL SECRETARIAT

Prescribes a revised method of Allocation of Establishment Charges originally booked under "50 Civil Works" amongst other heads of Public Works expenditure.

READ—

1. Government Order No. P. W. 6922-4—Est. 12-46-4, dated 10th April 1947, sanctioning the re-allocation of expenditure relating to the late Irrigation Circle.

2. Government Order No. 2793-2892—C. B. 93-49-1, dated 27th September 1949, sanctioning the re-organisation of the Public Works Department.

3. Letter No. 7235—E., dated 30th October 1950, from the Chief Engineer, regarding re-allocation of expenditure relating to the Cauvery Circle.

4. Letter No. 632—W. 4, dated 15th January 1951, from the Auditor, Public Works Department, on the subject.

5. Government Order No. P. W. 9682-84—Est. 54-50-3, dated 8th March 1951, ordering the method of allocation of establishment charges in the Cauvery Circle.

ORDER NO. FL. (B). 7274-6—BUD. 28-52-1, DATED BANGALORE, THE 3RD OCTOBER 1952.

The Government Order of 8th March 1951 read above prescribes the method of allocation of establishment charges in the Cauvery Circle initially booked under

"24 Civil Works" now "50 Civil Works" under the Service Heads XVII, 18, 19 and 68. This mode of allocation is not considered to be effective and practicable as several circles other than Cauvery Circle also execute works for which grants are provided under XVIII, 18, 19 and 68. In view of the composite nature of work executed by the several divisions and with a view to secure correct allocation of establishment charges against the respective grants, the following procedure is laid down.

The entire establishment charges which are not specifically sanctioned for particular works in all the Divisions will be initially booked under "50 Civil Works". All outlay incurred in various divisions in respect of works for which no specific staff is sanctioned will be calculated and the distribution of establishment charges effected in proportion to the outlay under the heads XVII, 18, 19 and 68 at the close of the year in the books of the Accountant-General in consultation with the Chief Engineer. The outlay will also include charges on account of repairs and maintenance of channels, tanks, roads, buildings, bridges, etc.

The outlay on works for which specific establishment is sanctioned, as for example, several big tank works, has to be excluded from the above calculation and such establishments specifically sanctioned for respective works will be exhibited under the heads concerned.

The establishment charges under XVII, 18, 19 and 68 will be exhibited distinctly as follows:—

(1) Specific Establishment sanctioned for works.

(2) General transfer from "50 Civil Works" for composite work turned out.

It is imperative that the establishment charges for specific works, including temporary work charged (regular) establishments have to be accounted for distinctly under establishment and not merged in works outlay.

The new proposal will come into force with effect from the current year. The Chief Engineer will issue needful instructions in the matter to all the Divisions under his control so that correct classification of establishment charges may be made and grants proposed accordingly in the Budget Estimates.

Secretary to Government,

2. Letters from the Presidents of District Boards as stated below that the procedure prescribed in the above Government Order is inconvenient in view of the heavy transactions of the District Boards involving payments to Contractors, etc., at places other than District Headquarters and requesting, in the circumstances, revision of the Government Order read above.

ORDER No. FL. (B) 8260-80—B. & T. 9-52-4, DATED BANGALORE, THE 23RD OCTOBER 1952.

In partial modification of Government Order No. Fl. (B). 3345-64—B. & T. 9-52-2, dated 7th July 1952, it is hereby directed that the Presidents of District Boards may open separate accounts at each of the Taluk Treasuries in their

concerned District at which payments may have to be made by them. Such accounts should not be opened at all Taluk Treasuries in the District but should be restricted to such of them at which payments are expected to be fairly numerous. In the case of casual payments, however, the procedure prescribed in the Government Order dated 7th July 1952, for the issue of Remittance Transfer Receipts, should be followed, as it would be unnecessary to open an account for the purpose.

As each of these accounts will be separate, the Presidents of the District Boards should see that sufficient balances are maintained in their accounts at the Taluk Treasuries to meet the cheques drawn against them.

ORDER No. L.S. 4089-91—L.W. 243-52-2, DATED BANGALORE, THE 28TH OCTOBER 1952.

Recorded.

2. The Administration Report was required to be submitted by the 5th of July 1952. Although the main report was submitted to Government by 11th August 1952, there has been some delay in sending the statements to accompany the report, the last batch of statements having been sent to this office as late as 1st October 1952. The Labour Commissioner is requested to see that in future the report together with the statements is submitted to Government in time.

Tours.—The Commissioner of Labour has toured only 74 days as against 73 days during the year 1950-51 and 91 days during the year 1949-50, and the touring done is inadequate. While there has been some improvement in the touring done by the Assistant Commissioners of Labour, Mysore and Kolar Divisions, there is a marked decrease to the touring done by the Assistant Commissioner of Labour of Bangalore Division, Shimoga Division and Plantation Division, Chikmagalur.

Industrial Labour.—There were 91 Industrial undertakings (excluding Plantation Estates) coming under the purview of the Labour Enactments during the year as against 116 industrial undertakings in the previous year. The total number of operatives employed in these Industrial undertakings is stated to be 81,475 as against 80,883. While there is a decrease in the number of Industrial undertakings, a slight increase in the number of operatives is noticed.

Plantation Labour.—The total strength of the Plantation Labour in about 500 Plantation Estates spread over in about 97,000 acres in Chikmagalur and Hassan Districts is stated to be about 60,000 approximately. It is stated that a number of Estates have not furnished the figures required. The department should get at the correct figures and furnish the same at least in the next year's report.

Security of Service.—Security of Services was ensured to all workers employed in large industrial undertakings coming under the purview of the Industrial Disputes Act, 1947 and the Industrial Employment (Standing Orders) Act, 1946. It is hoped that the departmental officers will acquaint themselves with the provisions of these newly extended Central Acts and strictly enforce them with a view to safeguard the interests of Labour.

In the case of Plantations, no security of service existed, as the workers were played off during certain seasons. It is, however, gratifying to note that some of the Estates had given their workers the benefits of the Provident Fund Scheme.

Labour Conditions.—The general labour conditions in the State during the year was on the whole normal and peaceful. There were only 10 strikes during the year as against 13 in the year 1950-51 and 26 in the year 1949-50. There has been marked decrease in the number of strikes from year to year.

Standing Orders.—It is seen that no fresh Standing Orders were settled during the year. Although the Standing Orders framed under the Labour Act still hold good until superseded by fresh Standing Orders framed under the newly extended Central Act XX of 1946, efforts should be made by the Department to bring the Standing Orders in conformity with the Law now in force.

Conciliation and Arbitration.—In all 120 Industrial disputes were brought to the notice of the Department during the year. Out of them, 68 disputes were disposed of by conciliation and 34 (notices of change) referred to the Tribunal for adjudication, as failure of conciliation was reported in those cases. In Plantation Division as many as 53 disputes out of 69 registered are stated to have been disposed of by conciliation. Whereas conciliation has proved a success in Plantation Division, it has proved an utter failure in Bangalore and Kolar Divisions. It is

hoped that the Conciliation Officers will evince a keen interest in settling more disputes at conciliation, changing the psychology of both the workers and management by impressing upon them the need for amicable settlement and harmony, which is very essential for industrial peace and prosperity. Success at voluntary conciliation is a step towards industrial democracy and should be encouraged. References to Industrial Tribunal for adjudication or arbitration can be made only as a last resort.

Labour Welfare.—The two Recreation Centres started by the Department at Bangalore—one at Cottonpet and the other at Chamarajapet, continued to work satisfactorily. Certain private Industrial concerns also are stated to have provided amenities to their workmen. It is gratifying to note that during the year Labour Welfare has received the due attention of the Department.

General.—During the year under report the Department has undertaken several activities to educate labour and to bring about a re-orientation of their outlook in the matter of Industrial relations and it is hoped that the Department will continue their endeavour in this behalf.

The work of the Department on the whole was satisfactory.

Secretary to Government,
Law Department.

Levying Admission Fee from the In-patients of the Sri Jayachamarajendra Institute of Indian Medicine, Bangalore.

READ—

Letter No. I.M. 377 dated 2nd July 1952, from the Secretary, Central Board of Indian Medicine, Bangalore, stating that the Accountant-General in his letter No. 2097—O.A.D.—D. 6—51-52, dated 6—7th March 1952, has intimated that no fees are recovered from the out-patients and also in-patients in the General wards of the Institute of Indian Medicine, and he has objected to the free treatment, that the Chairman of the Board is of opinion that a large number of patients who go there for treatment are very poor and it will neither be just nor worth the trouble to levy fees from them, that at this stage of development, the institute cannot be compared to a fully developed institution such as the Victoria Hospital, that the question of levying fees from the out-patients section may be kept by for two years more, that as regards the levy of fees from the in-patients, the Chairman opines that one rupee may be levied as admission fee and this may be levied even in the case of Special Wards in addition to their usual daily fees and requesting therefore sanction of Government for levying admission fee from the in-patients at Re. 1 (Rupee one only) at the time of admission to the ward and adding that the levy of fees from the out-patients may be considered later on.

FINANCIAL SECRETARIAT

Prescribes certain revised procedure for conducting Audit of Pay Bills of Establishment borne on Amalgamated "Provincial Scale."

CIRCULAR.

NO. FL. (B). 8931-9031—C.R. 39-52-2, DATED BANGALORE, THE 3RD NOVEMBER 1952.

The procedure prescribed in the Audit Manual for conducting the audit of pay bills of non-gazetted establishments borne on amalgamated "Provincial Scale" has been brought into force by the Accountant-General's Office. Certain consequential changes in the mode of preparation of establishment bills have become necessary, and in this regard the following instructions are laid down for being followed by the Heads of Departments and other disbursing authorities under whose control establishments borne on a "Provincial Scale" are working :—

1. Establishments borne on a "Provincial Scale" are those for which a consolidated sanction is accorded for the State as a whole without reference to the requirements of each office. Heads of Departments will, therefore, have discretion to distribute the posts to the several offices according to the exigencies of service. Posts carrying different grades of pay, such as those of Inspectors of Police and Inspectors of Schools, although included in "Office Scales" should also be regarded as borne on amalgamated "Provincial Scales" only, as Heads of Departments have discretion to fill up the posts from any one of the sanctioned grades.

2. As audit in respect of the establishments on a "Provincial Scale" is conducted separately from that of posts borne on "Office Scales", pay and allowances of these establishments should be drawn in separate establishment bills and should not be included in the bills of other office establishments. A consolidated Absentee

Statement should also be furnished to the Accountant-General's Office monthly by the Head of the Department, not later than the 15th of the month following the month to which it relates.

3. The Drawing Officers should furnish necessary information to the Head of the Department in sufficient time to enable him to prepare the consolidated Absentee Statement and send it to the Accountant-General's Office before the due date.

4. Increment Certificates of officials borne on these establishments should be forwarded to the Audit Office through the Head of the Department, who will countersign the same after necessary scrutiny.

5. For the present, the following posts will be treated as borne on amalgamated "Provincial Scales":—

1. Inspectors and Sub-Inspectors of Police in the Police Department.
2. Veterinary Inspectors in the Veterinary Department.
3. Supervisors and Surveyors in the Department of Land Records.
4. Posts of graduate teachers and Inspectors of Schools in grade Rs. 130—10—200 and Pandits and Munshis in grade Rs. 120—10—200 in the Education Department.

The Heads of Departments will also examine and intimate to the Accountant-General, Mysore, what other classes of posts could be treated as on a "Provincial Scale".

CIRCULAR.

Exhibition of extra statutory remissions of and abandonment of claims to Revenue in the Appropriation Accounts.

Statements of remissions of and abandonment of claims to revenue are required to be sent to the Accountant-General, Mysore, with a view to their being included in the Appropriation Accounts of the Government. The following procedure is laid down in this regard for the guidance of Heads of Departments and Local Administrations :—

(i) The statements should show the remissions of revenue and abandonment of claims to revenue sanctioned during the preceding year by competent authorities in exercise of the discretionary powers vested in them otherwise than by Law or Rule having the force of Law. For inclusion in these statements, remissions and abandonments should be classified broadly with reference to the grounds on which they were sanctioned and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

(ii) Subject to any general or special order issued by Government, individual remissions below Rs. 100 need not be included in the statements.

(iii) The statements for the year 1951-52 may be prepared on these lines and forwarded to the Accountant-General, Mysore, before the 15th November 1952. The statements for the succeeding years should be arranged to be sent to the Audit Office before the 1st June of the next financial year.

According to note 1 of paragraph 27 (*a*) of the Annexure to the Mysore Civil Account Code, Volume I, in the case of Gazetted Officers the evidence of date of birth should be furnished to the Comptroller (now the Accountant-General, Mysore).

In future, the work of verification of the dates of birth of Gazetted Officers also may be done by the Heads of Departments, and for purposes of audit, it is sufficient that the dates of birth of officers directly recruited to the State Services are communicated to the Accountant-General, Mysore, by Government in the Administrative Department concerned.

For inclusion in these statements, remissions and abandonments should be classified broadly with reference to the grounds on which they were sanctioned and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

(ii) Subject to any general or special order issued by Government, individual remissions below Rs. 100 need not be included in the statements.

ORDER NO. FL. (B) 9231-330—C.R. 8-52-4, DATED BANGALORE, THE 7TH NOVEMBER 1952.

Prior to the amendment of the rules in the Mysore Service Regulations as per Government Order No. Fl. (B) 6194-6274—C. According to note 1 of paragraph 27 (*a*) of the Annexure to the Mysore Civil Account Code, Volume I, in the case of Gazetted Officers the evidence of date of birth should be furnished to the Comptroller (now the Accountant-General, Mysore).

In future, the work of verification of the dates of birth of Gazetted Officers also may be done by the Heads of Departments, and for purposes of audit, it is sufficient that the dates of birth of officers directly recruited to the State Services are communicated to the Accountant-General, Mysore, by Government in the Administrative Department concerned.

Issues revised procedure of Accounting of Establishment Charges of the Public Works Department in the Works Account.

READ—

Letter No. 343— WM-GC.,dated the 1st August 1952, from the Accountant-General, Mysore, Bangalore, suggesting, for reasons furnished, revised procedure of Accounting of Establishment charges of Public Works Department in the Works Account.

2. Un-official Note No. 290, dated the 26th September 1952, from the Chief Engineer of Mysore, Bangalore, furnishing his views on the proposal.

ORDER NO. FL. (B) 9604-7—C.R. 41-52-2, DATED BANGALORE, THE 17TH NOVEMBER 1952.

Charges for Establishment of Public Works Department paid in treasuries are to be accounted for in the Audit Office directly under the minor head "Establishment" of the Public Works service heads concerned and should not, therefore, enter the Divisional Accounts These Establishment Charges are apportioned in the Audit Office at the end of the year among the several major heads as laid down in paragraph 512 of the Mysore Public Works Account Code.

2. The Accountant-General points out that, in actual practice, Establishment Charges are being provided for under Works Estimates in several cases, contrary to rules and that in such cases the Establishment Charges are, in the first instance, debited to the Remittance Head "S. Remittances—P.W. Remittances—(iii) Other Remittances—(b) Items Adjustable by P.W.D." which are subsequently cleared by debit to the works concerned in the Divisional Accounts on advices sent from the Audit Office. He states that this procedure of adjusting the Establishment Charges to Works Estimates involves great delay and consequently results in heavy balances outstanding under the head "Items Adjustable by P.W.D." The Accountant-General, therefore, recommends the adoption of the procedure indicated in Articles 38 to 42 of Government of India Account Code, Volume III, which is the procedure obtaining in Part "A" States.

3. After consideration of the facts, it is directed that the following procedure laid down in Articles 38 to 42 of the Government of India Account Code, Volume III, be adopted from the year 1952-53:—

"I. Charges on account of general services, like Establishment and Tools and Plant, should be classified in the accounts under the appropriate sub-head under the minor heads 'Establishment' and 'Tools and Plant' as the case may be, of the major head under which the division is classified for the purpose and, save as provided hereafter, no attempt should be made ordinarily to include in the cost of an individual work or another major head of expenditure any portion of expenditure on account of those services.

"II. As an exception to the foregoing rule, the undermentioned special establishments should be debited as indicated below :—

"(i) purely revenue establishment employed entirely on the management of Irrigation, Navigation, or Drainage Works, and on the assessment, etc., of connected revenue, to the sub-division, 'Working Expenses' of the major head 'XVII-Irrigation, Navigation, Embankment and Drainage Works for which Capital Accounts are kept' or to the major head '18—Other Revenue Expenditure financed from Ordinary Revenues,' as the case may be;

"*Note*:—If in any division of a circle of superintendence, the charges of this special establishment cannot be allotted accurately to either of these two heads, the entire revenue establishment of the circle should be treated as 'Joint Revenue Establishment XVII and 18' though it will be classified, in the first instance, in accordance with the general rule in I.

"(ii) establishment employed on large irrigation surveys for new projects to the surveys concerned under the head '18—Other Revenue Expenditure financed from Ordinary Revenues—Miscellaneous Expenditure.'

"(iii) establishment employed on famine relief works to the head '54—A. Famine Relief.'

"(iv) establishment employed in workshops, of a quasi-commercial character, to the workshop concerned under the major head under which its maintenance charges may be classified.

"III. Subject to such general or special orders issued by Government in this behalf, pay and allowances of such temporary establishment as is employed upon the actual execution, as distinct from the general supervision, of a specific work or upon the subordinate supervision of departmental labour, stores, and machinery in connection with such a work may be debited to the account of that work.

"IV. The cost of special tools and plant, *i.e.*, tools, plant, machinery, etc., obtained to meet the special requirements of a particular work or project and of a nature not usually to be found in the general stores of the State or Administration, should be treated as a direct charge to that work or project.

"V. When the charges on account of establishment and tools and plant of a division are met out of a single major head in the first instance, a share of such charges may be debited, where necessary, to other major heads or accounts concerned in accordance with such methods as may be prescribed by Government in consultation with the Accountant-General. Similarly, the cost of special tools and plant (such as dredgers, etc.) debited to a single head in the accounts, may be distributed over the several sub-heads of works, in accordance with such methods as the Government may determine in consultation with the Accountant-General."

4. Necessary amendments to the Mysore Public Works Account Code will issue separately.

Issues directions regarding the forwardal of the Cash Accounts of the Town Municipalities to the Audit Offices.

READ—

Official Memorandum No. L. 8911-9029—Ml. 24-51-15, dated 19th November 1951 directing the Presidents of the Town Municipal Councils to arrange for the prompt and regular submission of the monthly Cash Accounts to the Controller, State Accounts Department.

2. Circular No. 1464—CSA., dated 6th July 1951 from the Controller, State Accounts Department, directing that the monthly Cash Accounts and other periodical returns be sent direct to the Assistant Controller in charge of the respective Local Audit Circles.

3. Letter No. 97—CSA., dated 31st July 1952—1st August 1952 from the Controller, State Accounts Department, stating that in spite of the above Official Memorandum and reminders, the position regarding the prompt and regular transmission of accounts has not improved, etc.

4. Unofficial Note No. RD. R4. C. 1036-389—52, dated 8th September 1952 from the Commissioner for Local Self-Government in Mysore, furnishing his opinion thereon.

ORDER NO. L. 13628-744—ML. 180-52-2, DATED BANGALORE, THE 17TH NOVEMBER 1952.

The Controller, State Accounts Department, has stated that most of the Presidents of Town Municipal Councils have not taken any interest in the prompt despatch of the monthly Cash Accounts and that much difficulty is being experienced in the verification of the Budget estimates of the Local Bodies in the collection of statistical data required for various purposes and also audit work, and has suggested that the Presidents of Local Bodies may be requseted to attach to each Office Establishment Pay Cheque for the month presented at the treasury for encashment, a certificate that the Cash Accounts due up to the end of previous month have been despatched to the concerned Local Audit Circle and these certificates on receipt in the Circle Office along with the treasury schedules will be verified and where they are seen to be false, the Treasury Officers concerned will have to be addressed not to encash the Office Establishment Cheque for the subsequent month without any specific authorisation from the Circle Officer, who will do so only when the accounts due have been rendered.

2. The suggestion of the Controller, State Accounts Department, Bangalore, agreed to by the Commissioner for Local Self-Government to furnish a certificate in the monthly pay bills of the Municipalities regarding sending Cash Accounts is approved. If a false certificate is attached, the Local Circle Officer is authorised to instruct the Treasury Officer concerned not to encash the Monthly Pay Cheque until the monthly Cash Accounts are sent and until a letter to that effect is sent by the Officer in charge of the Local Audit Circle to the Taluk or District Treasury Officer concerned.

3. Presidents of all the Town Municipal Councils are requested to see that the Monthly Cash Accounts are got prepared as soon as the month closes and sent to the Local Audit Office. The slackness on the part of the concerned officials in this behalf should be severely dealt with by the Deputy Commissioners and Commissioner for Local Self-Government.

Records the report of the Revenue Commissioner on the working of the Treasuries in the State for the year 1951-52 with certain observations.

READ—

Letter No. C. 1095—52-53, dated the 28th October 1952, from the Revenue Commissioner in Mysore, Bangalore, forwarding the Annual Report on the working of the Treasuries in the State for the year 1951-52, received from the Accountant-General, Mysore, Bangalore.

ORDER NO. FL. (B) 9823-33—B. & T. 30-52-2, DATED BANGALORE, THE 26TH NOVEMBER 1952.

Recorded.

2. It is seen from the report that there was abnormal delay in the submission of lists of payments and cash accounts relating to State and Central transactions by the treasuries to the office of the Accountant-General. In order to enable the District Treasuries to send the monthly accounts punctually on the due dates to the Accountant-General, the following changes in the Treasury Procedure were introduced with effect from October 1951 :—

1. Inclusion of Taluk Treasury transactions of 26th and onwards in the District Treasury accounts of the following month except in March ;
2. Incorporation of Taluk Treasury transactions in the accounts of the District Treasury daily.

As a result of this new procedure it is expected that there will not be such delays in the submission of the accounts by the treasuries. The Revenue Com-

missioner in Mysore is requested to issue instructions to the treasuries to adhere strictly to the due dates prescribed for the submission of accounts and to take suitable disciplinary action in cases of lapses on the part of the treasuries.

The Accountant-General brings to notice cases of inordinate delay in the submission of annual returns such as statements of lapsed Revenue and Judicial Deposits, Savings Banks Journals and Savings Certificates Schedules. There has been a deplorable delay on the part of Bangalore District Treasury in this respect. The Revenue Commissioner in Mysore is requested to take necessary action for the prompt forwardal of the overdue returns from the treasuries to the Audit Office.

The Accountant-General points out certain other defects and omissions noticed during his inspection, such as non-recovery of Security Deposits from the concerned officers, incorrect accounts with opening and closing balances such as deposits, stamp accounts, non-observance of the rules relating the payment of pensions, defective counter arrangements, irregular, excessive or short payments, non-inclusion of taluk treasury transactions in District accounts, etc. It is expected that the staff of the treasuries particularly the supervisory staff will exercise a greater degree of check and scrutiny and avoid the recurrence of the irregularities noticed by the Accountant-General.

Issues orders regarding the regulation of High Price Allowance admissible to Officers proceeding on leave after handing over charge of their posts in Bangalore.

READ—

Government Order No. Fl. 4615—S.&A. 160-44-9, dated 28th April 1945, ordering among other things the payment of the same rates of High Price Allowance to a Government servant on leave as he would be entitled to if he were on duty.

2. Correspondence ending with letter No. GI/RI-356, dated 13th September 1952, from the Accountant-General, Mysore, Bangalore, stating that a doubt is felt in audit as to whether an Officer who proceeds on leave after relief of a post in Bangalore would be entitled to the City rate of High Price Allowance and that in the absence of clear orders of Government on the subject, the higher rate of High Price Allowance is being given throughout the period of leave in cases where the officers return to duty in the City or till the date of posting orders transferring them to the mofussil in the case of officers transferred from the City and suggesting that for purposes of audit the correct procedure for regulating the High Price Allowance as noted under and which is in practice in Part 'A' States may be followed :—

> "In the case of a Government servant proceeding on leave after relief of a post in Bangalore where a higher rate of dearness or high price allowance is admissible, the leave sanctioning authority while sanctioning the leave should record a certificate regarding the prospects or otherwise of the Government servant's return to the same post or a different post in the same Station".

ORDER NO. FL. (B). 9926-10014—L.F.A. 66-52-2, DATED BANGALORE, THE 26TH NOVEMBER 1952.

It is directed that all authorities competent to sanction leave should specify at the time of sanctioning the leave, regarding the prospects or otherwise of the Government servant's return to the same post or a different post in the same station. The higher rate of allowance will be allowed only if there is a prospect of the Officer's re-posting in Bangalore after the expiry of leave. The allowance will thus be regulated with reference to facts known at the time of sanctioning the leave and the allowance is not varied during the period of leave on account of any later developments.

Issues certain instructions regarding the application of "Next Below" Rule in the regulation of promotions and secondings of Government Servants in the State.

OFFICIAL MEMORANDUM.

No. FL. (B) 10045-134—C.R. 1-52-20, DATED BANGALORE, THE 28TH NOVEMBER 1952.

The practice at present in vogue in respect of promotions and secondings of Government servants in the State is that all the Government servants serving outside the ordinary line are promoted and seconded consequent on the appointment of a junior Government servant to a higher officiating post in the regular line. The Accountant-General, Mysore, has pointed out that the grant of higher officiating pay for no change of duties to all such Government servants outside the ordinary line would not be in order and has suggested that the principles of the "Next Below" Rule as applied by the Government of India to their officers might be adopted by Government in the matter of promotions and secondings of Government servants in the State. The Government accept the suggestion and direct that the principles of the "Next Below" Rule—enunciated below—should be followed in the matter of promotions and secondings of Government servants in the State.

2. When a person in a post (whether within the cadre of his service or not) is for any reason prevented from officiating in his turn in a post on a higher scale or grade borne on the cadre of the service to which he belongs, he may be authorised by special order of the appropriate authority *pro forma* officiating promotion into such scale or grade and thereupon be granted the pay of that scale or grade, if that be more advantageous to him, on each occasion on which the person immediately junior to him in the cadre of his service (or if that person has been passed over by reasons of inefficiency or unsuitability or because he is on leave or serving outside the ordinary line or foregoes officiating promotion of his own volition to that scale or grade, then the person next junior to him not so passed over) draws officiating salary in that scale or grade.

3. Provided that all persons senior to the person to whom the benefit under the substantive part of this rule is to be allowed are also drawing, unless they have been passed over for one or other of the reasons aforesaid, officiating salary in the said or some higher scale or grade within the cadre.

4. Provided further that *not more than one person* (either the seniormost fit person in a series of adjacent persons outside the ordinary line, or if such a person either foregoes the benefit of his own volition or does not require the benefit in virtue of his holding a post outside the ordinary line which secures him at least equivalent benefits in respect of salary and pension then the next below in the series) may be authorised to draw the salary of the higher scale or grade in respect of any one officiating vacancy within the cadre filled by his junior under this rule.

5. A purely fortuitous officiating promotion given to a person who is junior to one outside the regular line does not in itself give rise to a claim under the "Next Below" Rule.

6. Promotions already made by Government in contravention of the new rule will be regularised gradually to the extent possible and all future promotions should be strictly with reference to the "Next Below" Rule.

7. The necessary amendments to Mysore Service Regulations are being issued separately.

Government Order No. L. 250-9—Ml. 44-18-1, dated the 3rd July 1918, laying down instructions in the matter of the correspondence by or with the Municipal Councils.

2. Government Order No. L. 2078-85—Ml. 78-26-1, dated the 16th September 1926, authorising the submission direct to Government by the Presidents of the Town Municipal Councils in very urgent cases, copies of their communications, simultaneously with their transmission through the Deputy Commissioners of Districts and stating that the above instructions are in addition to those already issued in Government Order No. L. 250-9—Ml. 44-18-1, dated 3rd July 1918.

3. Government Order No. L. 293-303—Ml. 176-47-1, dated the 8th July 1948 authorising, in modification of the previous procedure, the Presidents of Town Municipalities in the State to correspond direct with the Government and to send simultaneously a copy of the communication to the Deputy Commissioners of the Districts concerned, etc.

4. Government Order No. L. 5580-5650—Ml. 151-48-3, dated the 24th November 1948, issuing a clarification on the Government Order dated 8th July 1948, read above, regarding the procedure to be adopted in respect of direct correspondence by the Town Municipal Councils.

5. Letter No. D3. 28—52-3, dated 5th August 1952, from the Deputy Commissioner, Mysore District, soliciting instructions in the matter of carrying on correspondence with the Government by the Presidents of Town Municipal Councils reconstituted under the Town Municipalities Act, 1951.

ORDER NO. L. 14887-15002—ML. 163-52-4, DATED BANGALORE, THE 26TH NOVEMBER 1952.

In the Government Order dated 8th July 1948, read above, correspondence direct with Government by the Presidents of Town Municipalities in the State was authorised to avoid delay in the transmission of the proposals through the Deputy Commissioners of Districts and copies of such communications were required to be sent simultaneously to the Deputy Commissioners of the Districts concerned to enable them to exercise general supervision and control over the administration of the Town Municipalities within their jurisdiction.

2. This direct correspondence between Government and Town Municipal Councils has not only increased the work, but has not also given any advantage to the Municipalities, as greater delay is caused in bringing matters to disposal, owing to the fact that further information, reports and other details have to be called for from the Deputy Commissioners to complete the records. Consequent on the appointment of a Commissioner for Local Self-Government in Government Order No. L. 3764-3963—Ml. 129-51-1, dated 19th July 1951, authorising in Official Memorandum No. Ch.S. 8963-9062—Misc. 122-51-1, dated 20th December 1951, to exercise the powers referred to in Annexure I to Government Order No. C.S. 18629-728—C.B. 29-50-3, dated 28th March 1951, there are two offices in between the Government and the Town Municipal Councils, *i.e.*, Office of the Commissioner for Local Self-Government and the Deputy Commissioner. Those two offices will be out of the picture, if the direct correspondence is continued. It is also necessary that these offices are kept informed so as to exercise general supervision and control over the administration of Town Municipalities and give advice in matters of Municipal administration.

3. Therefore the direct correspondence between the Town Municipal Councils and the Government permitted in Government Orders dated 8th July 1948 and 24th November 1948, read above, has to be reduced as far as possible, so that the cases that come to Government may be worked up by the Deputy Commissioner and the Commissioner for Local Self-Government in Mysore in preliminary stages, so as to enable Government to pass orders early. Under Section 208 (2) (I) of the Town Municipalities Act of 1951, Government are pleased to direct that correspondence from the Presidents of Town Municipal Councils shall be forwarded to the Deputy Commissioner concerned in the first instance and in turn, the Deputy Commissioner after scrutiny may address the Commissioner for Local Self-Government in Mysore, Bangalore. The Commissioner for Local Self-Government

will forward the correspondence to the Government for final orders in matters which are beyond his powers of sanction.

4. Correspondence with other Officers of Government will, however, be carried on by the Presidents direct.

5. In very urgent cases, the Presidents of Town Municipal Councils are also authorised to forward direct to Government, copies of communications simultaneously with their transmission through the Deputy Commissioners and the Commissioner for Local Self-Government.

6. The officers concerned are requested to avoid delay in examining the proposals and their transmission to Government in the interest of quick and efficient administration.

A. S. KHALEEL,
Secretary to Government,
Local Self-Government Department.

Government Order No. L. 5556-64—Ml. 174-31-1, dated 11th February 1932, delegating powers to the Deputy Commissioners of Districts in regard to the expenditure incurred by the Town and Minor Municipal Councils in the State.

2. Government Order No. L. 3046-102—Ml. 151-48-1, dated the 22nd September 1948, investing the Town Municipal Councils with the power to incur certain items of expenditure out of their funds, subject to restrictions and limitations prescribed therein.

3. Government Order No. L. 3103-13—Ml. 151-48-2, dated the 22nd September 1948, investing the Deputy Commissioners of Districts with the power in regard to the expenditure incurred by the Minor Municipal Councils in the State.

4. Government Order No. L. 3764-3963—Ml. 129-51-1, dated 19th July 1951, appointing a Commissioner for Local Self-Government in Mysore, according to the provisions of the Town Municipalities Act of 1951.

5. Official Memorandum No. Ch.S. 8963-9062—M.I.S.C. 122-51-1, dated 20th December 1951, authorising the Commissioner for Rural Development and *Ex-officio* Commissioner for Local Self-Government to exercise the powers referred to in Government Order No. C.S. 18629-18728—C.B. 29-50-3, dated 28th March 1951.

ORDER NO. L. 14771-886—ML. 163-52-3, DATED BANGALORE, THE 26TH NOVEMBER 1952.

The appointment of the Commissioner for Local Self-Government in Government Order dated 19th July 1951 read above, has necessitated the issue of orders defining the powers of the Town Municipal Councils, Deputy Commissioners of Districts and the Commissioner for Local Self-Government in Mysore, for expediting the business of the Municipal administration. The powers delegated to the Deputy Commissioners of Districts under Minor Municipalities Act of 1933 in Government Order dated 22nd September 1948 read above are found to be inadequate owing to the introduction of the Mysore Town Municipalities Act of 1951, by which all Municipal Councils are treated as Town Municipal Councils, as against Minor and Town Municipal Councils, that were existing prior to 6th July 1951, the date of the introduction of the Mysore Town Municipalities Act, 1951.

Further, Government sanction is being sought in a very large number of cases of comparatively minor importance causing avoidable delay in their disposal. Therefore, there is need for a further decentralisation of powers to the Municipal Councils, Deputy Commissioners of Districts and Commissioner for Local Self-Government with a view to enabling them to shoulder responsibility and discharge the duties in the interest of the Municipal administration as quickly as possible.

Therefore, in supersession of the previous orders issued under the Mysore Town Municipalities Act of 1933 and the Minor Municipalities Act of 1933 in this behalf, Government are pleased to delegate under Section 210 of the Town Municipalities Act, 1951, the amplified powers specified in the Annexure to this Government Order to the several authorities noted therein.

A. S. KHALEEL,
Secretary to Government,
Local Self-Government Department.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Constitutes the Commodity Controls Committee in Mysore State.

ORDER No. S.D. 5653—C. 98-52-11, DATED BANGALORE, THE 25TH NOVEMBER 1952.

The Government of India have appointed a "Commodity Controls Committee" to examine and review the working of the Essential Supplies (Temporary Powers) Act, 1946 and some other Acts promulgated by them and to make recommendations for revision or repeal of any of them and have also advised the State Governments to constitute similar committees to examine and review all the existing Control Orders, Notifications, etc., issued by them.

2. Accepting the advice of the Government of India, the Government of Mysore is pleased to constitute a Committee consisting of the following officers—

(i) to examine and review the working of all the control orders, notifications, etc., issued by this Government from time to time and which are still in force,

(ii) to make recommendations for the revision or repeal of any of the said orders, notifications, etc., with a view to improving the existing systems of controls, and

(iii) to streamline the control orders and notifications :—

1. The Director of Industries and Commerce in Mysore, Bangalore (*Chairman*).
2. The Director of Food Supplies in Mysore, Bangalore.
3. The Controller of Civil Supplies in Mysore, Bangalore.
4. The Iron and Steel Controller, Bhadravati.

The Assistant Controller of Civil Supplies will be the Secretary of the Committee.

The Committee is requested to submit its report to Government within three months.

N. PUTTARANGASWAMY,
Chief Secretary to Government.

FINANCIAL SECRETARIAT

Issues certain instructions regarding the application of "Next Below" Rule in the regulation of promotions and secondings of Government Servants in the State.

OFFICIAL MEMORANDUM.

No. FL. (B) 10045-134—C.R. 1-52-20, DATED BANGALORE, THE 28TH NOVEMBER 1952.

The practice at present in vogue in respect of promotions and secondings of Government servants in the State is that all the Government servants serving outside the ordinary line are promoted and seconded consequent on the appointment of a junior Government servant to a higher officiating post in the regular line. The Accountant-General, Mysore, has pointed out that the grant of higher officiating pay for no change of duties to all such Government servants outside the ordinary line would not be in order and has suggested that the principles of the "Next Below" Rule as applied by the Government of India to their officers might be adopted by Government in the matter of promotions and secondings of Government servants in the State. The Government accept the suggestion and direct that the principles of the "Next Below" Rule—enunciated below—should be followed in the matter of promotions and secondings of Government servants in the State.

2. When a person in a post (whether within the cadre of his service or not) is for any reason prevented from officiating in his turn in a post on a higher scale or grade borne on the cadre of the service to which he belongs, he may be authorised by special order of the appropriate authority *pro forma* officiating promotion into such scale or grade and thereupon be granted the pay of that scale or grade, if that be more advantageous to him, on each occasion on which the person immediately junior to him in the cadre of his service (or if that person has been passed over by reasons of inefficiency or unsuitability or because he is on leave or serving outside the ordinary line or foregoes officiating promotion of his own volition to that scale or grade, then the person next junior to him not so passed over) draws officiating salary in that scale or grade.

3. Provided that all persons senior to the person to whom the benefit under the substantive part of this rule is to be allowed are also drawing, unless they have been passed over for one or other of the reasons aforesaid, officiating salary in the said or some higher scale or grade within the cadre.

4. Provided further that *not more than one person* (either the seniormost fit person in a series of adjacent persons outside the ordinary line, or if such a person either foregoes the benefit of his own volition or does not require the benefit in virtue of his holding a post outside the ordinary line which secures him at least equivalent benefits in respect of salary and pension then the next below in the series) may be authorised to draw the salary of the higher scale or grade in respect of any one officiating vacancy within the cadre filled by his junior under this rule.

5. A purely fortuitous officiating promotion given to a person who is junior to one outside the regular line does not in itself give rise to a claim under the "Next Below" Rule.

6. Promotions already made by Government in contravention of the new rule will be regularised gradually to the extent possible and all future promotions should be strictly with reference to the "Next Below" Rule.

7. The necessary amendments to Mysore Service Regulations are being issued separately.

M. SHAMANNA,
Secretary to Government,
Finance Department.

His Highness the Rajpramukh is hereby pleased to direct that Sri T. A Bashiruddin Ahmed, B.A., Assistant Commissioner under suspension, shall be deemed to have been dismissed from service with effect from the 31st July 1950 and debarred from further employment under the Government.

By Order and in the name of the Rajpramukh,

N. PUTTARANGASWAMY,
Chief Secretary to Government.

HOME AND REVENUE SECRETARIAT

Reviews the Administration Report of the Department of Public Health for the calendar year 1951.

READ—

Correspondence ending with letter No. VS. 392—52-53, dated 31st October 1952, from the Director of Public Health, forwarding the Annual Report of the Administration of the Public Health Department for the calendar year 1951.

ORDER NO. M. 18735-59—P.H. 8-52-4, DATED BANGALORE, THE 11—12TH DECEMBER 1952.

Recorded.

2. The state of Public Health during the year was satisfactory. During the year, 1,222 deaths from plague, 3,213 from small-pox and 3,185 from cholera were

reported showing an incidence of 1,235 and 35 per mille of population. As a preventive measure 136,135 anti-plague inoculations, 1,115,317 anti-small-pox vaccinations and 900,361 anti-cholera inoculations were performed. A total of 13,295 (15,315) deaths from Malaria were reported. Twenty-five Secondary and 128 Primary Health Units were working during the year in the Malnad and irrigated maidan tracts of the State.

3. *Vital Statistics.*—In the year under report, 138,038 live-births and 67,003 deaths from all causes were reported giving a birth-rate of 15·2 and a death-rate of 7·4 based on the 1951 provisional census population of 9,071,678. The excess of births over deaths during the year amounted to 71,035. This excess was recorded in all Districts indicating that even in Malnad Districts, the state of Public Health was satisfactory.

4. *Public Health Institute.*—A total of 18,951 (17,574) samples were examined in the Bacteriological Section and 1,374 samples were analysed in the Chemical Section. A total of 431 cases with 1,881 articles were examined in the Medico-legal Section. A total of 255,400 doses of anti-plague vaccine, 1,641,420 doses of anti-cholera vaccine and 24,750 doses of T.A.B. Vaccine were issued during the year as compared with 203,850, 742,830 and 23,000 anti-plague, anti-cholera and T.A.B. Vaccine, respectively, in the previous year.

5. *Vaccine Institute.*—The total quantity of vaccine lymph produced at the Institute during the year under report was 277,900 (2,255,850) doses and 1,567,190 (1,422,770) cases were issued during the year. A new method evolved and adopted at the Institute for the purification of vaccine lymph has permitted the preparation of highest quality of vaccine lymph at a substantively lesser cost than before.

6. *Bureau of Epidemiology.*—The important work of the Bureau consisted in adopting measures for the control of epidemics of plague in the different parts of the State. Cyano-fumigation was undertaken in 4 cities, 17 towns and 300 villages, treating 253,209 houses as against 140,645 houses in 2 cities, 10 towns and 235 villages in the previous year. In connection with the taking up of anti-plague measures in the bordering areas, as a reciprocal arrangement for the control of plague, between Mysore and Madras States the epidemic areas in the border of Mysore and Madras States were inspected by the Directors of Public Health, Mysore and Madras. It was finally agreed that spraying with residual insecticides may be taken up.

7. *Bureau of Malariology.*—The Health Unit activities in the three Malnad Districts were quite satisfactory during the year. Pyrethrum spraying was completely replaced by residual insecticides like D.D.T. and Gammexane and the spraying programme was carried out in all the sanctioned units in Shimoga, Chikmagalur and Hassan Districts in the Malnad and in Krishnarajanagar Taluk in the Mysore District in the Maidan. The Malaria Control Demonstration Project under the World Health Organisation, after completing their second year of operation in the extended area including the whole of Hosanagar, Sagar and Sorab Taluks withdrew by the end of June 1951. The same programme as was initiated by the World Health Organisation Team was continued during the year and the results were satisfactory. The study of the bionomics of A. fluviatilis in the Malnad was carried out during the year and useful data were reported to have been collected and being studied. Malaria was well under control during the year, in areas where spraying operations were in progress. The question of spraying residual insecticides in Municipal areas was still under consideration. As a result of changing over from permanent labour in the health units to casual labour during the season of actual spraying, retaining only a minimum number of trained men permanently in each primary health unit, a considerable amount of economy was effected.

General.—There was no change in the policy of the Department. Subject to financial limitations, every endeavour has been made to extend the activities of the Department in various fields and most prominently in the matter of combating malaria and epidemic diseases like plague and cholera. A Nutrition Scheme to be worked in collaboration with the Rockefeller Foundation at an annual cost of Rs. 10,000 was sanctioned. Nine new Primary Health Units were started during the year at an annual expenditure of Rs. 1,10,031. The Public Health Cess Act No. XVIII of 1951 was passed during the year. The U.N.I.C.E.F. donated during

the year equipment and drugs for the use of five maternity and child welfare centres. During the year under report, a quantity of 100,000 lbs. of milk powder was received from the U.N.I.C E.F. for distribution in the famine stricken areas. Five officers were deputed abroad during the year. Several distinguished visitors looked into the working of the Department.

The work of the Department was satisfactory.

FINANCIAL SECRETARIAT

Issues certain instructions regarding the application of "Next Below" Rule in the regulation of promotions and secondings of Government Servants in the State.

OFFICIAL MEMORANDUM.

No. FL. (B) 10045-134—C.R. 1-52-20, DATED BANGALORE, THE 28TH NOVEMBER 1952.

The practice at present in vogue in respect of promotions and secondings of Government servants in the State is that all the Government servants serving outside the ordinary line are promoted and seconded consequent on the appointment of a junior Government servant to a higher officiating post in the regular line. The Accountant-General, Mysore, has pointed out that the grant of higher officiating pay for no change of duties to all such Government servants outside the ordinary line would not be in order and has suggested that the principles of the "Next Below" Rule as applied by the Government of India to their officers might be adopted by Government in the matter of promotions and secondings of Government servants in the State. The Government accept the suggestion and direct that the principles of the "Next Below" Rule—enunciated below—should be followed in the matter of promotions and secondings of Government servants in the State.

2. When a person in a post (whether within the cadre of his service or not) is for any reason prevented from officiating in his turn in a post on a higher scale or grade borne on the cadre of the service to which he belongs, he may be authorised by special order of the appropriate authority *pro forma* officiating promotion into such scale or grade and thereupon be granted the pay of that scale or grade, if that be more advantageous to him, on each occasion on which the person immediately junior to him in the cadre of his service (or if that person has been passed over by reasons of inefficiency or unsuitability or because he is on leave or serving outside the ordinary line or foregoes officiating promotion of his own volition to that scale or grade, then the person next junior to him not so passed over) draws officiating salary in that scale or grade.

3. Provided that all persons senior to the person to whom the benefit under the substantive part of this rule is to be allowed are also drawing, unless they have been passed over for one or other of the reasons aforesaid, officiating salary in the said or some higher scale or grade within the cadre.

4. Provided further that *not more than one person* (either the seniormost fit person in a series of adjacent persons outside the ordinary line, or if such a person either foregoes the benefit of his own volition or does not require the benefit in virtue of his holding a post outside the ordinary line which secures him at least equivalent benefits in respect of salary and pension then the next below in the series) may be authorised to draw the salary of the higher scale or grade in respect of any one officiating vacancy within the cadre filled by his junior under this rule.

5. A purely fortuitous officiating promotion given to a person who is junior to one outside the regular line does not in itself give rise to a claim under the "Next Below" Rule.

6. Promotions already made by Government in contravention of the new rule will be regularised gradually to the extent possible and all future promotions should be strictly with reference to the "Next Below" Rule.

7. The necessary amendments to Mysore Service Regulations are being issued separately.

M. SHAMANNA,
Secretary to Government,
Finance Department.

Issues certain instructions regarding the Contributions due to Government from Local Bodies towards the maintenance of Local Fund Dispensaries, etc.

READ—

Letter No. 131-134—B-TM., dated the 7th July 1952, from the Accountant-General, Mysore, Bangalore, stating that the practice of his office intimating the demands to the Local Bodies for contributions payable by them towards the maintenance of Local Fund Dispensaries, Veterinary Hospitals, etc., as per clauses (*a*) and (*b*) of Article 252, Mysore Civil Account Code, Volume I, will be stopped with immediate effect, and that the Heads of Departments may raise the demands direct against the Local Bodies concerned.

ORDER No. FL. (B) 11009-14—C.R. 46-52-2, DATED BANGALORE, THE 13TH DECEMBER 1952.

According to the existing practice based on clauses (*a*) and (*b*) of Article 252, Mysore Civil Account Code, Volume I, the demands for the contributions payable by Local Bodies towards the maintenance of Local Fund Dispensaries, Veterinary Hospitals, etc., are being made by the Accountant-General, Mysore, on the basis of statements obtained from the Departmental Officers.

2. In future, the practice of the Accountant-General's Office intimating the demands to the Local Bodies will be discontinued, and the Heads of the concerned Departments will raise the demands direct against the Local Bodies concerned, and will also maintain suitable registers for watching the recoveries. Copies of the demand statements may be sent to the Accountant-General's Office simultaneously with the sending of the original statements to the Local Bodies.

3. Annually, statements of outstandings due from defaulting Local Bodies should be sent by Heads of Departments to the Accountant-General through the Controller, State Accounts Department, who will forward them after check. The Accountant-General will, thereupon, issue instructions to the Treasury Officers for the recovery of the balances shown in these statements by reduction of the balances of the Local Bodies concerned in their deposit amount.

4. Necessary correction slip to the Mysore Civil Account Code, Volume I, will issue in due course.

PRESS NOTE.

Nominations for Elections to Legislative Councils.

Nominations for elections to Legislative Councils would be facilitated if prospective candidates bear the following points in mind.

1. *Constituency to be mentioned in entries 7 and 8 of the nomination paper.*—Under Section 6 (1) of the Representation of the People Act, 1951, a person, in order to be qualified to fill a seat in the Legislative Council of a State, has to be an elector for any Assembly Constituency in that State, and the law does not require that he should be a voter for any Council Constituency. It therefore follows that entries 7 and 8 in the nomination paper of a Council candidate have to be filled with reference to the Assembly constituency and the roll thereof in which such candidate's name is registered.

2. *Entries 1, 10 and 14.*—In entry 1, of the nomination paper, however the name of the particular Council Constituency in which the candidate is seeking election must of course be given. Similarly in entries 10 and 14 relating to the proposer and seconder also, the serial numbers are to be given with reference to the particular Council constituency electoral roll where the proposer's and seconder's names are registered. Under the law the proposer and seconder of a candidate will have to be persons who are registered as voters in the same Council constituency from which that candidate is seeking election.

3. *Verification.*—A Returning Officer has to be satisfied that a candidate seeking election to a Council seat in a State is an elector for an Assembly constituency in that State. It would therefore be safer for a candidate even before he files his nomination paper to keep ready with him either a copy of the electoral roll in which his name is included or a certified copy of the relevant entries of such roll.

4. *Date of Election.*—The month and the year in which the notification for the election has been issued should be given on the top of the form.

5. *Specification of Election Agent.*—Even when a candidate appoints himself as an election agent, he should specify his name in the form relating to the appointment of electionagent:—

PRESS NOTE.

Nominations for Elections to Legislative Councils.

Nominations for elections to Legislative Councils would be facilitated if prospective candidates bear the following points in mind.

1. *Constituency to be mentioned in entries 7 and 8 of the nomination paper.*—Under Section 6 (1) of the Representation of the People Act, 1951, a person, in order to be qualified to fill a seat in the Legislative Council of a State, has to be an elector for any Assembly Constituency in that State, and the law does not require that he should be a voter for any Council Constituency. It therefore follows that entries 7 and 8 in the nomination paper of a Council candidate have to be filled with reference to the Assembly constituency and the roll thereof in which such candidate's name is registered.

2. *Entries* 1, 10 *and* 14.—In entry 1, of the nomination paper, however the name of the particular Council Constituency in which the candidate is seeking election must of course be given. Similarly in entries 10 and 14 relating to the proposer and seconder also, the serial numbers are to be given with reference to the particular Council constituency electoral roll where the proposer's and seconder's names are registered. Under the law the proposer and seconder of a candidate will have to be persons who are registered as voters in the same Council constituency from which that candidate is seeking election.

3. *Verification.*—A Returning Officer has to be satisfied that a candidate seeking election to a Council seat in a State is an elector for an Assembly constituency in that State. It would therefore be safer for a candidate even before he files his nomination paper to keep ready with him either a copy of the electoral roll in which his name is included or a certified copy of the relevant entries of such roll.

4. *Date of Election.*—The month and the year in which the notification for the election has been issued should be given on the top of the form.

Office Memorandum.

Subject.—*Employment of honorary workers in Civil Post*

Various questions have arisen from time to time i connection with the employment of honorary workers i civil posts. After careful consideration it has been decide that the following instructions should be laid down for th guidance of all concerned.

2. The basic principles to be adopted in this matte are :—

(i) Employment of honorary workers in civil post should be an exceptional procedure to be resorted to only i abnormal circumstances or when suitable paid employee are not available.

(ii) Honorary employment should be offered only t such persons as have rendered meritorious services or ar eminent in public life and have a striking reputation fo integrity.

(iii) Services of an honorary worker should be utilise only in an advisory capacity. The work to be entrusted t

527

should not be such as would involve exercise of execu-, administrative or judicial powers as the holder of a l post or exercise of authority in the name, or on behalf, Government.

(iv) An honorary worker should be paid a nominal ary of Re. 1 per month in respect of the civil post the ies of which he is required to perform. This is necessary order to bring him within the ambit of the Government vants Conduct Rules and other service rules. An orary worker need not, however, actually draw such minal salary and may by writing to the Accounts Officer cerned voluntarily surrender it. For the purposes of cial records, however, such nominal salary must be fixed specified in the order of appointment.

(v) All honorary workers should automatically and *prio vigore* be subject to the provisions of the Indian cial Secrets Act, 1923. They need not be required to any declaration in this connection, but the position uld expressly be made clear to each honorary worker at time of his appointment.

3. It is realised that strict enforcement of the above nciples may present practical difficulties in individual es. For example, it may not be necessary to enforce requirements of clause (iii) in paragraph 2 above in the e of persons who have previously held a high office ier Government. Again, honorary workers who are minent in the public or political life of the country not reasonably be expected to sever their lifelong ociation with the political parties to which they belong; a working arrangement, therefore rules 18, 20 and 23 of Government Servants Conduct Rules ought not to be orced against such persons in so far as participation in itics is concerned. In all other respects, however, such sons should be governed by the provisions of the vernment Servants Conduct Rules.

. In the case of the employment of Members of Parlia-nt in an honorary capacity it is necessary to ensure that h employment does not amount to holding an office of fit under Article 102 (1) (*a*) of the Constitution. In h cases the requirements of clause (iii) in paragraph 2 ve should be strictly adhered to while the requirements clause (iv) should not be enforced at all. The instruc-ns issued in the Ministry of Law's Office Memorandum . F. 55(1)/50-C, dated the 6th February 1951, regard-the payment of allowances and fees to Members of rliament should also be carefully borne in mind.

5. All proposals for the employment of honorary rkers in civil posts as well as all proposals for excep-nal treatment in cases in which the Ministry concerned nsider that the requirements of any of the basic principles l down in paragraph 2 above should be relaxed, should referred to the Ministry of Home Affairs for prior ncurrence.

6. It should be made clear to honorary workers at the e of their appointment that there is no obligation on the t of Government to provide them with residential ommodation or any other concessions usually allowed to aried employees of Government. Each such case would treated on its merits. Accommodation, furniture, etc., y be made available if justified and to the extent it can done without detriment to Government's commitments salaried employees.

7. A copy of this Office Memorandum should be com-nicated to every honorary worker along with the orders his appointment.

8. The Ministry of Finance, etc., are requested to note ese instructions and communicate them to their Attached d Subordinate Offices for guidance. They are also quested to examine the cases of any honorary workers present employed under them or in their Attached or bordinate Offices with a view to ensure compliance with ese instructions.
